Windows 7 was my idea - January 6, 2012, 2:24 pm

I think it'd be a good idea to have an application form for everyone who wants to apply just so you can get a better sense of who really deserves it. Least ways thats usually what everyone else does. Just my 2 cents.

Anyways,

I'd really like to be upgraded because ive been on Hackforums for quite a while and im always helping people out and i usually have a good attitude towards everyone i don't think theres a single member here that i have hate for. Ive also done a few giveaways and what not if you'd really like me to i can probably post a few. Also ive got quite a bit amount of rep for being HQ and helping people out.

Cheers and GL to everyone else.

Ruzlier - January 6, 2012, 2:25 pm

Broken IMG, I didn't get accepted to Ub3r because I didn't do the routine minecraftaccountrepboost but GL everyone who did.

EDIT:Img working now

NotUsingAnymore - January 6, 2012, 3:45 pm

Well I think that I deserve to be upgraded because I always help people if I can.

I have been giving out alot of free stuff, like Youtube Boosting, Steam accounts and other Virtual Items

I am having my 10th contest at the moment. So beside the normal give away stuff I am doing I also having contests Contests ([Click to View](#))

I am trying to be as HQ as possible but I my self dont think I am 100% HQ yet. I am between Neutral and HQ. I think I still could do more, maybe gain more knowledge in hacking, programming and stuff like that so I can help with that.

I have had a few informative threads. Like announcements from steam and such. So poeple are updated about special things

Well I think thats it. Good luck to every one which participate in this contest. There are many which deserves it :)

damn this sucks i got accepted to ub3r also gl too people

Colossus - January 6, 2012, 6:08 pm

You should make me ub3r because i'll be your best friend :D

I also try to help out everyone who needs it best to my knowledge.

I personally think I am posting higher quality posts.

As soon as I start earning proper money (A few months time) I'll start doing giveaways for electronical items and virtual items such as Steam game, gift vouchers ect.

Good luck everyone :)

Nice upgrading thread you got here Riggs.

Good luck to all who enters.

Pillows - January 6, 2012, 8:34 pm

I would like to be upgraded because when I become ub3r my inbox can become larger which allows to help more people at the same time. This also might be a bit selfish but when I become ub3r I would be able to help the community by identifying who can and can't be trusted. (Although that is until the vouch system is set up). Also by having my inbox become bigger it would allow me to also start in many contests where I would have to PM people for their prizes such as Minecraft alts or original live emails.

Just to make the application a bit less serious but by getting ub3r for me you would be helping Hackforums and helping me as well xD

Edit: If needed I can send you the proof of approval.

NitroDemon - January 6, 2012, 10:13 pm

I think I deserved to be upgraded to ub3r because I've been a very high quality member here at HackForums, doing many giveaways and such. Even though some people might think they are trash giveaways. It doesn't matter, it is the thought that counts for me.

Giveaways:

I know that is not many but check out my join date. (December 28, 2011). I am currently not approved for ub3r but I hope that by entering you will hold the \$20 and upgrade me when the time comes.

I am also selling a very good booter, [here](#). I added this to the application because this is not a shit booter which will last 3 days, be taken down then I will say forget about it. It went down, and I worked for 2 days straight trying to bring it back up. I really hope you choose to upgrade me, I will be thankful!

NOTE: I am not accepted currently but would like to still enter this contest. (Either you can hold the money or just send it to me. Or not allow me to enter.) Either way, thank you for holding a great contest.

Angelic™ - January 6, 2012, 10:36 pm

Why You deserve it?: I deserve this upgrade because truly I improved as a member and will only continue to improve. I have also done my best to contribute to the site. I respect everyone decision that they make, I post with maturely, and without flame. I respect other members and their point of views on any topic. This is why I am the most deserving member for a upgrade. I'm here too learn more and getting UB3R is like a push up to learn more and faster ,also I help out throughout various areas of the community offering my help both knowledge wise or by means of emotional support. I given all to this community. Whether I win or not, I will still try my best to be a high-quality member. I don't have a paypal or anything like that so I really cant contribute much but I do try my best.

Why do I deserve Ub3r

Well, I have been here from 2010 and have been trying to help contribute to the forum without spamming and at the same time help other members. I Wish to become an Ub3r for the self satisfaction of making it to that group, I try to respect everyone, help everyone who asks legit questions. I try to help the sections I am adept in, while at the same time learning and teach others who want to learn. I do not want to come here thinking I am the member who deserves the upgrade the most, because I probably don't, but I can atleast think that I DO deserve ub3r.

I would like to be taken into consideration for Ub3r upgrade, i have been approved and my contributions are listed bellow -

Spoiler [\(Click to View\)](#) I have done several giveaway signature threads which I plan on continuing, asking nothing in return, some of these can be found at the top of my threads,
<https://hackforums.net/search.php?action=results&sid=3ea374b6dc774bf91007d5ff88050b84>

I donated the first full avatar gallery to hackforums which omni approved and awarded me for which can be found in the default gallery section, the pack is called 'eruption0100' which was my old username at the begging.

I am always contributing artwork and understanding to threads in the hope to provide help to other users on the site and to make it a better place for everyone, i do not flame as it is not necessary.

I am currently an GIMP teacher and I am writing a book on how to use the program which consists of 80 pages so far and counting which I will be releasing to hackforums and hackforums alone.

When I earn more money in the future I plan on donating to the site

Vulcan™ - January 7, 2012, 4:59 am

First of all.Thank you for holding such a nice competition.

I think Ideserve UB3R because of quite a many reasons,
First of them is I am a fairly HQ member of this community,I do not troll,spam or flame,and always try to maintain good grammar.

What have I done for the community you ask?

Well I try my best to share my abilities with the community, and have done some giveaways here and there some helpful posts, also have helped some members over skype, and I also try to help every member to the best extent of my abilities!

Here are some of the contributing threads I have made.

[Tutorial on how to use Google music outside the USA.](#)

[Giveaway of my E-Whore pack.](#)

[Ebook on "how to earn 100\\$ a day".](#)

[Minecraft account giveaway.](#)

[Netflix and minecraft account giveaway.](#)

[Huge ebook pack giveaway 500 ebooks.](#)

[Share Cash Methods to earn a living\(Ebook giveaway\).](#)

As time passed by I have learnt a lot on HF, some of which includes:

RATs, Social engineering, E-whoring, Keylogging, HTML, I am currently in the process of learning GFX;

If I get UB3R, This will give a boost to my efforts of staying active in this community and further honing the skills I have learned. And help others as much as I can.

I hope this application is thorough enough. Thank you for taking your time in reviewing this. May the most deserving member win!

First of all, let me introduce myself.

My name is George and I live in Greece. I've been a member here in hackforums.net since 2009 as you can see but never been able to upgrade to Ub3r because I cannot have PayPal account or credit card (I'm 17 years old).

I've been active in many sections trying to help people with their problem as long as I know the right answer.

I know that I haven't contributed enough till now with tutorials/guides/giveaways because I'm currently trying to help hackforums.net be a better place by searching for posts that break the rules and report them.

You can see in my threads and posts that even if I haven't yet made big and many tutorials, I still try to post HQ and help everyone as much as I can. Also, I try to fix my grammar as English is not my native language.

Well, to summarize, let me tell you in general why I think I deserve to be Ub3r. I try to be HQ member as much as I can by helping people while keeping my grammar and my posts' layout to the highest level of my knowledge.

I can help many people in Computing section with their Computer and I've big knowledge regarding Hardware & Overclocking.

I always, always try to improve myself.

Every time I learn something, I feel the need to share my knowledge with members in hackforums.net.

I want to make people here trust me and make new friendships with them. You can see in my

profile that I'm very friendly with everyone without exceptions and I'm proud of it ?

Well, I can't think of something else for now, just woke up, my mind is still sleeping ?

I really appreciate your willing to help other members that don't have money to upgrade or they just cannot find a way to pay for upgrade.

Why I deserve:

-> I love a good laugh. I also enjoy good pointers, or HQ threads, and I always let people know, by spreading the love. If it means +repping, or simply letting them know in PMs, it really enhances the overall casual fun of the place.

-> I may not post as much, but I always PM users in the hacking topics, to help them with their demands, and almost ALWAYS learn things along the way! It is so good to silently contribute to users this way.

-> With the title of Ub3r, people will trust me more when I plan on doing giveaways, product launches, and other selling items.

Thanks, and congrats to all those who have earned it, look forward to seeing you round.

I think I should be upgraded (to Ub3r / l33t) because I can help a lot of people with many things:

- Batch (I have a lot of experience with the batch language [5 1/2 years])
- VBScript (I have about 5 years of experience with the VBScript language [6 years])
- ROM Hacking (I know a WHOLE lot about ROM hacking, but I will only give help to those who swear that they are only hacking the ROM for their personal use and entertainment. HOWEVER, you CAN give out IPS patches for hacked ROMs, and I will teach anyone who asks how to make an IPS patch from their hacked ROM. By the way, IPS patches ARE legal.)
- JScript (I have about, well I'd say about 3 years worth of experience with JScript)
- Hacking In General (I have started hacking many years ago. The first time I hacked something

was when I stole a password with Brutus when I was 10).

- Website Login/Registration Problems (My father worked for a company called "Wylie". He taught me how to get around problems that people had with registering/loggin in on ANY website.)
- I wish I could give +3 rep to all of the awesome things that I see.
- I am trying to be as HQ as possible, but I know that I am not 100% HQ yet.

This is why I think I should be upgraded to l33t / Ub3r . Oh, and Riggs, thanks for you doing this. I'm sure everyone that you have helped is extremely thankful.

Goodluck to all who enter.

A small question: Can I enter when I am accepted for upgrade Normal-Ub3r or is it only L33t - Ub3r.

Thanks for your help to the community, appreciate this.

Nub. - January 7, 2012, 10:05 am

Ever since I joined hackforums I have tried to be a high quality poster that helps whenever I can. I always try to help people when capabale, and I am quite active. When I post or try to help someone I make sure to always be polite and try to use proper grammar so it is easy to understand what I am trying to say. I also think that I would use my ub3r power to its full capabilities. Overall I try my best to be the most high quality user I am capabale of being, and that is why I think you should upgrade me.

- A list of things that I have done for this community-
- Given out free RSbot Auths
- Helped answer many questions about Runescape and Gaming
- Hosted CoD prestige lobbies
- Helped people with viruses in the white hat section
- Given out ways to make money for free
- Answering any questions that I am capabale of answering

I also feel that I am ready for an upgrade to ub3r. I feel that I am active enough in the forums that ub3r would better suite what I want to do on the forums. Like hackforums advertises, being upgraded to an ub3r has many great benefits, and I feel I would use those benefits.

-A list of skills that I have to offer- -

- Gaming
- Basic Virus Removal
- Social Engineering
- Making Money Online
- Setting Up Keyloggers/RATs
- Recently Started Researching Java

Above all I feel that compared to most people on hackforums (not all people) I am quite high quality. Right now I see many users who are very high quality, and post very good information, but I also see a lot of trolls and low quality posting going on.

Thanks for hosting this upgrade contest, and goodluck to all of the applicants!

I would like to be upgraded so i can learn new methods to earn cash, and be able to do contest like this later on to help people out that want to do the same thing as me, also being a l33t to new members that shows experience and trustworthiness along with a good rep and they would be more willing to let you help them out. Also i hate scammers so i would be able to help get rid of them.

Haxwel - January 7, 2012, 11:03 am

I think I am the member who deserves to be upgraded, because I had free graphics service that was 9 pages long. I have also had few contests - links below. Reason why I can't upgrade myself isn't because I don't have money. Reason is that I can't use my Visa online.. Anyway, here are link for my contribution threads:[My free GFX service](#)

I think I should be upgraded to ub3r for the following reasons and things I've done;Since I brought

I33t (and prior) I've been doing many free give-aways which had no shitcash links (previous to having I33t I did use adfly but not any more). Here are some examples;

I do have a few more.

Hackforums has helped me make a bit of money which helped fund my education and to buy I33t which is amazing. As an ub3r I plan on opening a RS gold shop where I buy low and sell high, the ub3r status carries a lot of respect and shows I can be trusted so it should help the business launch off to a good start, once I make some good money I intend on upgrading a member from normal to I33t as a way to say thank you to HF!

I plan creating an unofficial group dedicated to "noob" graphic designers, I've got 2-3 professional graphical assistance who will keep the group in check and we will assist amateurs to become pro!

I'm always in the science and politics are debating with people, even if I know the argument is against me I will push at it just to see what other outcomes the person debating against me can come to. Check this one out Spoiler ([Click to View](#))

<https://hackforums.net/showthread.php?tid=2080922> I try to provoke people this leads to better and more intense arguments which I think are much better.

I've never EVER had any warnings during my life at HF.

Thank you for giving me the chance of being upgraded to ub3r. I do not have the money right now to do so myself so it would be amazing if I could.

Peace!

Why I think I deserve to be upgraded?

I think I deserve to be upgraded because, I'm planning on a great revolution in HF.

I'm going to be creating much tutorials in different sections not just one, few of them that I'm planning on is some Maplestory detailed hacking guide, due to nobody in maplestory section knows how to hack and they download virus lol. Another one would be how to crack steam accounts detailed guide.

I have also done giveaways to HF, I did free humble bundle pack, free slaves, and Minecraft accounts.

I'm planning on doing some really big giveaways, all members Minecraft account giveaway and steam account giveaway.

I'm also an active poster, I just joined recently yes I know, but I have already accomplished a lot.

