Thread: [Helping users get in to File Ice](#)

If you guys need help getting into FileIce, I can be of assistance there. If you're struggling I'd be happy to help you out via PM. I'm not going to give you any eBook bullshit because I didn't use an eBook and I got in on my first try. All you need to do is put the right things. If you want help, send me a private message and we'll take it from there.
