Thread: [Alterations to Tabs and New Categories](#)

Omniscient - December 21, 2009, 4:19 pm

Not sure wtf got into me but it's been bothering me for some time that the computing section was stuffed under the hacking section.

It's under it's own tab now and I have created forums for languages like Perl, Python, and Ruby. I have moved thousands of posts but I ask that members pay attention to where they post in these sections now and indeed VB topics are placed in the VB section. Wrong forum posting will get you warnings. Let's keep the site tidy.

Thanks.

I always wondered whether or not you would do something about this. It's good to see that they now have their own tab.

?

I was always confused as to why actual legal computer stuff was under the hacking tab, great change/addition Omni.

Soul Collector - December 21, 2009, 4:23 pm

Well its good but it looks weird. ? But still I like it

MyNameIs940 - December 21, 2009, 4:24 pm

Can we also have a pascal and delphi section? ?

ep1capple - December 21, 2009, 4:26 pm

Yeah it looks way much better now that computing has its own tab.Good choice.

Saged - December 21, 2009, 4:43 pm

Doesn't really effect me any, but good move.

Omniscient - December 21, 2009, 4:43 pm

And yes I am aware I need to add some ficons.

iBruteforce - December 21, 2009, 4:47 pm

As it should be.

I'll find some ficons.

Here are some nice icons. They need to be resized slightly.

There's already a Delphi section...

Coding and Programming

Ruby, Delphi, C#, ASP and other programming languages not covered in the other forums should be posted here.

SkullTraill - December 21, 2009, 9:06 pm

Bro, you do overwork don't you ?

Tasemu - December 21, 2009, 9:43 pm

Im liking this development a lot. Good choice mate.

Gonzo - December 21, 2009, 11:36 pm

Nice move, i like it. Makes the forums look alot neater

?{ RadioActive Hack }? - December 22, 2009, 3:44 am

Great idea love it .. ty omni makes it a little easer to learn .

ubbelol - December 22, 2009, 7:54 am

Good addition, easier to find and in a more proper section of the forums. Good :)

Just one thing missing, pictures infront of Java, Python and Perl programming..

EDIT: Didn't see the thread about it, sorry.