I have quality in my post, I do not just post just to raise my post counts.

I'm a Mature person, I don't usually get provoked often.

I'm a big forum person, here was my previous forum stats. It's pretty high and the fact I've been inactive on it already.

I was a great member on that site, but the forum is not dead. Now point staying there, and then I moved on to hackforums. I love the community and I believe I can do great contribution to HF.

I originally was gonna buy uber myself personally, but then my paypal got but fucked ? -63\$ balance atm. I'm planning to be active around the forum and you'll notice me :)

Thank you, and have a great day!

Introduction:

Hey I'm Jinu. I'm very calm. And like to be friendly! I would like to become a Ub3r to learn more, contribute more and more and become a HQ member . I would like to buy but i don't have money to buy!! :(So i come here for your help!

My Profile Link: <https://hackforums.net/member.php?act...uid=463848>

Why i Deserve:

This may tell why i deserve it. I have contributed and helped many members in HF! Mainly in RAT section i have helped many members for about RAT, port forwarding. And i have many plans too after become a Ub3r I'll post more HQ contents. And I'm a member of Red Lion in the sake of catch the Scammers and save the members! If I'm Ub3r too it can help me more to catch the scammers easily and save many people. And I have posted some TuTs also and I'll post more and be HQ ou can trust me sir.

So I'm waiting for a great person to upgrade me to Ub3r, If you upgrade me you're the great person

to me!! And becoming a Ub3r and contribute more is my dream. You can make my dream comes true!! Thank you!

I have been here for long time!! Hope you make my dreams come true!

Why I should be upgraded

I have been a member of HF for a long time. I recently took a break, and now I want to rejoin this great community. I like to post interesting things in SRPP section becuae I enjoy a good debate. While I do not have the most posts or rep of the people here, I really love participating in the community. HFs is not only about hacking, it's a about a huge group of people coming together and sharing their knowledge and opinions on a large amount of subjects. I think I am contributing part of that.

Thanks,
Milo109

P.S. Written from my iPhone, so might contain some mistakes. I'll show proof I was accepted by pm. TY.

I respect everyone decision that they make, I post with maturely, and without flame. I respect other members and their point of views on any topic. This is why I am the most deserving member for a upgrade. I'm here too learn more and getting UB3R is like a push up to learn more and faster ,also I help out throughout various areas of the community offering my help both knowledge wise or by means of emotional support. I given all to this community. Whether I win or not, I will still try my best to be a high-quality member. Latency - January 14, 2012, 11:45 am

Why I deserve to be upgraded: I've been on the site for quite a while, during my time here I have never once had a single scam report, negative rep, or been banned. I've only been warned one time (reason was quite stupid tbh). I've been approved for UB3R since mid 2011 and 99% of my post

(outside the lounge) are on topic and of decent quality. I've done my best to help anyone I can by giving free FUD crypts, giving any helpful hints, or knowledge I can, and just generally being a nice person.

If needed I will screen cap the PM from Omni showing I'm approved or you can connect over TV. Have a nice day.

RepV - January 14, 2012, 12:04 pm

I think i deserve this upgrade because I have been on hackforums for a while and have tried to contribute methods and freebies as often as i can. I also try to keep my posts HQ even though i know they are not all HQ yet but i think i am improving.

Some of my contributions to this community are:

Some spreading methods that we're my idea and not stolen off others.

hgdfhsdgdgdfdh - January 20, 2012, 5:40 am

Why I think I deserve upgrade to ub3r:I'm active member

I have never had any warnings

I help people in coding problems and like doing that

I contribute lot of free stuff (5 pages of threads, over 90% are contributions)

I am not here for money and profit, actually I have never sold anything I have done. I nearly always release full source code of my programs when I contribute. Example: I have had quite popular free crypter here on HF for few months.

I consider my posts as HQ posts and I don't flame/troll

I know what I'm saying. I usually claim things only when I have some real proof supporting my claims (usually on programming related discussions)

I'm interested in learning new stuff. I never beg people to do things for me (code a program etc.)

I have approval of Omni

Some contributions:

[\[VB.NET & C#\] PolyAES - Very high security AES class - Unique output - 256-bit - Salt](#)

Before I start off saying why I think I should be upgraded, here's a picture of me being approved by Omniscient.

Spoiler ([Click to View](#))

I feel I should be upgraded because I've been a member on HackForums for a very long time, I have over 1000+ posts, and have done a lot of giveaways (as said below). Most people would think this isn't much but most of those people are Ub3r with over 5000 posts and 500 rep.

I've had a lot of helpful threads and giveaways:

<https://hackforums.net/showthread.php?tid=2115885>

I've taken a lot from the community so I think it's only fair to give back. If I get upgraded, you can expect a lot more giveaways from me. I'm mainly active in the subforum "Monetizing Techniques" but I've started to go on to subforums like "Graphics" and "Science, Religion, Philosophy, and Politics"

I like to think of myself as HQ and I've helped many users in the past, thanks for giving me this opportunity, good luck to everyone :)

Imperialz! - January 21, 2012, 6:55 am

i would like to be ub3r as i think its pretty much more respect that you gain, people realise you not a noob. I have started give aways, which is going well i guess, but yeah. I cant think of nothing reasonable for you to upgrade me but better to try than not :D.

xLynkz - January 21, 2012, 8:05 am

I believe I deserve to be upgraded because Im an HQ member, I help alot of people & Im always nice to everybody, Never had a flame war with anybody orso :3
Ive made sigs for free for 10+ members (Like [PubMaster's sig](#))
I do giveaways when I can (Cant buy stuff online so I give away codes that I get & Stuff like that)
I always help people when they need help, Thats what I mostly do on the forum, Lurk around posting in people's threads when they have questions. :P
Im also very active on the forum & Have been approved for Ub3r ^^

Though I've had my fair share of members throwing fits and -rep'ing me I do believe I deserve an upgrade because I've been contributing to this forum with some HQ threads such as:

No Post/PM's just FREE - I realize surveys and post/pm's are frustrating so I'm against them.

[Tweet Attacks Pro](#)

[Copy/Paste WSO](#)

[\\$100.00 per Day Adsense Guide WSO](#)

[Simple Job Killer WSO](#)

[CPA Method WSO](#)

I leaked most of these WSO's and gave them out here for free.

And of course, my most high quality tuts. [Sabotage Guide Part 1](#)

[Sabotage Guide Part 2](#)

[Infiltration Guide Part 1](#)

[Infiltration Guide Part 2](#)

[Wheatpasting Tutorial](#)

[Laser Communication Tutorial](#)

I've been been tempted to put out some new threads, but always wanted to contribute it to the upgraded section of the site, where I have to be less fearful of leeching and what not. Anyway, that's

just why I think I deserve an upgrade - up to you though sir.

Vouch for Riggs service, upgraded me to Ub3r.

LoG?c - January 21, 2012, 6:20 pm

Hello, Riggs.

I'm honestly wanting this upgrade because I think that If I get l33t I will be on 24/7 even from my iPod or Cell. I'll try my best to host all types of giveaways, I'm currently having one. I'll mention my giveaways later, But my point is.. I'm trying to learn how to code so I can release stuff for HF.net in some sections I'm active in and HQ. I've helped tons of members over via Team Viewer & Skype. I'm a nice guy I like doing hands on helping people, It's the way I feel comfortable with.

Giveaways;

<https://hackforums.net/showthread.php?tid=2109760>

<https://hackforums.net/showthread.php?tid=1747705>

As I said before, I'll be having more for my sections I'm active in I think I'm going to host a give-away for Habbo Hotel or Minecraft once more then I have to go do some homework.

Thanks for this generous giveaway Riggs, You're the best!

I hope I get upgraded, I'm personally wanting it and been looking for a upgrade contest.

I think I deserve to be Uber because I really help everyone on HF a lot. I try my best to help the

newcomers out and be a nice person to them. I stay as active as I can although I have been having computer problems lately. I have been with HF for a while through some of the good times and the bad. I know it gets really hard to post on here sometimes but I always do my best to keep HF as HQ as possible.

(Jan 21, 2012 09:14 PM)Desire_ Wrote: [\[CITE\]](#) Desire_'s Upgrade Contest Application!

Let me introduce myself before I tell you my reasons for you to upgrading me.

I am Ian and I am 17. I'm your average guy, not fat, not skinny either, around the middle. I've been interested in technology and hacking since I was very little. It was like a past time for me, having an advantage over my peers and many other reasons. I live in Australia, Sydney and registered last year, October the 18th, when I realised Hack Forums was a place for me. Due to some complications and a limited PayPal, I am unable to get the ub3r upgrade unless I win a contest. I remember vividly being joyful when I opened the PM and saw that I had been accepted and the feeling when I opened my PayPal and saw the limited account message staring at me.

I'm the type of person who likes perfection. If I realize a error in my sentence, I fix it. I report all low quality posts, to leave all the high quality posts. Even if it's my friend. I have edited this around 6 times already, just saying.

Now here are the reasons you should upgrade me!

I think that I deserve to be upgraded because I always help people to the best of my ability, no matter who they are. I do giveaways constantly and a few tutorials. I always strive to be as High Quality as possible and share my knowledge. I can help in many sections because I know quite a few programming languages.

I am trying to be as HQ as possible. As well as giving away, I have picked up a few skills too, such as various Social Engineering techniques. I also learnt quite a few monetizing techniques which I had been kind of successful on but had to stop because of a limited PayPal. I own a few popular resource sites which many members use, such as www.mcgrief.com

Skills:

Programming languages: HTML, PHP, Obj C, C#, C++, Learning Java.

Website experience: Semi website designer.

Know HTML,PHP and can operate SQL databases

Graphics:

5+ years of Photoshop

Can do almost anything you define.

Hacking:

Rat's

Ddosing

Password cracking

SQL injections

White Hat:

Virus Removal
Hardware recommendations
Software recommendations

Other:
Gaming
Good sense of humor :D

If you are wondering, my warning level came from my account being hacked and various people posting low quality posts. I have been ub3r approved, just ask for it if you decide to upgrade me :)

Well, thats it. I wish everyone good luck, and thanks. ^^^^This guy, if you only pick one more person, make it him.

Thanks!

Hi,

I think i deserve Ub3r because I'm a very hard working and HQ member of HackForums, i strive to help people here, whether it be new people, to old people, Also, being upgraded serves as motivation for me to continue helping people!

Also, the fact that i get even more PM space is amazing, as a normal member i constantly was full, and now as a L33T, i have plenty of space, but i still get alot of PM's, so if i get Ub3r, That would never happen, and a lot of people can contact me.

Upgrade from L33t to Ub3r

Name Zach

Age 18

Why you deserve to be upgraded: I deserve Ub3r, because I help the community in the ways i can, whether it's giving out download links or just my opinion on a subject.

I am a very active user, i may not post as much as some people but it's mainly due to the fact that i don't want to spam posts across the forum saying something that has already been said. I'm usually on about 4-7 hours a day whether it be in the background or i'm surfing the forum looking fo something to post on. I have been respectful of all other members to this

point and by getting Ub3r i will uphold the same respect that i have had this entire time.

I think I should have ub3r because I'm one of the oldest active members on HF. My original UID was 980 but crow fucked that up and I lost ub3r because he merged my account with an imposter. Everyone basically told me to fuck off and refused to fix it. I lost ub3r, my gold medal, and a sizeable amount of rep because of blatant laziness. My join date is still the same though as proof.

rxki - January 25, 2012, 6:33 am

I think I deserve to be upgraded to ub3r cause I've tried to be high quality, and still am. I'm trying to better the community overall by helping anyone I am able to help. I'm also trying to expand my knowledge in coding and will be trying to join "The Alliance" so that I may increase my knowledge overall to where I am able to help more people.

I know I haven't done any tutorials, giveaways or helped anyone majorly. But I have tried, and I will continue to try. I will be dedicating my time mainly to Hackforums so that I can increase my knowledge faster.

What I'm getting to is, the fact that I am trying to earn it, or deserve it. I'm trying to be as high quality as I can.

P.S - Thank you for the contest, congratulations to whoever gets upgraded.

Riggs, you know me man... and you know the work I do.

I would really love to be upgraded.

Thank you bro.

Jeremy Mckinnon - April 2, 2012, 9:10 pm

I think I should be upgraded because i love this forum but at the moment don't have the money to buy my own upgrade, i love this community and would love to be able to support it further. I post regularly and try to help people whenever possible. I haven't contributed anything tutorial wise but when people ask questions I do my best to help them.

I think I deserve to be upgraded to ub3r because I try to be and I am a good member. I have been a member of Hack Forums for a year and have helped many people. I try to help Hack Forums as much as I can and help the people. If someone needs help with something I can always help, or try to help them to the best of my abilities.

I would like to be Ub3r because when giving away things, it is very annoying having a low inbox space first off. I am a very HQ member here on HF. I am very active as you can see from my online time. Also I post a lot per day as you can see with my 19+ posts per day. I do some giveaways to help out other members in need. I will not be leaving HF anytime soon, as I am always home and do not like to go out. I don't scam people. I go by the motto: "Treat others the way you would like to be treated." And with scamming I wouldn't want to lose my valuables because I know how long it takes to get it. Soon I will also be hosting some contests for all members. I help out people that need help. You won't regret me being Ub3r.

*I have Omni's approval for Ub3r.

District - April 2, 2012, 10:39 pm

I'd like to be upgraded from l33t to ub3r(I have approval).

My reasons for wanting to be upgraded:I try to help anyone that asks me for help, and I offer my help when I can guarantee a fix for their problem.

