Thread: [Earn \\$50/day with the advantage of Google AdSense with pic \[Proof\]](#)

raiz_222 - January 5, 2012, 8:02 pm

Things you need before we get started:

Free Google AdSense Account

Website or Blog. You can make a free blog at Blogger.com

So you are probably wondering how much I make. Below is a screen shot from one day of earning while using the techniques I will teach you. If you do the math that's about \$6,000 a month!

The first thing you should know is what everything means.

Page views: Number of people that have visited your website

Clicks: Number of people that have clicked an ad on your website

Page CTR: Stands for Click Through Rate. It is the ratio of the number of times the ad appears on your website and the number of times people click on it.

CPC: Stands for Cost Per Click. It is the average amount you are paid every time someone clicks an ad on your website

Page RPM: The estimated amount of money you would earn per 1,000 page views

Pm me or reply to get the technique, how to earn \$50/day.
