Thread: [Looking for partner to help develop and manage forum. | Please Read!](#)

-na.Talish - January 7, 2012, 12:43 pm

I am developing a forum which is a portal for people who are interested in making a blog, blog managers, have interests in blogs etc... I have bought domain, I have hosting and I have MyBB is installed, I'm currently working on the theme at the moment but it would be nice to have some extra help and another admin could be useful.

If you think you are good enough for the part please fill in the form below and reply to the thread, keeping in mind the work you will be doing is voluntary and you will not make any cash through it. Also, keep in mind if you apply I will take a deep search through your posts and threads to ensure what kind of member you are to hackforums.

If you do not agree to these terms, please do not apply.
Thanks.

First Name: Tim

Application for Graphics Team or Forum Manager: Forum manager

Age: 23

Language: English / C++

Skills: Proficient C++ and I have been doing business online for a few years, so all forum business will be handled professionally.

Threats/Weaknesses: Working fulltime and attending college full time so I am not available often.

Daily time you spend online: 3-4 hours.

How can you contribute?: I can keep the forum under control and make sure everything is spam free and on topic.

Can you help bring in visitors?: Yes I can advertise.

Have you managed other forums?: Yes I have managed a few black market sites.

Is your grammar/spelling good?: Yes it is.

Are you skilled in creating web graphics? (If so please show your work): No but I do know my way around photoshop (I took a class in hs).

Other comments/information: Don't judge me based on my low amount of posts or information like that.

First Name: I am really really sorry. But I don't give out my name publicly. And rarely privately. If you feel really un-safe without my name, then I am very sorry. Perhaps we could try to work something out :)

Application for Graphics Team or Forum Manager: I am not great at making graphics :(But I do love managing forum's . I have been an admin+mod+member of many many forums. I am able to grade graphic's and I am good at knowing what will catch the eye of user's or potential user's (I am good with psychology).

Age: 17

Language: English. I am VERY good at understanding broken english too.

Skills: Psychology, Trouble shooting, Some blogging, People skills (ability too interact with many different groups of people. I am also very good with different nationalities I have lived internationally. USA,UK,ASIA*).

Threats/Weaknesses: I tend to over push myself with amount of projects I take on, I seem to do a lot of "acting" before asking (Will make change's too something, THEN ask if its okay. Although im not too bad at it). Biggest threat, my timezone (asia).

Daily time you spend online: Most of my day. 6+ hours. Asia timezone so I get both USA user's UK user's and Asian user's (good for admin position :]).

How can you contribute?: Mostly by keeping the forum "cleaned up" (Stopping spam, "hackers"*skids , Rule breaker's). Spend a lot of time working on upgrade's / corrections too the forum or its skin.

Can you help bring in visitors?: Probably. I do not believe in spamming across other sites, This brings bad traffic. My personal approach is contacting people who are looking. Or making good tutorials on other site's which link to yours in the process.

Have you managed other forums?: Yes. Many :)

Is your grammar/spelling good?: It is not the best, but I try too keep it highquality.

Are you skilled in creating web graphics? (If so please show your work): Not very. I still can try.

Other comments/information: Well I think I did all I can above :)

I understand this is working for free, and I like helping.

I hope you consider me :] feel free to PM me with any questions

Thank you for considering me as a mod :)

Green Arrow - January 7, 2012, 2:16 pm

First Name: Wayne

Application for Graphics Team or Forum Manager: Forum Manager (although i am good with graphics to but i would prefer to apply for Manager)

Age: 21

Language: English

Skills: Mybb, html, css, gfx, poser & Cinema 4D

Threats/Weaknesses: Im online most days but there might be a day where im not on till about

3-4pm

Daily time you spend online: All day from 12PM to about 11PM

How can you contribute?: I can help by designing things for the forum, making sure people don't break the rules & general mybb construction

Can you help bring in visitors?: I will register for various other forums & advertise the site along with posting videos & comments on youtube, but i cannot be 100% sure if i will be able to get a lot of members (but i will try)

Have you managed other forums?: I have managed & owned a few forums in the past, a few of my own & a few of my friends but all have since shut down, which is why im looking to join the staff of a new forum & help it grow. I was going to create a new forum of my own but due to a lack of being able to find a good host i have decided against it.

Is your grammar/spelling good?: I can use proper grammar & spelling when it comes down to it, most of the time i type to fast & post the message without reading through my text, however when i am running a site i always double & triple check my spelling & grammar

Are you skilled in creating web graphics? (If so please show your work): Yes, mainly i work with website designs & not general graphics such a signatures ect but i can give them a shot if needed, please find a couple of examples of my work below:

<https://i.imgur.com/UBHmo.png>

<https://i.imgur.com/N59hz.png>

(iv just got a new computer so i don't have any other finished designs saved. However i do have a few unfinished which can be presented if needed)

Other comments/information: When i work for a forum/site i put my all into it, even if i don't know much about the forums main topic i still try my best putting 100% into it spending most of my time on the forum/site, so i hope you consider me for the roll.