I try to be HQ at all times, and I try to get a better view on all situations so that I can respond or give feedback the best way that I can to improve the results for both myself and the community.

I recently have started to do a few giveaways/contests, and in the future, whether I win this upgrade or not. I will do more and more giveaways/contests.

I have started writing tutorials in areas that I have experience in, whether it be from rating players for their virtual items in which the user can sell, or teaching people how to start their own botnet and obtain slaves.

My giveaways/tutorials(To this date):

Thank you very much for this opportunity Riggs, I hope that I win, and I hope that you continue upgrading members of HF as it is very generous.

Please PM me if I win and you plan on upgrading me.

?rtificial - April 2, 2012, 10:44 pm

I deserve this upgrade because I keep the quality of the forums high. I refrain from starting arguments and childish related acts on HF. Though I am unable to host giveaways or give out money like many of the delightful members of HF, I help the community daily by trying to answer as many questions as I can when people are posting for help on their threads. I go around parts of the forums that I have knowledge in and assisting people the best I can. I have wrote a tutorial to help some members better understand things that I feel some tutorials just don't do it. The said tutorial can be found here: <https://hackforums.net/showthread.php?tid=2101162>

I have also started a thread to inform people about the crypters that are being sold in the Marketplace, so they do not waste their money to only find out that the product was not what they expected. It can be found here: <https://hackforums.net/showthread.php?tid=2226711>

I am active and post quite often to keep the forums active. I have some neutral/negative reputation, but they are mostly good or from immature kids, who they themselves have either scammed or raged. I can prove that if necessary. I have even tried and succeeded in joining some official and non-official groups on HF and supported their work in making HF a better community for everyone else.

Listen to this if you get bored: [Video: <http://www.youtube.com/watch?v=sr4bnlQpnfE>]

Or this: [Video: <http://www.youtube.com/watch?v=fx8ZKG3ybHo>]

Hello, well I want Ub3r because one day I made a giveaway for a program called PWNAGE(\$15) and about a few lot of people entered the giveaway, after the giveaway was finished people kept asking me for the program via PM or skype, so I bought them it because I felt sorry for them and wasted money that I was going to use for something else, then I got some more money to use and so I made a giveaway for a minecraft client called Unknown a few lot of people entered.

After I reviewed the applications I bought them the Unknown client, and then I had some spare change left so I bought my friend (Death Disturbance) the PWNAGE program, after I buy him it he says he actually wants garrys mod and he told me to refund the money, knowing the lazyness of me I was said to him that he could keep the program and I would still buy him Garrys mod, so I bought him both.

After that me and him were great friends, he made a fanclub thread for me and I posted how much people I bought it for, it was around 7 people I bought the program PWNAGE for and about 1 person I bought the minecraft client Unknown for. So me and Death Disturbance were talking and he mentioned Ub3r and that he got declined twice, he then asked me if I would try to apply for Ub3r and I said to him "No way I would get declined instantly", he kept asking me to try and apply so I did.

After I sent the PM to Omni I waited for about 1 day, I didn't get a reply yet so I waited a few more hours, then finally I got a reply from Omni, my mind told me that I knew I would not make it for Ub3r since Death has so many posts and +Rep and most of his threads are HQ but he got declined. I read the message and it turns out I was accepted, I jumped with joy and then realised I had no money to buy myself Ub3r because my head told me I would get declined.

So now I've been going around entering competitions hoping that I would win, but I have not won any, I spend most of my time asking my friends if they would buy me Ub3r, but they don't have enough money and I'm broke so that's why I'm entering this competition, Goodluck to all who entered. :)

a short story i like: a romantic story i thought of LOVE ; - Girl: Slow down. I'm scared.

Guy: No this is fun.

Girl: No its not. Please, it's too scary!

Guy: Then tell me you love me.

Girl: Fine, I love you. Slow down! Guy: Now give me a big hug. (Girl hugs him)

Guy: Can you take my helmet off and put it on? It's bugging me.

In the paper the next day: A motorcycle had crashed into a building because of break failure. Two people were on the motorcycle, but only one survived. The truth was that halfway down the road, the guy realized that his breaks broke, but he didn't want to let the girl know. Instead, he had her say she loved him, felt her hug one last time, then had her wear his helmet so she would live even though it meant he would die. GIVE YOUR LIFE TO SAVE SOMEONE YOU LOVE

I feel I deserve to be upgraded because I have helped out the community a lot, and would like access to all boards.

I have helped hundreds of people with viruses. Some days I will be PMing all day on how to fix it. Also I have helped tons of people reload their OS on aim. I gave them detailed instructions on how to do it. I have helped people set up their rats. I feel I have helped the community. I know I have only been here 2 months but I feel I have done my fair share so far :) Also as of now I don't have the money for Ub3r. This would also help me be a more trusted business man the buisness I am going to hopefully soon start.

Thanks a ton Riggs,

Honestly, could someone quote this for Riggs to see? Because I'm "re.fresh" and after my name change I messaged Riggs with something like: "Hey, how's life treating yah?", which landed me a spot on his ignore list, I'm assuming because he did not realize who I was. I would really like to keep in touch with Riggs and if someone could merely quote me, or send this in a PM to Riggs, it would be greatly appreciated.

And good luck to all applicants.

Why I should be upgraded:

I am a high quality member in my opinion, and feel like L33T could benefit me more on HF. I'm not going to lie, but a lot of the contests and other things on here are for UB3R/L33T members, and I feel left out. I also contribute a lot with giveaways and want to host them regularly, so in the future, the \$20 for L33T would be used for something else. :P I may not post a lot, but I would say that they are HQ when I do.

Good Luck to everyone!

n00b.ca - May 3, 2012, 3:14 pm

Some members here have a misconception of upgraded members being annoying people who abuse their powers and responsibilities. On the flip side of the coin, some upgraded members think that normal members are "skids" who know nothing and are "pathetic fools". I would like to change that misconception by showing people that an upgraded member isn't all that special rather an equal person. I intend to show to normal members that I am humble and respectful regardless of forum status. I will give equal respect to normal and upgraded members alike. Also, if I ever become an upgraded member I will show to normal members that upgraded members are not stuck up people and can be quite pleasant to be with. Also, I believe with respect shouldn't be bought but earnt. That is why I did not buy myself leet. I want someone to say that I deserve to be an upgraded member and I am worthy. Hopefully you see me that way. Besides my belief, I can also stand up for normal members who are abused and scammed regularly. I have dealt with many scam reports and helped members recover and give tips to them as well. I offer many forms of advice and tend to help almost everyone in this community so that it will be a better and safer place for all. All this would be possible if I was given the opportunity of being upgraded.

Liberty Reserve© - May 5, 2012, 1:59 pm

I would like a L33T upgrade sir.

Why I think I deserve it:

Hi, first of all, thanks for doing this giveaway/contest! I believe I deserve it because I have been an active user on Hack Forums. I have been striving to help members, whether they are l33t, ub3r or normal members. I have done some giveaways in the past like Hosting, proxy list, crypting. In fact, I am trying to set up a bigger giveaway that should come soon. Like I said before, I have been working on helping all members and that is most likely via PM. Because my PM space is small I find it annoying always having to delete messages and I always have to be at 80% full because I have important messages that I keep. With l33t, I can have a bigger PM box that can enable me to hold

all my messages. This could definitely help if I want to sell something and do a giveaway all at once, then I won't have to constantly delete messages. Hack Forums is a fun place I like to visit everyday and being upgraded would only make the experience awesome.

Proof of give aways:

<https://hackforums.net/showthread.php?tid=2467111>

<https://hackforums.net/showthread.php?tid=2370710>

I will be doing more giveaways in the future, if you sir would like free hosting don't hesitate to inbox.

Thanks for this opportunity sir.

Hello!

Thanks for hosting this contest.

I deserve to be upgraded because:

1. I wanted it for at least 6 months.
2. I have made a completely free booter and had over 230 members.
3. I have made dozens of threads and 3-5 tutorials.
4. I have helped many members on HF.

Thanks again and I wish every one good luck.

ZenLove - September 2, 2012, 1:52 pm

Very kind guy for making this contest!

I would like to be upgraded because I try my very best to help everyone

I am a good guy, and I help anyone possible, I don't avoid the non-upgraded members, like most people.

I even help them. I treat people how I would like to be treated.

I also try to make some good reviews about anything and it could help someone some day,

I think if I got upgraded people would take me more seriously in a way. In a way non-upgraded members are "underrated" in a way.

I would have far more respect if upgraded and help more and more people for anything they need, I am all rounded and you should see me in every section.

Thanks for reading this if you have.

Probably won't get it but it's worth a try.

Once again thanks :)

Rich Uncle Pennybags - September 2, 2012, 2:21 pm

I believe I should be upgraded to UB3R because:

- I am always willing to help out anyone with anything, and try to help out as much as I can.
- I have 0 negative rep, and I hope to keep it this way, nothing close to a scammer or skid.
- As I am new to the forum, my post count is low, but I do post extremely often and post HQ comments/material.
- I give away as much as I can, and am always willing to give back to the forum.
- I've created a lot of graphics for various members on the forum.
- I believe I'm all around a good member on this forum, and I think I deserve Uber.

Thanks for reading, hopefully I get accepted <3

Japanese Congress - September 2, 2012, 2:26 pm

The reason why I should be upgraded to UB3R is because...

I help out members when I see any in need of help (If I can do what they want)

I've given to the community several times.

That's about it, no need to get to all the boring stuff now do I?

And yes, I'm accepted for UB3R :)

tweety - September 2, 2012, 4:24 pm

I think I deserve leet because I have been trying to be accepted into Hackforum's .NET section. When I first started off I was a LQ member but I have tried my best to be accepted into the community. I have made changes to myself and became a HQ member. My education for programming is my main priority and I enjoy having discussions and engaging into conversation about it with the people that share the same passion as me in HQ. You may judge me from my rep and see the feedback people left me. I have been on HF 90% time helping people only.

I also have started a community Weekly challenge to liven up and clean the .NET section to engage everybody into having fun. I really do love this community and by having leet I can do so much more to change HF and try to make it the community everybody can be accepted into, be proud of and enjoy.

Ever since I joined Hackforums I have been a person curious of a lot of things but never relieved that curiosity. I have seen many trolls, learnt many hacking methods, SQL, XSS, RAT'ing, E-Whoring but I then discovered programming. I started to go around and look for a language and I stumbled across .NET. Ever since then, I have been lingering around the .NET section of Hackforums. The community did not look appealing at all so I just joined in with the LQ posts, leaching and just being one of those people that a programmer will dislike. I have noticed many people like me, are just desperate for help. I understood why people troll, post LQ posts and just behave arrogantly. Ever since I understood this I changed myself and I try my best to have good grammar and spelling. I started to understand how HF is and the different people I would meet and encounter. I decided I will take my education seriously and start acting my age and be professional. Ever since then 90% of the time while being on Hackforums I help around the .NET section and help people with programming. I enjoy this so much. My passion for programming has grown and I now wish to pursue this further and take this as a career. This is all thanks to the people of Hackforums, especially the people who linger around the .NET section. I also do Weekly Challenges to get everybody to participate and challenge themselves. This makes the community more fun and

challenging to be in. By having leet I can do this in a much more effective way. I also release program's for others to use. Majority of the time I release the source as well so that the community can learn from it. I have a passion for programming and I wish everybody to share this passion with me. Learning, education and passion, these are the thing's that build me as a person and my reason for being on Hackforums.

I deserve to be upgraded because I love to give to the community, but I also desire to sell some of the better gamertags I own, and not just give them away like I have done in the past. In order for me to sell my gamertags on Hackforums, I need to be upgraded in order to post in the Gamertags section, which is under the Marketplace.

I would like this upgrade because a have been on hackforums for a year now and i have learned a lot and i am looking to learn a lot more,I never rude to people

- I could use this to get more info so i can learn more

- It could help me meet more people and get more respect from others

- it could also help start on new threads with more access to things so i can help more people like having a bigger inbox

- I would also be able to support others by having better signatures

it would really appreciate and it would make me so happy if i got this thanks :)

Maroon 5 - September 3, 2012, 1:36 am

Firstly, I'd like to say that I AM a fairly new member to this community, as can be seen by the join date. Despite this, I believe I have made a fairly significant contribution to HackForums, mostly in the SRPP section, and helping out others where I can, which I believe makes me worth of an upgrade. I also try to be as High Quality as possible. I have a fairly vast beginner knowledge on alot of the topics on HF, so when I see threads asking for help, I try my best to try help out.

If you do choose me, I would be very grateful (Obviously).

I believe I stand out among the other normal member's applying for this upgrade due the the High Quality Posts I have, mainly not being a lounge whore.

SIM-73089 - September 3, 2012, 3:39 am

There really does not exist an unbiased reason.

I would love to be upgraded because the benefits sound convenient.

Am I the most worthy? No idea; judging is your job.

Toroth - September 3, 2012, 3:46 am

I feel that I deserve to be upgraded because I would like to benefit and give back to the Ub3r community that has helped me I feel that I can give back to the community better as an Ub3r as I feel there are other sub forums which I can not post it and I would love to post and find out information from the Ub3r community.

I also feel me being an Ub3r gives me a chance for people to trust me and I can offer them my trust and possibly contests from the money I earn from the tricks from HF which will benefit all users if they are L33T, Ub3r or normal member.

I would also be able to come more active around the tutorial side of the forum which helps everyone benefit as I will be able to teach people with the knowledge I know and people would also be able to show me new methods.

