He isn't staff anymore. His name is on that last list.

He is on the list at the bottom, he isn't a staff member.

I have noticed that, since the day Peter Chao got staff.

I have sent PM's to Crow months ago, I don't think he checks his PM's.

I think everyone knows to visit here.

Every kind of forums has a forum team or forum staff link on the bottom of forum index page.

Captain obvious here. Everyone knows this, I was just stating the error on the page I linked.

What I'm saying is that it's not a priority to update that and besides, you already PM'd Crow. That's what you're supposed to do and you already did that. No point of making a thread about it.

In the meantime, people can just check the stafflists.php for the current staffs.

inb4 you reply with a meaningless response.

You're the one replying with offtopic/unrelated post.

There is no error on the Help Documents. It just needs update (which really isn't a priority since we have staffslist).

Factor8™ Wrote: [\[CITE\]](#) Please pm Crow.

As you can see, you're supposed PM Crow when Help Documents needs to be updated and you said you did that already.

Well he is on the staff page, I think that will do fine.
