Thread: [>>> Ask a Question Get an Answer <<<](#)

Electrode - January 4, 2012, 1:31 pm

Okay so i think Shektar had the same thread and i see it died out so I'm making a new one!

I am not that experienced as him at e-whoring but i have been doing it for 6 months now and rolled around 4000-5000\$ so far doing it on and off!

I am able to roll in atleast 100\$ a day or even 200\$ if im really in the mood using my private methods as well as semi-public and even public ones!

So instead of budging all the questions into one thread i certainly know alot about chatrooms, blackmail, and tools and

I can provide some beneficial advice! I never really used craigslist that much so won't be able to give much input about that tho.

Other members can clearly reply too and make this a structured one place thread to help each others without spamming the forum!

Okay so ask away :).

Could I have some methods to e-whore?

I have some picture packs, but whenever I get guys off omegle or other chat sites they never pay.

Also that big dating site requires phone verification so I cant do it.

Any help =D

Can I get some of your video packs if possible. ;)

And what type of formats can Manycam play? I have a couple of .avi videos and I keep on getting "This file cannot be played".

You need to work on your social skills and you need to "bond" with people and making the want to give you money. It kinda takes time. Just keep doing it you will get it soon enough :P!

You can make yours pretty easily. Just download "camtasia" go to a cam room like livejasmin/redtube/myfreecams and record a girl and bam you got a pic pac!.

And ManyCams works with .avi videos.. weird..

Could you perhaps hook me up with some sites that give you information? For example "pipl"
Can you also explain how to get information about a person from their ip?

Touch - January 4, 2012, 2:05 pm

Is there any tuts out there that tell you how to develop bonds
and stuff to make them pay you.

Thanks for the advice.

Just chat with them for like half an hour or an hour or if you are gonna go invest find some guy that you think might have some chat with him a few days and then strike ^^! Its a good practice for a newbie or just search google for some unsaturated sites..

How can i get them buying my pics ???

All they do is asking for cam.

I really need help for this

SaveTheRain - January 4, 2012, 2:17 pm

Do you blackmail? Sell pics? Or both.

If you do build a bond with a guy do you do that to blackmail or sell pics?

How do you know you're not wasting time with the guy you're talking to? As in how do you know he has money etc.

Capso - January 4, 2012, 2:23 pm

ajaxh00lig4n - January 4, 2012, 2:23 pm

I find blackmail to be really easy and works like 30% of the time but takes far much more skill as you need be careful not to overwhelm then but make them pay and =\$#! bricks at the same time :P!

Touch - January 4, 2012, 2:41 pm

Hmm, I don't mind learning how to blackmail.

I just don't want to spend hours pretending to like a pedophile so I can sell him pics if you catch my drift :D

How often do you succeed with blackmail? And how long does each one take? I've read into it, seems a little risky and complicated.

I use to succeed every second one (50%) then i took a break now i suceed like 25% which is really nice tbh considering u get 100\$ per pop if you do it right. I stopped blackmailing again tho since i have a better method all together and less risky!

Thanks for the feedback, I might attempt it. Don't mind if I don't succeed, just would like to see how difficult it is, to dox and the main blackmailing part. ?

Edit: Do you ask for an Amazon gift-card or direct Paypal?

I usually ask for the direct paypal donation payment but amazon gift cards work pretty good as well!