Thanks in advance

Here are a few reasons why i think i deserve to be upgraded:

- I have always helped people when they needed an advice , never flamed anyone ,always came with arguments based on logic.

- I have been scammed 2 times by an uber with over 200 rep and a leet and i have lost runescape gold worth 30\$ which took me a few weeks to get.

- Here are the giveaways i have done so far:

Spoiler ([Click to View](#))

<https://hackforums.net/showthread.php?tid=2052957>

<https://hackforums.net/showthread.php?tid=1385482>

- I decided to do those giveaways for Runescape PIN's(3 in total worth 5\$ each) and Starcraft 2 accounts(2 worth 10\$ each) ,because i couldnt trust anyone to sell them because i knew that i would get scammed again and instead of that i preferred to give them to first members who wanted them.

- I have never been interested in the hacking section , because i never wanted to harm anyone.

- If i will be chosen in this competition i would give +1 rep to all people that have helped me and i couldnt help back,to those that have negative rep unjustified and to everyone who makes giveaways like this.

Thanks for reading my application and hope i will soon join with giveaways

I have been on hackforums for well over a year now. I have learnt so many and amazing things here the users are friendly and very helpfull. I consider myself one of the most dedicated members on

hackforums. Hackforums is like my second home i spent most of my time online helping other members and giving advce. I have also anylized that being respected is very diffucult around here unless your ub3r or l33t. So for me to contribute to this forums on another level i feel i have to get upgrade. Ok back to business the best thing about hackforums is the ability for it to take advice from other members wether youre a new member or veteran member you can post any suggestions you have and depending if its good or bad it can be implemented. There are so many interesting section here that it appeals to everyone. You do not nesscerary have to be a hacker to fit in. You will find and meet new friend and of coarse make enimies. Hackforums is one of the biggest mybb comunity on the internet with over 300 000 members now that tells you the owner of the site is doing something right what i think the success formula of hackforums is that the number of topics avalabile and the fact that the site is open for criticism and you wont be trolled for it. Why is it nobody leaves? Why should they people like to socialize this site make you feel powerful its an escape from reality a place where you wont be judged for mistakes or your looks your bound to make in the real world.

Mordirith - September 3, 2012, 8:33 am

I am member since 02-15-2010 on hf but back then i wasnt posting on the site , i was just downloading cool programs and used to read guides on how to do nice "tricks",but the last few weeks i started posting on hf and went from 10 posts to 125+ and i am thinking of becoming a really active member on Hf but as i see it because i dont have the "L33t" User Bar image many people use to flame me for no reason and consider me LQ.

Because you might think that this is just my hallucination i want to saw you some examples,if you dont want to read about my experiences just skip the spoiler: Spoiler ([Click to View](#))

First i made a thread trying to sell a nice lol account i had ,

<https://hackforums.net/showthread.php?tid=2785844> ,

the first person that posted said publicly that my account didn't worth the money i was asking for , but then he pmed me privately and told me that he was interested for the account, moreover i found out he had just started playing lol and clearly didnt know anything about lol accounts.

The second guy that posted said as well that my account was bad and writed about 2 skins the account had which could be get for free (I had already said that i had got them for free in the orignal thread) and with that he concluded that my account was wothless without telling about the paid skins and other stuff i had and made my thread look like i was trying to scam people.

After few days since i saw that i had no chance on selling the account i planned on doing a giveaway and give the account for free in a hf member,but then saw a guy's thread who would give 75\$ in the Member Contests section to a random guy, from those who would lvl up a refferal account

for him. <https://hackforums.net/showthread.php?tid=2737637>

I then search the members contests section and found out that a lot of members were doing the same and thought i could do it to, with my account and make atleast some profit of it.

I was happy to see that a member was interested in joining the competition but then a member came and flamed me for using a refferal link,

he even gave me neutral rep saying Quote:Referall link in giveaway

when i wasnt posting in the giveaway but in the contest section as the other guys did,just thinking would he do that if i was a leet?

So i decided to give up at the competition thread like i did with the account for sale

one.<https://hackforums.net/showthread.php?tid=2815260>

I have also been flamed for no reason on some of my posts but i dont really care about them since they are not shown on my profile.

Despite the flaming, some members here have been really kind and generous to me even though i had no rep and no posts and i want to thank them by giving them a +1 rep.

I know that so far i haven't posted the reasons i worth the upgrade but the reasons i need it, but the only reasons that might make me deserve the upgrade is that i really like to help people and have helped some people here using skype and teamviewer.

I am also willing on creating guides for the comunity, here is my first Guide thread

<https://hackforums.net/showthread.php?tid=2712433>

and i hope that every guide i will make will be better than the previous one.

Toblerone - September 3, 2012, 8:43 am

Hey, So I've been on HF for about 6 months now and go on when ever I can even if that means up untill way past midnight with school the next day. I try to help people who ask nicely and have a sensible question. I started on HF mostly posting in the CLI section but have moved on and have spread out my interests to more things on here. I'm currently trying to start a thingy where you can pm me and I'll make you a minecraft based picture/animation and you can choose how it will be done. This I decided should be free to give back to the community that I now love and cherish.

Thanks, Good luck to all.

Cunning - September 3, 2012, 10:23 am

I would love to get upgraded. I think I deserve to become upgraded because I strive to do my best in making helpful posts and I always being nice to members. I try and maintain a good reputation, etc. I make tutorials, do contests and for now I am a lounge whore. I am very active on hack forums, I treat all members the same, etc.

I rarely sell in market place but when I get my laptop fixed I plan on coding more programs and stuff so I can make more sales and being upgraded will help me with my sales(also with my contests as I said earlier.)

This is why I think I deserve to be an upgraded member and I hope I win!

About Me

Greetings, My name is Junior and known as Scar here on the forums. I live in a small apartment in Texas. I usually go out to swim and do exercise and volunteer anywhere I can.

Why I Should Be Upgraded

I should be upgraded because I'm very high quality. I help other members in what ever subject they need assistance with.

I also love to learn and apply my knowledge in order to help other members with problems. I also contribute to HF such as doing giveaways and giving help.

First of all thnx Riggs for this upgrade opportunity. :)

Well I think that I deserve to be upgraded because:

- I always help people as much as i can.
- I have been giving out some free stuff like shelled sites and some vps (will countinue doing it)
- I am helping people with the hacking knowledges that i have, and i will countinue.
- I am trying to do my best but I think I still could do more.
- I have posted some tutos about shell uploading vuln on same web app

Well I think thats it all at the moment. Good luck to every one which participate in this contest.
thnx again Riggs ? ?

I recently got screwed out of L33T. This was the thread

<https://hackforums.net/showthread.php...id29707541>

So here I go again.

Why do you think you deserve the upgrade? I have been a member of HF for such a long time and I think it is about time I get an upgrade. I wont go on and on about it when I could lol but honestly I just haven't got the money at the moment since Sandy also hit us in the east there is just no money to go into Membership right now. But I would really love to win this Contest and thank you for having it.

What contributions have you did for HF? I have done a lot of giveaways in the past and I also have helped numerous amount of people back in the days of Halo 3 / Halo Reach boosting in the gaming threads. I continue to do this especially as an L33T member.

Alfred - January 16, 2013, 2:15 pm

Where to start.. well, I'd like to become an ub3r! I've already been accepted, all I need now is the upgrade.

To this community, I have:

- never abused my rep abilities, and that's not going to change if I can +3/-3; I'm incorruptible!
- I've helped out countless members on these forums
- I have consistently stayed as HQ as possible
- I have crypted servers for many users, and I've given out multiple Netflix accounts to various others.
- I help out with computer questions and/or other technological questions

<https://hackforums.net/showthread.php?tid=3037768&pid=28262706#pid28262706>

And that's just scratching the surface of how I've helped out the community or specific members.

I help out with anyone I can and make tutorials to part my knowledge on to others so that they may teach others someday.

I've been upgraded to l33t by phyber (<3 ya), and I kinda want to keep that tradition of getting upgrades in giveaways.

Thanks,
~Alfred

Maaxx - January 17, 2013, 4:52 am

I would love to be upgraded because i have been nothing but legit and friendly to other users on this forum.

- I love to help out when and if i can.
- Giving away stuff and or selling for more than %50 is my game.
- This forum has let me adapt to other members from different parts of the world.

Getting an upgrade would be awesome, it is very kind that you are doing this. Also i have become more active recently
and was planning on buying an upgrade but haven't been able to due to small funds on my behalf.

Swiftly - January 17, 2013, 5:46 am

I believe I deserve to win this contest as I have been an active member of Hack Forums community for almost a year.

I've published/designed multiple threads with the intention of educating/helping other members on specific things such as:

- Hacking methods + ideas
- Educational threads
- I've also posted numerous threads containing contests + giveaways.

I have already been accepted as an UB3R and this would definitely help due to lack of sufficient income to pay this.

I attempt to help around Hack Forums as much as I can by providing knowledge on individual subjects,
as well as making the attempt to make a beneficial difference on Hack Forums.

Receiving the upgrade would be an extraordinary experience and to be able to receive this prize, I would be very appreciated as this would definitely benefit myself as I continue to post within this forum for many years to come.

(Whether I receive this upgrade or not)

First of all thanks for the opportunity.

I think I deserve this upgrade, because everybody I want to do something with think I am a newbie and can't do anything. I have a lot experience on forums like HackForums and I want to start doing business but I can't, because people underestimate me as a new user. I am great with graphics and I'm thinking to start my own GFX shop. That's why I think I deserve an upgrade.

Why I should be upgraded

I am not an old member on hackforums but I realized in this short time I got addicted to it and now, I can't leave it.

I really love hackforums and I would love to have a better rank in it, to widen and have a greater and a bigger experience in it.

I think in this short time I have proven to be high quality.

What I have done to help HF

I have helped a lot in the Black and White hat section.

I remembered when I was a nooby being desperate asking for help,

Now when I realized how desperate I was.. almost every topic asking for help, I answered to it and the user thanked me,

I'm fairly new, that's why my rep isn't too high but you can see from it that about 5 upgraded people thanked me for helping them too !!

My main goal is to help new comers as I was one like them not too long ago.

Of course I have not only helped in these sections, I have helped in a lot more sections but black/white hat are my main sections.

This is what I'll do if I'm lucky enough to win

I delete my PMs almost 3 times a week because I can't have a lot of PMs, a lot of people ask me for help,

therefore a lot of them are missed, hopefully I won't have to delete them any more because the L33t PM system is a lot bigger,

leading to me helping a lot more people than I did when I was a normal member.

Also, I'm not the only one who has helped, I've been helped uncountable times, but I couldn't properly thank these people.

Now if I'm lucky enough, I'll hopefully be able to give this tremendous community.. back what it gave me.

I also wont forget doing giveaways, and share more with the community.

Thank you for taking your time and reading my application

DosE?q?uis - January 27, 2013, 2:31 pm

I would like to be upgraded because I have been on the forum for over a year now, and I always try and make HQ posts. I help people out and expose trolls, even though I know I'll get repfucked for it. Rep doesn't matter to me as much as exposing a slimy bastard. Being upgraded will mean I will be able to post more, in turn helping more people out. Well that's all I've got, goodluck to everyone else who posted!

Hi Riggs,

I see your quite an high-quality user and first would like to thank you for offering this. If you accept me, or not - i still would like to thank you.

I have been at HackForums for over one year now, a bit over. I've tried doing my best to have a high quality time. I've done my best to make people enjoy me being around them, and i'm trying to help out and purchase from others. I do giveaways as much as i can, as i can afford it - and i give out guides and programs as i can. I never troll, i'm usually always serious. Most people i believe have enjoyed me and assumed as a good user. Thank you for reading for your time. I am going to try and i am trying to contribute as well, best as i can. Thank you,

Skrtrtskrtrt, I would love ep1c for the PM space.

Godbless.

Formidable - February 14, 2017, 3:14 am

Am applying for a l33t or ep1c upgrade, whichever you see I'm fit forever

Anyway, I'm fairly new to the site but I find myself being online half the day. I have just completed my first transaction with another member and have joined a few groups already and have made some new friends. Anyway I feel that a upgrade will defiantly make my expirience on the site much better because I'll be open to the features that come along with it.

That's the jist of it, hope I win. Thanks for the giveaway

ErwinRich - February 14, 2017, 3:17 am

I would like any kind of upgrade. I try to keep my posts mostly HQ. Would upgrade myself but my financial situation isn't very stable. Also I don't have btc. Been trying to find a job for a while since I lost my old one, kept getting dizzy from the fumes and had to quit early almost all the time.

Also the ability to follow threads, would love to follow some of the ones I like.

I appericiate you doing this, helping a fellow member out. Maybe I'll do too one day if I have more money to spend. Thanks

(Don't know if I spelled everthing correct, I live in the Netherlands so :p)

maybe five years ago a lot of people didn't deserve it. let's just hope people "grew" up in the mean time. i'm not selling/buying stuff over here, just try to help when someone's in need. so really don't know what an upgrade would serve. but who knows.. maybe i'll discover new features and spend more time inhere :) thank you for giving a chance to us. good luck everyone

Anubace - February 15, 2017, 4:57 pm

I would like to be upgraded because I have done a lot of free graphic requests for people so far. I have to delete messages and the ub3r inbox would help me keep track a lot better instead of having to copy their messages to my stickies on my desktop. I also would like to be ub3r so I can give reputation to other artists that really deserve it!

