Will you be making an ebook on this? I saw you mention this on SE-king..

Analyst - January 4, 2012, 8:30 am

Yeah. I should but I probably won't for a little while.
I want to profit off this, first.

United Kingdom - January 4, 2012, 8:32 am

Nice one dude.

Did you do it on the phone ?

Anyway you would give a hint in a PM or something?

I saw that and tried doing it myself...

Analyst - January 4, 2012, 8:34 am

I want to open it. But, I have decided to give it to my mom unless a real good price come up.
Smh. The temptation.

Open what?

Either way, it's nice to see that you figured out something new.

Analyst - January 4, 2012, 8:41 am

Open the box it came in. Lmao. But, I want to give it to my mom for her birthday and a open box is kinda cheap in my eyes.

The value is the same though..haha.

Thanks but it's not really a mac. I tried the mac and failed.

But, whats funny is I tried the alienware and it work.

You Are Free - January 4, 2012, 8:56 am

You could still share it with a select few.

Analyst - January 4, 2012, 8:58 am

I don't trust people. It will become leaked.

Whether if the person "trusts" another person or select few.

The person is a f00l with s3curity and gets himself, hacked.

Many ways. Not risking it.

Ofc. I wish I was friends with everybody so I had chances to get great methods like this but I have no friends at all. -_-

Just let me know if your willing to give a slight hint via PM. :D?

And if I sell the eBook. I will probably export the copies in bulks. So, I have get max cash off the eBook before someone leaks it.

Don't sell the eBook. It will get leaked. What you can do is sell stuff for damn cheap like 20% of the price and I can guarantee people will buy stuff from you.

Analyst - January 4, 2012, 9:24 am

Yeah. It took me a week, though. Just to get a Mac Mini.

I could sell but inventory would be very slow.

No issues. If people get it for damn cheap, waiting for 2 weeks isn't a problem I guess.

Analyst - January 4, 2012, 9:28 am

Lmao. It's a problem for me. I hate having customers that are not satisfied.

And the demand would increase. So, technically speaking I could raise the prices.

ZZoS - January 4, 2012, 9:29 am

nice going man! do not sell that method! its yours, you earnt it, you use it, dont let others saturate the shit out of it. If you can SE an alienware laptop then you could probably do the same for a high spec pc worth \$2000. If it took a week and sold the pc for a minimum of \$1500. Thats \$1500 a week!! A WEEK!

Updated the thread with the tracking info. I was given.

Took it off after a member told me that it isn't a good idea to leave the tracking info. in the open.

Analyst - January 4, 2012, 9:44 am

I rather receive it myself then sell it on eBay for security reasons.

You Are Free - January 4, 2012, 9:45 am

Eh

I hate Ebay so...

Either way.. Not hint?

Analyst - January 4, 2012, 9:49 am

Nah. Not gonna give any hints, sorry.

And that way if I sell via paypal it would be safe and I wouldn't have to convince users to go first because I won't be.

I have so many methods. I am a Method Engineer. :D

When my website comes out, I will probably release all of them for free and come up with new ones.

With that being done. The new ones will go into the premium section and some back into the free.

So, it wouldn't be for sell now.

Robbin in the Hood - January 4, 2012, 10:29 am

Grats man

dont share your method, i hope i get lucky and find something like this too someday

?????? - January 4, 2012, 10:31 am

Congrats man, i'll buy this ebook once you've released it!

Jerry - January 4, 2012, 10:35 am

Would you do a service for this?

Very interested in a Mac Mini and good job.

Analyst - January 4, 2012, 10:40 am

I might end up doing a service but as said..I rather just sell on eBay.

It's safer. Users will want me to go first and I won't trust them.

Use middlemen? Maybe Staff? Easy enough.

You Are Free - January 4, 2012, 10:43 am

What never makes sense to me is when people try to monetize off of these methods - I mean like make it a business to them. If you have already earned over \$4k I don't see a reason to even try and sell the method, you should just either give it away or keep it to yourself. A service will just give you a headache and the money you earn won't be worth it.

Analyst - January 4, 2012, 10:45 am

And eBay is just safer.

Well, let me know when you feel you've earned enough to start letting this method out without having to worry about not being able to use it anymore due to saturation one you feel accomplished.
