Thread: [\[Release\] Window Control Panel](#)

Washi - January 16, 2012, 12:01 pm

Hey everyone.

A while ago i created this program. It's a program that allows you to edit windows' properties, such as text and size. A little preview here below:

[img]http://dl.dropbox.com/u/35921759/Window%20Control%20Panel.gif[/img]

Virus scan (0/0)

<https://www.virustotal.com/file/e9b078918cd06e81a683c499bfa516d9436d3c65078df0e94b7b31b43be0a13f/analysis/1326743101/>

Download Link

<http://dl.dropbox.com/u/35921759/WindowControlPanel.exe>

If you want to have the source, post here and send a pm.

theme by oVERT3Xo

No i'm not going to share the theme. I've made a promise that i wont share it. So PLEASE STOP WITH POSTING asking that.

Cody8295 - January 16, 2012, 12:09 pm

Eh, pretty cool I guess. Could be useful.

Mr.TwEaK - January 16, 2012, 12:10 pm

Looks pretty cool, Good job man. I remember making something like this not quite sure what happen to my project tho. Anyways nice theme :D

idonotcare - January 16, 2012, 12:11 pm

Oh man, whats the theme and where can i get that? :D

OLOY - January 16, 2012, 12:11 pm

looks pretty cool :) tried it out fast :P

G3O - January 16, 2012, 12:14 pm

Wow Bro, looks really awesome. Would appreciate the Source.

Washi - January 16, 2012, 12:17 pm

Thanks all for the nice replies. Unfortunately, I can't give the theme. I've made a promise that I won't share it. But what i can do, is sending you the source if I accept you can get it.

fillobotto - January 16, 2012, 12:50 pm

hey, hello again :) nice tool
can you pm me that theme? <3

no1me - January 16, 2012, 12:55 pm

look nice i also want to see the src tnx

DragQueen - January 16, 2012, 1:00 pm

^^ simple user32 dll export Api ... ^^

Support. - January 16, 2012, 1:01 pm

looks really good boss, PMing you now,

no1me - January 16, 2012, 1:03 pm

(Jan 16, 2012 02:00 PM)DragQueen Wrote: [\[CITE\]](#) ^^ simple user32 dll export Api ... ^^
yhe trapecode post something like this this what i want to check

DragQueen - January 16, 2012, 1:07 pm

(Jan 16, 2012 02:03 PM)no1me Wrote: [\[CITE\]](#) yhe trapecode post something like this this what i want to check
and steanir too.
use this library [i made it]
<http://pastebin.com/feKJ72B5>

no1me - January 16, 2012, 1:22 pm

i have it i see it in the C# section tnx
i need to convert it to vb net

Penthos - January 16, 2012, 1:25 pm

Nice this is a nice share :)

Can't wait to have a play and learn something :)

Thanks man :)

Washi - January 17, 2012, 9:38 am

Thanks for the nice replies. I sent to some guys the source. If you also want it, post here and pm :)

Forever a phone - January 17, 2012, 10:00 am

Hi can I have the source please thanks in advanced.

Washi - January 18, 2012, 11:16 am

(Jan 17, 2012 11:00 AM)Forever a phone Wrote: [\[CITE\]](#) Hi can I have the source please thanks in advanced.

Sent you the source. Please do not leech and give credits ?

Immortal - January 18, 2012, 11:54 am

Can i Ask, how did you get to change windows title Real time, cause when i change it i have to wait a second or make the notepad gain focus :(

Washi - January 18, 2012, 11:59 am

(Jan 18, 2012 12:54 PM)Immortal TM Wrote: [\[CITE\]](#) Can i Ask, how did you get to change windows title Real time, cause when i change it i have to wait a second or make the notepad gain focus :(Do you mean in the program or in source code?

DeafConn - January 18, 2012, 12:13 pm

That's an interesting program you have here. May I please view the source?

Obi-Wan Cannabis - January 18, 2012, 12:15 pm

Now you all imagine this, remotely... Awesome feature for RATs!

Immortal - January 18, 2012, 12:30 pm

I mean Like, I have a Program that Changes windows title by a process name, but if i change windows title i have to wait a few seconds for it to change, on your Gif it shows it happening almost instantly

SIM-701256 - January 18, 2012, 12:32 pm

Thats nice, i always like to see your work! :D

Washi - January 18, 2012, 12:46 pm

I can post you the source of the class i created. ?

@?gcm?rtin, i posted the source:)

Gr0wlit - April 2, 2012, 8:54 am

Awesome tool! Really nice! Keep it up!

Penthos - April 2, 2012, 9:47 am

May i have a look at this to please :P , minus the theme of course :P

Ty

Stenography - April 2, 2012, 9:52 am

It may assist the vb .net R.A.T's coders over here.
Keep contributing to this community mate !

The MammoTh - April 2, 2012, 10:04 am

Not really something I would use but good job.