Top Potato - February 16, 2017, 3:16 pm

Well, as I posted elsewhere on here, i've just signed up, but I feel an upgrade would allow me to do more on HF and get the most out of it. I would buy an upgrade myself but i'm just starting to get involved in money making methods on this site and would appreciate the leg up. Either way, thanks for the chance you are giving others, OP!

Mr. Wallstreet - February 16, 2017, 4:43 pm

Hello,

I am posting to win the 3p1c upgrade. Below is a few of my opinions on why i think i should win.

I have done my fair share of giveaways over the years.

I help random people if and when i can.

This is my 6th year on HF!!!! Woo!

I try to be as HQ as possible but i am only human.

Thank you for this opportunity.

Kind regards,

The Wolf.

Ubers - February 16, 2017, 5:01 pm

I've been on HF for quite long, posting here and there, so far only had 1 negative rep due to competition over sales. Anyway, I'm actually planning to setup my shop and do constant giveaways for Spotify free premiums, or accounts, I learn all of this from this community, I will return it to them :)

Thanks for this! :)

BR?ND?N - February 16, 2017, 5:03 pm

This isn't for me personally, however I want to ask that you'd upgrade a person I feel is highly worthy.

The person is LinuxTerminal.

While he may not always be on HF, I have talked to this user on Discord frequently and I have more than a few good things to say about him.

- Trustworthy and high quality.
- Very knowledgeable, and has helped numerous people on my server
- Offers a lot to the community.

If I could upgrade him myself I would, so I hope you consider him.

Considerate nomination and may well be legit, but his Trust Scan doesn't breed much confidence in the 'trustworthy' label.

I would like to be upgraded to 3pic because when I first ever came to the forums in 2015 I was a pure scrub, didn't know a thing but things have changed I now have a lot of knowledge and intend on helping people everyday as you can tell by my posts and threads, Although there are many other users that are probably more deserving of it but I promise your upgrade won't go to waste I am a very active user.

Anyways thank you for hosting Riggs

I deserve 3p1c to spread the badassness that is Riggs.

Scalpel - February 18, 2017, 6:28 pm

I think I should be upgraded because the upgraded status will allow me to contribute to HF's economy by allowing me to actively post my services and needs in the marketplace. I also feel I can be a great asset to HF's E-whoring community. Looking forward to doing business with many of you.

GhostintheShock - February 18, 2017, 6:49 pm

Want to be upgraded so that I can open my shop here for Online free accounts which I am not able to do so since 2 years and I stopped selling and cracking. Being upgraded gave me motivation and encourages me to contribute to HF Community. Can also do exchange service as well but without being upgraded I can not do this all so I am kind of stuck where I am right now.

I think I deserve an upgrade because I'm a helpful, lighthearted, friendly member, and maybe 1 in 10 of my jokes are at least mildly amusing.

Joseph Lane - February 19, 2017, 6:51 pm

I've been a member since 2012... at the time I used to stalk several section in the hacking section and learned so much. I just got back into HF this last year and started offering several services (check my latest thread). Being an upgraded member would mean so much because many more people would be willing to take part in my service. I'm currently putting all the money generated back into the 'company' but it's been a slow start. Hope this isn't too late and you see the potential in my account :)

Top Potato - February 19, 2017, 11:24 pm

I joined a few days ago and have helped several people as well as made a few friends on here. I would like to be upgraded because I feel it would help me contribute more to the community (by being able to host giveaways for example), and benefit more on my end. Thanks Riggs, either way!

I'd love to be upgraded, because I wish to be a part of the upgraded community and give my contribution to my beloved HF. ? Thank you, Riggs, and good luck to everyone! ?

Hydraxus - February 20, 2017, 3:34 am

Hello Riggs,

First off I'd like to thank you for giving me the opportunity to do this. I'm interested in taking on the upgrade of Ep1c to increase my PM space here on HF. I've only recently purchased L33t, however will be purchasing more awards soon enough. Purchasing Ep1c will no doubt be my next step, although with this opportunity I am able to essentially purchase more awards and donate to our beloved forum even more. I post relatively often, and try to be as helpful of a user as I can. I've contributed with 2 giveaways through my time here on HF so far, and will most definitely contribute with more as time passes. Thanks again for the opportunity bud.

I think I deserve it because I have helped many people on this site

corcuff - February 20, 2017, 8:26 am

Posting for L33t.

Well, I deserve it because I like to help others out.

I'm always willing to help somebody.

It would help me when I try to get someone to do a good exchange when I need it.

An upgrade is something that everybody needs. I need it.

Thanks for hosting this, OP.

Good luck to everybody.

Sometimes. I follow a make-it-up-as-I-go-along framework.

I've kept my eye on a few previous applications to see how their account activity develops over time. Several of the members I upgraded over 5 years ago are now closed, so it shows I wasn't stringent enough with my former screenings.

Nate - February 20, 2017, 4:27 pm

I would like to upgrade to 3p1c. I've been on this site for awhile, I've donated a large sum of money to this site awhile ago. Recently i went to college and now I'm broke, and I would love to finally get an 3p1c upgrade as I've been meaning too just rather spend my money on food because I need to eat. If you would be so kind to upgrade me, I would be forever in your favor.

Throwing my hat into the ring for 3p1c.

In my relatively small amount of time at hackforums I have been an active and helpful user in both the Counter Strike and E-Whoring sections. I do hope to expand with time as well. I also try to be lighthearted in the lounge as well. Thank you for the consideration.

pLucy - February 21, 2017, 9:35 pm

imo i dont feel like i deserve to be upgraded but it would be awesome im in a financial situation rn and cannot afford l33t but i would be more active if i do get upgraded because some of the sections i want to post in i cannot because i am not high enough prestige.

Godiva - February 21, 2017, 9:45 pm

This is generous of you. I am a pretty quality person. That means, I have ethics and morals that reflect me as an individual that most sentient beings would regard as 'good'. I don't partake in activities that would impose harm to other individuals. On this forum, I wish to note that I will exhibit thoughtful posts which will ultimately benefit the community as a whole. I hope that my presence and posts are ones that spreads an optimistic and genuinely kind demeanor to members who cohabitate this online message board. By no means will I ever abuse any privileges that arrive with an upgrade. I was hoping you would upgrade me not for a merely selfish reason, but perhaps allowing an opportunity for the rest of the community to come to terms that certain posts I might make may contradict with their opinions, but that in itself is not an act that reflects some deviant nature of my identity.

My post was dry, but I do appreciate this contest as I do not see myself applying for another. You seem like a fair judge of character which is why I bothered to make an entry.

This is my 2nd account, but I have cleared it up with the head honcho of the site.

Cheers friend.

Quote: I've kept my eye on a few previous applications to see how their account activity develops over time. Several of the members I upgraded over 5 years ago are now closed, so it shows I wasn't stringent enough with my former screenings.

I hope that having a fresh account on this board does not jeopardize the possibility of winning or earning an upgrade. Financially, I'm in a rough spot, but there's more to life than that in my life story.

Furthermore, I would very much enjoy being able to participate in the philosophy section as I'm majoring in philosophy as a graduating senior in a UC. 4 years in university should evidence that I am not a quitter by any means. I have an intention to be consistently active and helpful as long as I'm around.

Hey Riggs, I really appreciate the upgrade's you're offering to users here. At your discretion I believe I'm a viable candidate for an upgraded status within this forum. I've tried to contribute as much as I can so far and build connections that can benefit everyone i'm involved with.

For the longest time I was a regular user until [Wander](#) was kind enough to buy me l33t for posting material that he found interesting.

Here are just a few examples of free services I've offered to the site [CourseHero Document Unlocks](#)
[Free Temporary VPNs](#)

And I will continue to provide quality content to the community!

Riggs it is good to see you are still around :)

Although I must admit my current account might leave much to be desired, my old account has been closed due to inactivity and I must admit I lack the correct country of birth to make an easier transition to an upgraded account again, I would tell you all about it over PM, but I lack the appropriate post count to do that. I believe that over the years I have done much and I hope to do some more in the months to follow.

In any event, I would do well to talk to you again, hit me up when you have a moment.

hey can I please have ub3r thank you

Traum - March 10, 2017, 5:24 am

Hey, good to see so many members of HF are very generous when it comes to upgrading members so I thought why not take a shot.

I've been on this forum for about a month and I get to love it more and more with every day that I spend on here.

I am very active on HF and really want to help people that asking for it, that's why I joined WallFlower (subforum of Baka). We help people in the Innuendo sector and even though I can't even post there because of lack of prestige I still give my best and PM the members asking for help. I know how it is to need help from others and I know that it's often hard to get, that's why I try my best to change that.

Currently I'm living off my savings while waiting for the next job I got to start, that's why I can't afford buying an upgrade for myself right now.

I thank you for reading my small application, have a great day! ?

Sparkfear - March 10, 2017, 2:42 pm

I'd love to have UB3R, I have been on HF for quite some years and helped a lot of people through the years.

By gaining Ub3r I hope to gain more credibility with the people I help and who are trust worthy and who are not.

I also don't have a way to pay with the currency...
and yes I'm approved.

CASTIEL - March 10, 2017, 2:49 pm

I'd love to enter this for the EP1C upgrade.

I have been on this forums for a little over two months now and I have grown to enjoy the community here. I had joined the forums just for the intent to help around a bit, and just educate myself and just have fun as well.

As stated above I joined here with the intent to help, so what have I done to help? Well, I always look around for threads where a user requires help/assistance with a certain task. If I am capable of assisting/completing the task I personally do it. I helped people with setting up web hosting, VPS's, scripts. I have also helped people with errors in their code, or help them develop things they need. I also have done giveaways of free followers/likes on Instagram, I have done free phone verification's, I have released a free proxy scraper/scanner, and I have also tried my best to donate small amounts of money to those needing it even if it's the last penny in my wallet. I'm sure I have done other small things but can't personally list them myself.

No?orious - March 10, 2017, 3:55 pm

I would like to become Ub3r since I'm approved and mainly for the sake of having a bigger inbox and establishing a further proven trust because it's showing more ties with the HF community.

I don't have flashy awards or loads of threads and posts, hell, people registered starting this year have more Rep & Posts than me. Anyway, majority of my time spent here is just chatting to members via PM that I've made friends with through discussion, trading stories and posting in the group I'm a part of. I just enjoy helping out and talking to people if they're having a crap day.

It's probably not much of an application, but I thought I would atleast make an attempt since it can't hurt. & Im in a good mood because I got through another month of being smoke free making it almost 7 straight. ?

Thanks if you ended up reading it and I appreciate the opportunity to enter! ?

udpcon - March 11, 2017, 9:33 pm

I was a previous upgraded HF member since 2010, some 800 posts, good rep, and unfortunately I made the worst mistake to share my upgraded account with my so called internet "friends". It got stolen from me and eventually banned. Here I am now (alone) with my own account and I'm loving every bit of it. I love reading the forums and I visit HF every day. I am a Computer Science student and I love programming. I'm currently in the process of making an open source browser extension specifically for Hack Forums to make the user experience much more efficient. That's what I plan to give to the community in the next month or so because I've gotten so much knowledge from these forums alone so I thought i'd give back to the community who enabled me to learn all the things I know today. I'd love to have access to the private forums of HF and enjoy being a member here.

Thats all I got. Thanks for doing this.

I'd like to apply for an upgrade to 3P1C!

I've been a member of HF since 2012, and my most activity has been into the Graphics Section! I've tried to be as helpful as possible towards people who're related to Graphics or want to learn new things about that area, but at the same time

I provide my own graphics services! In fact I've purchased both 2 upgrades (L33t & Ub3r) myself, but If there's any chances, I'd like to get the 3P1C one as well!

Cheers!

Hi There, I know im quite a new account but im quite active and i have already gained more than +1rep per day ive been here. (think im 16 days old and have +19 rep)

I've helped people with gfx, logos etc and tried to give solid advice where ever possible, ive also made a few purchases and sold some animated design work.

I want any available upgrade (if im eligible) so that i can increase my inbox size mainly, id also like to be able to +rep some of the people who have helped me on here.

Hope this is enough to be considered for an upgrade, as i said, i know im a young account but if i

keep going the way i already am then im sure i will be able to contribute quite a bit over time.

Cheers :)

I'm entering for the UB3R upgrade. Been trying to find the money for a while, havent got it. I joined last year with a lot of motivation and quickly made a lot of hq posts, and things of that nature, which is how I grew, got in groups, etc. I was in a group my first month of HF, and if I receive UB3R I will go on to do more things with the white hat section, marketplace, and tech sections. (I've already been contributing :))

I got VACbanned with an expensive inventory through hacked account (Phone sharing) and I am looking for any possible info, how to deal with that, including Oxide, Ido&Wood&Vitaliy@Valve, anything :)

P. S. If anyone possibly knows about the things above, I'd love to hear...

Hey there, I'm throwing my hat in the ring for ub3r upgrade after recently being approved.

I have been around the forum for a fairly long time and have always been active in bursts, now that I am studying full time in this area(comp science) with an aim to go into the security sector I have been visiting the site frequently once more. I try to be as HQ as I can and share any knowledge I have with other members, be it through guides or general answers to user queries. I plan on upgrading when I have funds available, but being a broke student that could be well into the summer so I thought I would give this a shot. Cheers for the thread anyways ?

Gr3yWolf - March 15, 2017, 5:33 pm

Firstly, I would like to say that you're very kind for upgrading people on hackforums.

Now, why do I deserve to be upgraded?

