This hardly works anymore.

But with somer low security sites it still does. Tricks been around for so many years

I think most webmasters already fixed the bug.

Yeah its very patched.

Its unlikely it will work, but can be useful for other things too

yup say you play a private server of some game and say if u donate u get the item(s) or uprade(s) u
payed for instantly after donation, this trick would work, because most Pserver owners are 12yo that
are fucktards