Washi - April 2, 2012, 11:25 am

I was just thinking that too. This can be pretty useful for that kind of software.

(Apr 2, 2012 10:04 AM)The MammoTh Wrote: [\[CITE\]](#) Not really something I would use but good job.
=D

Penthos - April 2, 2012, 11:35 am

Thank you for the share dude :P

As promised :D :3

DragQueen - April 2, 2012, 12:15 pm

i saw better version but tnks anyway ^^

Penthos - April 2, 2012, 12:17 pm

(Apr 2, 2012 12:15 PM)DragQueen Wrote: [\[CITE\]](#) i saw better version but tnks anyway ^^
I saw it to but it used an external .exe i would defiantly say this was better :P

No offense to the other coder as i did like his application and web site :D

Ah dragqueen i stand corrected, I missed blackcaps and yea it looks boss :P Thanks man :)

Hertyon - April 2, 2012, 6:14 pm

This looks like a nice program clicks download

F0UNDER - April 3, 2012, 12:25 am

can i please have the source ..
thanks in advance .. and PMing you now !

+Awesome - April 3, 2012, 1:46 am

I PM'ed you bout it already. Hoping to receive now. :)

Deagler - April 3, 2012, 1:48 am

This looks really nice but the problem is that I don't think it has a practical application

li0nsar3c00l - April 3, 2012, 2:21 am

id like to get it, pls send it to me

Washi - April 3, 2012, 9:28 am

Posted to the ones who sent me a pm. ?

Skillful - April 7, 2012, 12:19 pm

Could I get the source please?
Thanks in advance.

Washi - April 7, 2012, 12:23 pm

(Apr 7, 2012 12:19 PM)Skillful Wrote: [\[CITE\]](#) Could I get the source please?
Thanks in advance.
Sent you the source of WindowControlPanel too.

creep - April 7, 2012, 12:31 pm

Hey, please send me the source too. Thanks :-)

Washi - April 8, 2012, 2:05 am

(Apr 7, 2012 12:31 PM)creep Wrote: [\[CITE\]](#) Hey, please send me the source too. Thanks :-)
I've posted you also a PM with the source.

HopeSaraiva - April 8, 2012, 4:39 am

Hi can I have the source please thanks in advanced.

Ps : Very good work bro ;)

EKNOZ - April 8, 2012, 5:18 am

Looks Really Good, Keep It Up :D

Pming You Now :p

Washi - April 8, 2012, 5:23 am

Posted you both a PM with the downloadlink.

maruata - April 8, 2012, 7:48 am

This is a nice one. I don't know how you really are a good programmer!

condom - April 11, 2012, 2:56 pm

nice controls for the window control panel. the gui looks sexy.

DJ BrU - April 11, 2012, 2:59 pm

Sweet idea bro, you should add a API sniffing function that shows the API code being used at the time of modification.

ArSkHelios - April 12, 2012, 1:08 pm

Oh hot damn, could I get this source? Thanks!

YOMANNN - April 12, 2012, 1:13 pm

Sweet. Could I get this source as well? Thanks

0xDEAD10CC - April 12, 2012, 1:14 pm

This isn't all that difficult to do, but it's interesting I suppose

Coleak - April 12, 2012, 3:43 pm

Now why would you obfuscate something so simple?

0xDEAD10CC - April 12, 2012, 3:59 pm

(Apr 12, 2012 03:43 PM)Coleak Wrote: [\[CITE\]](#) Now why would you obfuscate something so simple? It is pretty simple when you've already got all the API's, and you use Windows messages. I use a program like Spy++

TrippyMane - April 12, 2012, 4:31 pm

I Dont get this, these are pretty simple function but i guess the theme and gui looks cool

Washi - April 12, 2012, 10:08 pm

(Apr 12, 2012 03:43 PM)Coleak Wrote: [\[CITE\]](#) Now why would you obfuscate something so simple?

(Apr 12, 2012 03:59 PM)PhazeShift Wrote: [\[CITE\]](#) It is pretty simple when you've already got all the API's, and you use Windows messages. I use a program like Spy++

I obfuscated the program because i made this program a very long time ago and at that time I thought I had to protect it. And it was also a test what DeployLX can do. But yeah, it's pretty easy to code. And not that much posted here so.. idk ... =P People can get the source when they post me.

WZDY - October 6, 2014, 1:24 pm

Interesting program, please re-upload it so I can give it a shot.

Hawk HF - October 6, 2014, 1:29 pm

(Oct 6, 2014 01:24 PM)The Flash ? Wrote: [\[CITE\]](#) Interesting program, please re-upload it so I can give it a shot.

This is from 2.5 years ago...

Please check the dates on threads before posting.

SIM-1456245 - October 8, 2014, 8:18 am

Even tho it's old, I haven't seen it, would like to know what exactly it does and what's with the theme. If it manages all open windows, I have coded a helper class for it, look in my threads if interested.