1. I have contributed by giving away free amazon gift cards to people, it has felt good to do so.
2. I have just been approved for UB3R, and so I thought.. why not? I would love to be upgraded to UB3R.
3. I have been respectful towards the users on here and so I have helped out a lot.
4. I have been on hackforums since February 2016, so it has been a waiting game for me.

I know this ain't a lot of information. Thank you for reading anyway. You're cool, my man.

Korvo - March 15, 2017, 7:07 pm

Posting to enter for a chance to win an upgrade to Ub3r, as I was just recently approved. I would like to be upgraded to ub3r so I can help benefit the community more. With ub3r I will be able to post longer threads, which will help in guides & tutorials I plan to post soon. Most importantly the money goes towards the site, which will always help with keeping it up and running. This place is like a second home to me and I want to see it here for years to come. Thanks for doing this service Riggs, and best of luck to everyone else who entered!

Shroomies_temp - March 20, 2017, 3:25 am

Posting here for a chance to win L33T.

I had a break in the forums life for a while now (irl stuff) but looking to get back to it and L33T would be a perfect "start".

I've helped some members in the coding/programming sections (since thats where my profinencies lies), probably more on my old account (Shroomies - which i lost kind of to own stupidity :|).

Hopefully i qualify and thanks for the service :)

@Edit:

Also noticed, is that Markiplier on your avatar ?

TB12 - March 21, 2017, 2:51 am

Great way of doing the upgrade contest, thanks a lot for this. Hopefully I would get 3p1c. Anyways here are my reasons of why I think I should be upgraded

Most people would say I don't deserve it since I haven't contributed. In my opinion I have in a weird way, I am not afraid to talk shit to Ub3rs or l33ts that go out of their way to insult people for no reason or post bullshit. This actually means something since most non-upgraded users "fear" upgraded users. Maybe I will be inspiration for others to do the same. I don't dick ride

I may not have threads with tutorials, but I will always answer questions people have or even give a bit of advice on anything I can relate to

I don't buy money making e-books. Actually scratch that, I don't buy ANY e-books

Jesus you are still reading this? Shit ok another reason? uhh.... I am always willing to stick up for people on here. If they are trying to do the right thing and I see users bash them, I will speak up. I don't care what happens to me on here if I do the right thing.

In my opinion I honestly think I deserve it, maybe others do more, but I should be considered. Problem people have with me is that I do things differently than they do on forums. I don't care about speaking my mind as long as I don't do it in a horrible way. Anyways thanks again for the contest. Good luck to everyone

Well It's reallt weird to ask for something like this and I generaly wouldn't have even thought of buying this upgrade but I feel like I need it in order to start doing other thingson this forum. I'd be great if you could get me the ep1c upgrade.

Basically here's some reasons and hope they don't make me sound like a complete narcissist.I try my best to make quiality posts with a lot of info though sometimes I go too far and I may also get some things wrong but still I'm not that proud to admit I'm wrong. I really try to help people in the few sections I can like programming and graphics mostly.

I try to avoid personal topics and arguments and I can't find a reason for why I could be banned or exiled. But then again, it's not up to me to decide these things.

I get a lot of private messages sometimes since I don't really want to give my skype away so I have to clear it regularly.

I cannot post in all places I'd want to post because of my "prestige" which is currently at 2 and I need at least 5, therefore I cannot help many people and sometimes I resort to sending private messages to them but they most of the time get ignored.

I can't stretch this any further by adding more reasons and I can't think of more. It is up to you to decide if I deserve the ep1c upgrade.

Thank you for reading, hoping to hear back from you soon.

I deserve to be upgraded because:

I help a lot my fellow HF user especially on Digital Marketing; I advised them how to improve their websites for better SEO.

I help in reviewing and posting vouches on their products and service thoroughly

I also help in phone verification for free.

Also I want to be L33T because I want to increase my inbox capacity because there are so many users here who would like to learn about Digital Marketing (SEO).

Thanks in advance OP! Goodluck everyone!

MetalMonkey - March 29, 2017, 7:28 pm

I believe that I deserve an 3pic upgrade due to the fact that I go out of my way to help prevent people from being scammed, mainly in the ebook section.

Unlike most people, who typically just hop on each other's d**** and vouch for crappy products, I provide honest reviews. Some people may call it shit posting or sales trashing, but it is simply done to prevent people from being screwed over by one of the bullshitters of this forum. I have also received some neg reps in the past, luckily now removed, given to me for the same reason.

I primarily want the 3pic upgrade so I can have the following perks: The first one would be to be taken a bit more seriously on this forum, as lets face it, l33t is almost the same as member in the eyes of UB3Rs. The next perk I would like to have would be the capability to neg rep people. I would like to neg rep people to warn others about some people that have scammed me or others that I know.

Thanks!

I don't think I deserves to be upgraded as there are many normal HQ users good luck to them and nice giveaway OP.

udpcon - April 1, 2017, 10:12 am

Seeing as we have two things in common (the sincere love for TheVBScripiter and making youtube videos), I believe I would be an excellent candidate for an upgrade! I am slowly but surely making contributions to this community as much as possible and I plan to stick around for a while. I enjoy my time here at HF and an upgrade would motivate me to be even more active and provide more entertainment in The Lounge section (my favourite place). I would love to have access to the upgraded member sections too, and I also plan to do giveaways like yourself! For my first freebie I am working on writing a method on getting free Che-g-g tutor accounts so people don't have to pay a dime for them anymore! People can finally recieve a lot of homework help free of charge. I am also working on a customizable chrome extension for HF that I hope will optimize user experience. I also plan on contributing to the HF market and making donations to HF because if HF is the reason i'm making money then I believe they deserve a cut too, and the best part about making donations is that you can get awards! Lastly, it would be a blessing if I had more PM space as I keep on having to delete PM's which sucks!

Thanks for doing this!

Cain_ - April 1, 2017, 11:17 am

I need to get upgraded, because I want to look more legit in all sections.

I always help people whenever I can. I am trying to be the best member I can be by Helping others users the best I know how.

BeNT- - April 1, 2017, 11:20 am

Well damn man.. You have done a lot of upgrades lol..

Gonna leave a greenie for you (this is a non enter props).

Cheers.

NotoriousMoneyMaker - April 1, 2017, 11:22 am

I would personally benefit with an upgrade as it would save me money. I am currently in university and the fee is extremely high. I believe I am pretty high quality and I do contribute quite a lot. Even if I don't win this, thank you for giving us/me the opportunity.

Not Your Average Orange - April 1, 2017, 1:12 pm

I'd like the upgrade because I'm really liking HF and I'm pretty HQ (IMO) and I feel like non-upgraded members get ignored more often than not.

And I'd save money :P

Lexy- - April 2, 2017, 4:52 pm

Still here, hoping to get an upgrade. (L33T to change name, but I'm grateful so even 3P1C would be great)

Tired of this name.

Overall, I've been trying to be nicer. From time to time I drop in the personal life section and just give advice on what I feel like I can.

Really hoping I can get it soon.

Extra PM space is cool, too. I have to clean out my PMs weekly, unfortunately.

Good luck to everyone and congratulations to the people receiving their rankup.

I would love to get the Uber upgrade!

I hope to be chosen, because this will change the game, at least for me: I will be able to see the TrustScan and to +rep valid member who contribute to this forum (I usually stay in the "wifi wpa wep..."section, where there are lots of great guys). These are, in my opinion, the most important things.

Thanks for the chance, Riggs!

The2G - April 3, 2017, 7:39 am

Hi mate!

First of all, thanks for the opportunity to be upgraded. So I think I deserve the upgrade because: I always try to help people in topics I know, beginner hacking, networking, virus removal...

I have been more active the last months sharing easy-to-follow tutorials for any skill levels.

I always try to be a respectful and polite with other HF members.

I am learning a lot of knowledge in coding and hacking techniques that would allow me to help people in more topics.

I always wanted to be upgraded, but I couldn't make any money. (Last days I'm doing a bit :))

I'm about to start in CC exchange and the upgrade would help me to make deals in marketplace, green gives more trust than white...

I think that is all. Good Luck for other members!

ComputerJi - April 3, 2017, 5:35 pm

Hi Riggs!

I really appreciate what you are doing. I need to have the 3P1C update. I think I deserve the upgrade because: Upgrade will give me passion to improve myself as a member here at HF.

I am really helping people when I can.

More abilities make me doing deals much easier.

I really enjoy HF, and upgrades make it more enjoyable.

I actually need to be upgraded to UB3R, but I am not approved yet. So it's a chance to have 3P1C upgrade right now. :P

That's it Riggs, I wish to be friends. Good luck for all of you guys!

hunterr - April 3, 2017, 5:39 pm

I would like l33t because I believe members would trust and respect me more. Also I send and receive a lot of pms so extra space would be nice, giving rep would be nice too. :)

Because I help whenever I can.

S U-R-O Y - April 4, 2017, 8:20 am

I would like 3P1C for only one reason, trust scan.

As I build my reputation on this forum, I know there's the risk of getting scammed. Even though I've went first with every transaction so far and haven't been scammed I know the day will come. I know it won't completely reduce my chances of getting scammed but it does lower it by a lot. Slowly getting enough money to upgrade but I'm working there. I do plan on getting 3P1C before anything.

SkyClouds - April 4, 2017, 7:19 pm

Well honestly I think I deserve it because I've been here for quite a long time, and I've been very active on this forum. I'm always active in different sections and I'm always helping the people who is in need of it. Another reason why I also wants to be upgraded is because I never felt how it is being upgraded to L33T, I never experienced the ability to be upgraded. I would also like to be upgraded so I have access to many things such as PM limits since I use this alot.

The other reason why I also want to be on the yellow side is because getting upgraded is always something I wanted to be. If I could afford upgrading myself I would do that, but I really can't, I don't have the money and neither do I have bitcoin to upgrade myself. I also feel that if I get upgraded to L33T it makes me more addicted to HF and even more active than I am right now. I've helped many people especially in the "League of Legends" section since from 2015 to 2017 on HF and I hope you will considering upgrading me to L33T.

I'm not gonna lie but I also hope I get upgraded to L33T, because I want to open some shopping/services thread, and I feel being upgraded is good before opening threads like that. I've always wanted to be L33T and I hope you'll upgrade me to L33T. Actually that's pretty much the reason why I think I deserve L33T. Thank you for this contribution, and good luck to the other participants in this thread.

thtdiabetickid - April 4, 2017, 8:34 pm

I would love the Leet upgrade as I feel it would be a great progression in my journey on this forum, I have been posting a lot more lately and before that I lurked and read a lot on this forum, however I do understand if you were not to upgrade me for the reason that at this stage I do not yet have a MASSIVE post count! I would consider myself a reasonably good quality user, I do not troll or shit

post, and thus far have received no negative reputation. Another reason I would like an upgrade is of course the extra features and the way upgraded users seem to be taken slightly more seriously! Thankyou Riggs, this is a great thing to the community that you are providing and even if I do not get upgraded, I love what you are doing!

CASTIEL - April 5, 2017, 2:56 am

If this is still opened would love to enter for UB3R (unsure if I have entered in this contest before, sorry if i have).

I just got accepted for UB3R and I feel like it would be great to have the upgrade for it, sadly I do not have the \$30 for it at the moment.

I haven't been active on this forums in about two weeks, but I am planning on making a come back, hopefully to help out more and to give more to the community when I can. Just have been busy lately with school and relationships and other personal things.

Reasons I believe I deserve this upgrade is I am not an average leech of the forums, I am a contributor and I like to help out and have done that. I've held contest to give out free social services, I have a free proxy scraper and checker out, I have done minor donations \$1, \$2, etc to those in need when i have the funds. I also have done a few free SMS verification's (done 2 paid ones). I just tend to pretty much help those who I can help when I can.

Anyways, hope I have a chance towards this upgrade, would be a great thing to receive!

Hey Riggs , how are you ? ?

Why I deserve to be leet / l33t?

I joined hackforums.net 9.17.2016 ,
with my maths thats 7 months old
I learned a lot from this forum
I learned so here more than I learned in school
I have made 550 posts , when i started using this forum
I was active , was posting 10 posts a day.
Then I started a project , and stopped posting for a while.
I always try to help people.
I do stuff like small jobs , tasks etc for free.
I am active at Rewards and Small Favors
helping people with what they need.
I have given free phone verification to many people.
I think I deserve to be L33T because I helped a lot of people
and i am not new on this forum.
Thanks for doing this giveaway or whatever.

Constantia - April 10, 2017, 1:17 pm

I think I deserve to be upgraded because I aim to make every single one of my posts count. Whether it's constructive criticism, a helpful remark, plain banter or whatever fits the situation, I want to contribute as much as possible. I've helped quite some people on here, mostly with small things as most people here know how to learn things by themselves just fine, but it feels good to give back to the community. That's basically feeding me enjoyable content 24/7. There are some drawbacks on not being upgraded however, the most important ones being limited to an inbox of 50 PMs and only being allowed to search every 25 seconds. I use both services a lot, one to communicate with others and help them in private, the other to find additional resources to expand my knowledge and eventually translate to helping out the community too. I've got to clear my inbox almost daily because I keep getting in touch with new people, and it saddens me because I have no reliable way to keep in touch with the people whose conversations I delete. If they need help or just want to chat in the future, chances are slim I'd recognize them. I feel as if I deserve L33T because I'll use its features to give back to the community even more. Thanks for your consideration and have an amazing day!

If this is still on use first of all I would thank you for giving this opportunity to all users who don't know if it's worth it to upgrade or don't have funds to do it. Well, if the question is if I deserve, is cause I don't really have scam reports so I want to continue with this rhythm by not scamming anyone, in this great and big group (hf), but the chance to get scammed is bigger so if I would be ub3r that chance would be smaller, I want to thank anyone for exchanges or something they help me with more reps to show my appreciate, and as a student I would appreciate anyone who support me and us, as you are, thank you a lot!

Laced™ - April 13, 2017, 1:31 am

My reason for asking to be upgraded is:

- Any time I get the chance, and know what I'm doing, I always try and help people with whatever they may need or at least give the best advice I can.
- I always make an attempt to maintain a reputation where I can consider myself a HQ member.
- I have, and plan to create more, informative threads on various topics.
- I just got accepted for UB3R but don't actually have the money to be able to upgrade myself to it.
- Once I do get money in my pocket, I plan on doing giveaways myself, but before I do I have my priorities on being UB3R.
- I'm generally just reasonable and nice towards other members and do my best to maintain a good relationship with them.
- I do not, nor will I for a while, have the ability to set up a BitCoin to actually be able to pay for the upgrade myself.

Good luck to the rest of you!

Crazymed23 - April 13, 2017, 5:25 am

First of all, I do not have enough rep neither do I have a high posts per day but I would like you to know that I got on this site after been recommended by a friend who I met on some other forums who is still probably a non-upgraded member. I use my last savings to get leet in about a week of getting here. I knew little about HF yet I had so much believe in what I could learn and explore. I'm a medical student, hence I've got limited time I could spend here everyday but believe me when I say HF is the place I wanna be when I'm free. There are a few people who think outta the box like I do and fewer dare to go for their passion and it will be just right to be rewarded some time so I could get motivated some more towards HF.

It all still depends on you...GL to others

Zeke - April 13, 2017, 7:23 am

I would like to be upgraded to Ub3r because quite honestly, I want it and I believe I am high quality enough and have been around for over 2 years now. In my journey here, I've gone through several

ups and downs but I've always stucked to Hackforums, regardless of anything else. Being completely honest here without no bullshit, Ub3rs are more trustworthy in anything you do simply because of the tag here, especially when it comes to getting money exchanged, getting shit done or starting something productive. I would also enjoy the features that come with Ub3r, although I don't want to lie by saying that I severely need them, but it would be a treat. I have plans to do more things here and having Ub3r for that would really help. I've been approved since the beginning of 2016 and I've never had chance to have it, you can change that and I'd be grateful.

Even if I don't win, I would like to thank you for this. I've seen you around quite a while, especially in News and Happenings and likewise sections, you're a cool guy.

Dinaboys - April 13, 2017, 11:47 pm

I would like any of the upgrades, its extremely nice of you to do this.

- I have frequently made threads in the free stuff section, no I don't restrict based on rank, every member deserves a chance to get stuff, we were all at that newbie level at one point in time ;/
- I try to assist people when I see an opportunity to do so.
- I am not one of those people who sees rank as ego, if you are "non upgraded" I will never treat you differently than any other member on the forum like some did to me when I first joined.

I thank you for giving not just me, but the rest of HF this opportunity whether chosen or not.

kpown - April 17, 2017, 4:17 pm

First off, thank you for this service to the HF community

Now, as for myself:

I have been a member for 2 years. Initially I began by asking stupid cringy questions because I was new and that is often how new people behave.

Over these past 2 years I have really grown to love this site. I'm on here every day posting and commenting and communicating with members.

I may not be an expert at any particular field, but I help users who have questions that are within my

realm of knowledge.

I wish to help others the same way I was helped when I was new

I strive to promote an air of maturity. I am currently 20 years old.

I don't believe I am the most HQ member by any means, but I have been approved to Uber but I can't afford it sadly. I am a college student pursuing pre med so I don't have as much time as I would like to have to pursue my online interests and money making methods in HF marketplace.

I am not specifically asking for Uber as it is rather expensive... I would be eternally grateful though. Ep1c would be very nice to receive as well.

I just wish to advance my HF profile as far as I can because this site is the only online community that I frequent, and I really care about my reputation here and my profile...but I lack the funds to do so on my college budget.

Anyways thank you once again for this generous service to the community

Recep Ivedik - April 18, 2017, 9:22 am

I think I deserve getting upgraded because I been a part of the community for a very long time, but it was like part time. Sometimes I were active, then times I werent.. But now I am starting to use HF a lot, so it would be awesome to have a title :-)

Also the features you're getting are really helpful.

DontWorryBeHappy - April 19, 2017, 2:48 am

I feel I should win because I'm a high-quality member who could offer a lot more to this forum with an upgrade.

Currently, I'm limited to where and what I can post which limits me from helping other members as well as being a more trusted member on site.

I have done completely legitimate business all over hf; helping some members launch their business, performing all legitimate exchanges for finances, offering advice, and though minor, even making many laugh.

I seek to enhance my presence on the forum and be acknowledged as more and more valuable each time I visit.

And upgrade would thoroughly help with all of that and would allow me to pursue applying for uber upgrade as well.

I have done many giveaways on hf as well

I'll try for this, however I do not expect someone like me to get a rank. :)

Either 3p1c or l33t. :) I don't mind either one. Too poor to afford it.

I try to be HQ to the best of my ability.

I try to help out as much as I can. I've already been releasing stuff and helping people in PHP section.

I try to be a friendly guy. :)

I understand if you do not wish to give me a rank as I am decently new, Don't have much rep. :) Or frankly you don't know me/don't think I deserve it.

Even if you say no. I respect you, Helping out people who can't afford a rank themselves.

Social Engineer - April 19, 2017, 5:22 pm

I am entering for 3p1c.

Been on this website for a while and as well taking my fair share of experience and learning new skills from this website I've also given back as much as I could and tried to help everyone where I can. I consider myself a respectful member of the forum and I try to help whoever I can if it is within my skillset.

Sigma - April 21, 2017, 5:42 am

Been here since 2009 and haven't had anything good happen to me.

I think I am deserving of an upgrade due to the contributions I have made on this site, but with saying that, I also believe there are many users who have contributed so much, so there is absolutely no hard feelings if I am not selected. I joined Hackforums nearly 5 years ago, and since then I have been an active member in the community, contributing with as many giveaways and helpful threads as I can! Some of my most notable threads include numerous giveaways, contests, tutorials, and other high profile threads including:

@Emily - April 22, 2017, 10:59 am

I feel that I deserve an upgrade as I had an account 2 years ago which got closed due to inactivity. (PM if you want to see this message) I got a message saying "Your account has been closed due to inactivity. Feel free to join us again. You may need to log out to do so"

I like to give back to the community as clearly you do too. I like making people's days go better by talking to them and making them laugh. Maybe I'm not as deserving as the others who have entered but I'd still like to try :)

Good luck to everyone who enters!

By this I meant, I was asking if it was still active, so I could edit that post and continue writing. Anyways, I've tried doing some deeds for people during goodwill monday in order to celebrate the holiday. I've also, tried to answer and help people around the forums as I can, like I helped someone with an air purifier situation and also people with computer problems. I also currently have a free services thread still open with a lot of good feedback. This is why I think I'd be a good candidate for an update. Thanks for reading, and sorry for the misunderstanding the thread was really old so I was just wondering.

?????? - June 18, 2017, 6:08 pm

I think I deserve to be upgraded to Ub3r.

During my 6 years on HF, I've tried to be a HQ member, helping people out when I can, and generally being friendly to everyone. I've been contributing to Baka News Weekly, which can be found in Anime Adventures. I did once make a tutorial for how to use a certain [Minecraft plugin](#), but that failed to gain any traction. Hopefully I'll be able to do another guide in the future for something else.

I would also like the additional features that come with Ub3r such as trust scan and larger PM box. I recently applied for Ub3r and was accepted first time.

I hope you consider me for upgrade, and I hope to continue assisting other members in the future. Also congrats for having such a long running upgrade thread too :)

SIM-3467872 - June 19, 2017, 12:53 am

Posting because I think I can win L33T upgrade. I don't think I'm HQ but I've helped people many times on here and continue to do so as I like this community more than any other on the net. L33t upgrade will help me to get more out of this community. Thanks for helping everyone here.

Nebo - June 19, 2017, 1:20 am

Hello,

I'm posting here because I think I could become a good & active member of the community. I'm looking to start making some serious money online however my current funds are all spent into further investing thus leaving me unable to afford a l33t upgrade. What makes me special from others? Basically, nothing really. I don't see myself as a special snowflake or anything like that. I'm just an everyday person who likes to relax, listen to good music and do some productive work. The only argument why you should pick me would be that I'm very active and that you won't waste your money on someone who will go inactive. Having so little PM space is a bit annoying, I have to delete PMs 3 times a day.. Well, thanks for hosting the giveaway, very generous of you.

Have a nice day.

Drout - June 19, 2017, 7:54 am

Why i think i deserve to win...

1. I try my best to help/give advice when i can
2. If i have stuff i dont need ill try to give it away to the community
3. I try my hardest to reply to most threads to show my support
4. If users are in need of some money ill help them out
5. If i dont win then thank you for giving us the opportunity, you're a great person and the world needs more people like you

Cain_ - June 19, 2017, 1:00 pm

Thanks for the opportunity to be upgraded. So I think I deserve the upgrade Because I help whenever I can.

flamie - June 19, 2017, 7:11 pm

I deserve to be upgraded because:

I offer what I believe is a high quality boosting service for this forum. Extremely affordable pricing.

Thread link here as someone is hosting it for me:

<https://hackforums.net/showthread.php?tid=5645263>

I am in two usergroups, do my best to stay quality inside and out.

I attempt to help out with tournaments whenever they're presented. (you can't see the posts in the subforums). I also tried to get the community to play 5v5 together, but that didn't work out:

<https://hackforums.net/showthread.php?tid=5637253>

Thanks for this opportunity!

NightForce - June 19, 2017, 7:38 pm

I deserve to be upgraded because:

I feel well involved and ambitious within Hack Forums and truly enjoy helping others, I have a desire to serve and help others which is why I enlisted 2 years ago in the Marine Corp. / Infantry - 0341 /.

I believe with the proper guidance of others I can be an even greater asset to Hack Forums and bring about a better community overall with my presence. One of the most important aspects of my life right now is my career in the Corp. and second to that is helping and more importantly learning from the amazing member's here on Hack Forums.

Even when I feel somewhat overwhelmed by work, I feel that Hack Forums is a somewhat sanctuary after work that I can come to and find out what the latest and greatest news is and throwing my input into the discussion and meeting new people along the way.

This is why I believe I should be upgraded, even if I don't get upgraded I would like to thank you for your time and even offering user's here on Hack Forums the chance to even be upgraded out of the goodness of your heart. Good Luck.

Semper Fidelis

Hey! I am a relatively new member here but have been browsing this forum for years just didn't have the need for an account until recently (so broke rn haha need ways to make money!) Anyways I hope to be upgraded so I can explore this forums more and interact to more people. Eventually, once I am able to earn, I hope to give back to the community as well!! Thanks for doing this for the people who deserve it (even if you think I don't haha) Good luck!

Percyi - June 19, 2017, 9:07 pm

I've been a part of this community for many years and it is very enjoyable to browse and post. I love to interact with the community. I love to make posts on threads and help in any way I can. But, unfortunately, I simply do not have the money to purchase an upgrade. I would love to be L33T or 3P1C and explore the community even more. Thank you for this opportunity.

Yo Riggs, you still doing this? Is there any hope for my months old post? :(

King_adnan - June 23, 2017, 4:35 pm

i think i Deserve Because:

I am Active in HF

I want to post Tutorials

I want Signature in my posts

I want to watch the Trust Scan Page

I can promote my Youtube Channel fast if i will be Upgraded Member of HF

I want to talk part in Giveaways which is for Upgrade members and i want to do giveaways for new members

After i will get Upgraded to Any I want to Sell ebooks for for Cheap at least 80% to 90% less price from Original price

I want to Upload Custom Avatar

I want to give Positive Reputation to Members i Trust

I want to join Custom Groups

But i don't have money to Upgraded Account

Thank You For Helping New and non-Upgraded Members

Strafe - June 26, 2017, 1:02 am

I would like to be upgraded because:

I've been a member since late 2010 early 2011 off and on & have 1.1k+ posts of hopefully some what high quality. (Likely the later years being more HQ as I've grown)

-The time I've been registered has given me a good understanding of the forums, rules & etiquette.

-I've started trying to report posts which fall under the rules such as LQ posts/wrong forums.

Since I've recently returned I've put much of my efforts into helping others in the Hardware & Misc Comp sections.

-I try to be as detailed as possible and welcome the users to ask any questions they may have on my posts.

-I also am welcoming to debating choices in the section as it creates a learning opportunity for users.

I feel like a lot of the posts I put effort into are ignored due to the fact I'm not an upgraded member.

-EX from a PM of a user I was helping: "I'm only going with what [Redacted] is sayig is cause he's reputable"

-Another EX from Rep: "Rude. Atleast read a post before posting a half-ass response"

(I had read the thread and others from the user, I gave advice that was never followed up and given -3, which admittedly got me a little hot headed for receiving that after trying to help, still tried after but OP didn't follow up again).

I try to contribute frequently to the Movie & TV section.

-I have a list of and seen over 1000 Movies & 2000 TV Shows(episodes), which allows me to post diverse recommendations.

-I studied Film & TV Production & am interested in foreign movies so I can recommend plenty of things users have not seen that are excellent to watch.

I've matured A LOT since I've first joined.

-No longer a teenager who tries to act like something i'm not.

-I know the value of being a high quality trustworthy user, although I doubt I'll dabble back in the marketplace unless I start selling RS3 again.

-I'm realistic & truthful, even if it hurts to hear & appreciate the same in return.

Less up to date info:

Spoiler ([Click to View](#)) I used to be very active in the Halo 3 Section & often helped players.

-I would often boost people for free just to have someone to chat with, met most of my HF friends in that section that I've sadly lost contact with.

-Sadly since H3 is dead I am no longer active there but hope to be in another game forum soon such as Overwatch.

I have experience in graphic design and used to frequent that section for advice and to give it.

-I however have been falling out of touch with it as I move towards Video work.

Anywho I'm truly thankful for the consideration, especially since I may have over did it and added too much information lol. Speaking of which I actually just tried to shorten it a bit by leaving the older info in a spoiler.

It's a real nice thing you're doing here, not only for the users but for supporting the forums, so again thanks ?

EDIT: Would also appreciate feedback on anything I should improve upon if you don't mind (not related to this thread but in general such as tone in posts or linking sources etc).

Riggs - September 2, 2017, 8:23 pm

Looking back at this, it's sad how many recent applicants are now closed/banned.

This is why I rarely upgrade members anymore. Too many toxic parasites with a thirst for fuckery trying to persuade me into elevating their privileges.

Present - September 2, 2017, 8:47 pm

I'd love to go for epic.

I don't exactly know why I deserve the upgrade but I think my LITTLE contributions to the community (small \$5 donations) SHOULD make up for a win. I really don't know why I deserve it though.

Akamay - September 2, 2017, 11:27 pm

I wouldn't even say Im active nor deserving, but I'd love L33T. Thanks for doing this, you're a great person OP.

CryptoWorld! - September 3, 2017, 1:46 am

Well, Im pretty active on this forum lately. Im always looking forward to help and give tips to people if I can, and im planing to be like this as much as I enjoy it.

Recently I got apporved for uber so this upgrade will help me alot and prove to me that this

community has alot of people that deserves help in any possible way.

Im planing to contribute to forums through my ssm panels and hosts some interesting stuff that coming up really soon.

Anyways good luck evreyone and thank you for hosting this giveaway!

I would love to have UB3R. Why do i deserve it?

I have started giving to the community with the services that i am able to provide and i am looking to do alot more. I am very active and want to continue using HF for the foreseeable future as the community is fantastic.

Thank you very much for this opportunity, additionally if anyone reading this wants some free social media traffic (Followers, Likes etc) hit me up and i can throw 100-250 your way :)

Edit: Just realized i had to apply for Ub3r, have put in an application

.Linear - September 3, 2017, 8:04 am

I hope this awesome service is still up as i want to try some sites features.I always try to help on someone here if i can.

I'm starting to like this website other than any social media and for me, this website is educational for people who pursuing computer related course which what i'm taking right now.

I also starting to make some thread templates for community and i will give it here when i finished it as i'm starting to learn photoshop here and i get most inspiration from professionals.

I also want to be able to give reputation to some member that are really helpful. I love telling people that they're awesome so having that feature to me are greatly appreciated.

I am now more becoming active here and all of my free time now in school was all browsing this website. I like it because this forum was so active.

I will greatly appreciated any upgrade that you gives to me. I don't know if i am eligible in this service, if not, i will still continuing helping others. Good luck fellow members.

Sofu - September 3, 2017, 8:36 am

Hey Riggs!

Sofu here, if you check my threads you'll see that I run a new service in the rewards and small favors section that I call "Small Bits". Which is a service that any member can request funds from me through PayPal under \$2. I just started it but I've already given out around 30 dollars and plan to continue to keep this up and running. This is why I feel like I deserve to be upgraded. I know I'm new but I plan to give back to this forum a lot.

It would be awesome if you could purchase 3pic for me so I can give out those funds and also save me the time getting it exchanged.

I-I - September 3, 2017, 5:56 pm

I always try to be as HQ as possible when making a post. I'd love to have uber and have been wanting it for a long time. I mostly try to be pleasant with people [^^]

Zion - September 3, 2017, 6:05 pm

I don't think I deserve it, but I do believe it would be nice for me to receive this very generous thing you're doing. Whenever I go on here, I honestly try to be the nicest I can be and be as HQ as I possibly can which may not be all the time but I do indeed try to be HQ. I believe an upgrade would significantly help me become a better member of this community by encouraging me to use this forum even more frequently than I already do and being a positive, contributing member. I, myself, when more financial stable, plan on hosting many giveaways such as this one. Anyways that's all! Sometimes posts like this give me really bad anxiety but I really do hope you take my entry into consideration. Thank you again OP for hosting this!

lwristis - September 3, 2017, 10:10 pm

My good man Riggs!

I'll make an entry here. We've talked about our career in cybersecutity although you seemingly forgot our conversation.

I use HackForums as a resource to my career and although some sections seem to be hopelessly inactive, I hope my presence can be of benefit to others.

I intend to be on here long term as I find that there is talent and surprising an amount of intellectuals on here.

I suppose I don't necessarily "deserve" an upgrade, but who doesn't like free things? I will be a resource for those who are also in our field and I don't intend on excluding anyone from knowledge. That's the closest I can get to persuading you that I "deserve" an upgrade!

Have a good one! :)

Cain_ - September 3, 2017, 11:40 pm

I wanna join this contest. Why i want to be a L33T is because of the limitations here on forum, gaining trust from other users because most of all upgraded users here doesn't trust normal members and the rest is to be able to give reputation and ofcourse i am not gonna abuse it, i'll give them to the user will really deserves to get them.

I would like to be taken into consideration for Ub3r upgrade, i have been approved.

Indeed there's more than enough of that toxic stuff here. Personally tho, I would say that you should only upgrade those who are already upgraded one way or an other and have a proven track record here (hq posts, old acc).

I have been at this forum for less than a month and I have almost reached 100 rep, this is by helping out other members and giving my best advice that's been needed! Every little helps is my saying and it's something to give back to the community as they have been wonderful to me also. I have almost reached 600 posts aiming at around 20-30 posts a day and love getting members active with my debate/discussion threads!

I also have given back one by doing a giveaway offering the winner \$25 from any selected gift-card at their choice which put a smile on my face for helping someone! Overall, I just admire and would love to be upgraded for my next step on the journey on Hack Forums.

I would love to get the EPIC upgrade since im too lazy to remove old messages and stuff on HF.

Anyways why i deserve it? Well i have been given much to the community

<https://hackforums.net/showthread.php?tid=5583902>

In total i gave out 338 USD and i have done some couples of giveaways of 30x2 USD codes.

Lots of users on HF made a lot of money from the money i gave out.

Would be nice to get something back. Thanks for hosting this.

A lot of time and effort goes in to making customers websites from scratch. If I were to be upgraded, my reputation would increase and I will be able to get some of what I put in, out. Thanks for reading this.

So this business of yours, you believe that being upgraded will increase sales, therefore would upgrading not be an investment in yourself, at that a very cheap one..? You cant think too highly of your business if you don't want to invest \$20...?

I'd like to be upgraded to L33T because it'd help me massively with my inbox issues, and it would allow me to send messages more quickly, as well as post more & giveaway more stuff.

Thanks for the opportunity! ?

whichguy - September 16, 2017, 10:15 am

My old account was permanently closed for inactivity - I had been a member here since 2009 and had a perfect rep with literally thousands of deals done. I'm not in a great financial situation right now ('friends' robbed me :/) so it would be great to get ahead here with an upgrade.

PICwarrior381 - September 16, 2017, 10:48 am

I would like to be upgraded because of the advantage that you have becoming upgraded.

I always tried to help people in the RAT section or somewhere else, giving advice to people in PM, I think I would be a good quality upgrade :)

Thank you

Fresh Khalifa - September 16, 2017, 10:50 am

I deserve to be upgraded to UB3R because I am a very friendly member who respects other people. I also never ignore anybody and I try to be friends with everybody.

baddy - September 17, 2017, 8:50 am

if it is actually based on my answer then hmm, i will say in points :

- 1- Using HF from long Time as a Ghost
- 2- Got ripped over 2k\$
- 3- Got loads of help from Factor8
- 4- Tried to help many but ultimately if you are not upgraded you are dead on Hf
- 5- I can upgrade myself but that will not mean any achievement .

artdealer - September 17, 2017, 8:51 am

I'm a new member, getting quite a lot of PM's from my free graphics service thread I have in my signature, and have to delete my inbox every couple of days, which is a bit annoying. I have just seen you need to be upgraded for more PM space, so that's why I'd like Ep1c.

Thanks my man, god bless.

Killy - September 17, 2017, 11:21 am

About Myself:

*I am an 18 years Old college student who is willing to learn and contribute much of my time to aiding out others who are willing to help back!

*I push myself to the limits to make sure I am better then how I was, every single day!

*I have been registered for a long time, since 07-17-2014 (3+ years)

Why You deserve it?:

I think I deserve this an upgrade because I am planning to put in my personal time and invest into this community. There are many benefits in getting an upgrade including a bigger inbox, invoking self ban, and etc. But why I am here, is to make sure I will be more well known and more trusted in this forum. I have done countless deals in the marketplace and have bought over 5+ ebooks with earnings of none in most. I have even been scammed once already for offering to go first because I know and put my trust into a member that I do not know because there is no trust for a non

upgraded that have no high rep. Because of this I have no authority to say I deny going first.

I am currently doing the best I can to stay at my highest quality, by posting in areas such as the lounge and doing my best to help out on the small favors.

What I plan to benefit in the future as of using this forum is to learn and acquire new skills that cannot be learnt else where, Either from sections such as the lounge, market place talk, Buying ebooks, public methods, or even from friendly members that are willing to put in there time for me. By expanding my future knowledge, I will be able to help many newer or current members that have been clueless about the internet as I have been.

I have also met many friendly users and planning to become internet buddies with them as well.

Some of my Contributions:

I know my contributions have been small as of trying to be active and doing small favors, but I will constantly be doing all small favors to my abilities and definitely help more people in need in the long run once i expand my knowledge.

These are the few small favors that i have done recently

but i have done an easy extra 10+ more which will take me a while to find as most have closed or not active threads anymore.

As of today will do my best and contributing with the best of my abilities.

Because I am still fairly new to the internet, I do not have many ideas or information to share to the community, so as of now the best i could do is to do everybody favors until i have develop something big to share that will effect the whole HF forums! that will be my goal!

I hope I have convince you about why i should be upgraded!

If I do not deserve it, then I am sure someone else will need it more then me!

jyfly - September 17, 2017, 11:42 am

I don't

But this would help me learn at an accelerated rate and people would take me more serious.

pankaj.im3a - September 17, 2017, 3:08 pm

I've been a part of this community for many years and it is very enjoyable to browse, help and post. I love to interact with the community. I love to make posts on threads which can help new user and help in any way I can. But, unfortunately, I simply do not have the money to purchase an upgrade. I would love to be L33T and explore the community even more. I also wanted to get upgrade bcoz i can give neutral or negative rep who scam people and get away bcoz the person dont have the privilege to rep him and the community doesn't get to know that the person is scammer. If im able to

- rep or neutral i can at least comment to get cautions will dealing with the person so other dont get scammed by the same user.

Thank you for this opportunity.

(Sep 2, 2017 08:23 PM)Riggs Wrote: [\[CITE\]](#) Looking back at this, it's sad how many recent applicants are now closed/banned.

This is why I rarely upgrade members anymore. Too many toxic parasites with a thirst for fuckery trying to persuade me into elevating their privileges.

Sup.

I won't try and persuade you, so give me 3p1c. Thx.

Also, peep my join date. I'm still here ;) Don't think I'll be doing anything to get myself closed anytime soon.

Edge of Nowhere - September 18, 2017, 9:32 pm

I've been a member on here for quite some time. Never really asked for anything, always try to help others (as best I can). Sadly all I've ever gotten from this site... is getting scammed from a project I sold (Sold it cheap and still got scammed).

Additionally, I think I'd like to start trading for crypto-currencies. Simply cannot do that with a basic account.

Probably won't get the upgrade, but, thanks if I do.

AvessoVision - September 19, 2017, 12:04 am

I'm one of the most active graphic designers in here that I know of. I've been offering quality feedback as well as showcasing quality work for some time now and helping whoever I can when in need of advice.

It would be a pleasure in getting upgraded, therefore I am posting this.

Cheers.

Why I should be upgraded to L33T?

Hey, first of all thanks for giving all these people a chance to be upgrade.

I'm very helpful in this community and Ive given a lot away e.g RDP'S, Social Media Likes and other things although there I a lot of hater I don't care. Sometimes when my giveaways are done I can't close them so I get constant PM's about getting a RDP and I was negged for not giving them one then I gave it and he unnegged me :). I believe I am HQ too.

Another reason why I want L33T is so I can post threads in the currency exchange, post sales threads in Premium Sellers Section, Ive PM'd tons of people for exchanges and they seem to never reply back to me for an exchange, so getting upgraded to L33T can benefit me a lot. Ive always wanted to post my sales thread to boost my sales, to edit my threads to add vouches and other things.

I guess another reason I want l33t is because I want to +1 people that are HQ, 0 for people spamming and posting lq stuff.

No more 3P1C and would be nice bud!

Anything to help keep some active and entice others to be more active.

I will contribute to this if you re-open.
Maybe put it under Infamous banner.
