(s)(u)(f)(f)(i)(c)(e) - January 17, 2012, 10:55 am

I want your opinions on why you or someone else should get an upgrade?

If you nominate yourself show proof that you have contributed back to the community.
If you think someone else deserves it state why.

I will pick the winner in 24 hours.

Edit: Well I would like to congratulate the following people:

UB3R: [IniTiAlize](#)

UB3R: [Verspil](#)

L33T: [JackC](#)

L33T: [karalejic](#)

L33T: [Neel](#)

L33T: [Staid](#)

L33T: [youbou](#)

Ub3r is pending the approval of Omni of course.

Keep up the HQ posting. I will hold another contest in another 4 maybe 5 months.

I need an upgrade. Please check my really HQ posts to see what I contributed.

Neel - January 17, 2012, 10:57 am

I've written a response to an upgrade thread before this so I might as well use that:

Hey, I'm Neel and today I'm applying for an Ub3r upgrade.

Before I start off saying why I think I should be upgraded, here's a picture of me being approved by Omniscient.

Spoiler [\(Click to View\)](#)

I feel I should be upgraded because I've been a member on HackForums for a very long time, I have over 1000+ posts and over 25 rep. Most people would think this isn't much but most of those people are Ub3r with over 5000 posts and 500 rep.

I've had a lot of helpful threads and giveaways:

<https://hackforums.net/showthread.php?tid=2115885>

<https://hackforums.net/showthread.php?tid=1984395>

<https://hackforums.net/showthread.php?tid=2095730>

<https://hackforums.net/showthread.php?tid=2030018>
<https://hackforums.net/showthread.php?tid=2027092>

I've taken a lot from the community so I think it's only fair to give back. If I get upgraded, you can expect a lot more giveaways from me. I'm mainly active in the subforum "Monetizing Techniques" but I've started to go on to subforums like "Graphics" and "Science, Religion, Philosophy, and Politics"

I like to think of myself as HQ and I've helped many users in the past, thanks for giving me this opportunity, good luck to everyone :)

Dear.

First of all I like to say Hi! I am Guus, and I am from the Netherlands, I am 16 years old and a little addicted to HackForums.

Active at the forum for some months now, and try to be HQ much as possible. In my real life I am working in a shop, and make fun with my friends. When I searched in the "Member Contests" - Section I saw your thread. I think this is my change to get an upgrade, cant afford it myself, dont have any online money, and I'm only 16 years old.

With this application I hope I can make a change to get an upgrade L33T - UB3R.
Omniscient approved me for upgrade Normal - UB3R.

I appreciate your service, people who cant buy the upgrade, can get a chance to get an upgrade! That is really nice of you, I like that.

Why I think I deserve this upgrade:

I try to be HQ as possible, in threads and post, and when I am helping people also in private.

I try to help people in private all the time (Skype/MSN) with hacking, scr!pting, and programs. Think I have skills enough to help other people with it.

Am learning from others, and active in much sections.

An upgrade is like an boost for me, to keep up the good work, you know.

HQ enough for an upgrade Normal-Ub3r.

Also I am an member of the TryHards and the official group "The Techsperts".

I took some time to write this, I appreciate when you read it.

Much members here deserve an upgrade.

Goodluck to all members who are in the contest.

Thank you.

Motiv?tion - January 17, 2012, 11:20 am

Hey, this post is going to be about why i (Jack) should be upgraded.

Just to note, I'm aiming for leet, but if you want to, you can upgrade me to Ub3r (I have proof)

So let's get started:

My name is Jack, and i am 13 years of age, and I'm 14 in 6 days :D

Here are some of the threads where I've contributed :

[Minecraft griefing tool \[OPEN SRC\]](#)

[Name hide tutorial](#)

[41 Minecraft account giveaway](#)

[Buildcraft factory](#)

More reasons why i think i deserve this upgrade :

I'm a very mature and high quality member of HackForums, i try my best to give to the community, and if i get upgraded it's a big motivation for me to help more, and do more, You can also check in my other threads and see that i hardly ask for stuff, hardly troll and i do a lot of minecraft account give away's, and to prove all this, you can also check my rep :)

Proof that i can be upgraded to Ub3r : Please contact me on Skype @ itzjackc and ill screenshare, as all image hosting websites are failing for me :/

Thanks for reading, and i hope you pick me!

One last thing : Good luck to all people who have entered, and may the best man/woman win!

Name: Jerlene

Why should I choose to upgrade you: I think you should choose to upgrade me because in the short amount of time that I have posted, I have contributed a nice amount of things. I also like to think of myself as a HQ member.

I have given away:

[free ebooks of my own](#)

[free tweets](#)

[free Facebook status updates](#)

[free graphics](#) (too many to show so I just linked to my portfolio. most are for HF members.)

[free twitter followers](#)

[free p0rn accounts](#)

[free high quality website reviews](#)

[free fmbi script](#)

[free domains](#)

[etc. etc.](#)

I also like to visit the Website Construction forum and help people with their problems, mostly MyBB related since that's what I'm best at.

I created a [graphics tutorial](#) and I plan on doing more in the near future.

I'm also working on a custom [MineCraft theme for MyBB](#) that I will be releasing on HF first(and maybe ONLY).

And I will continue to contribute. You can always find me in Graphics Requests trying to fulfill as many requests as I can.

Anything else to add: Just wanted to add that I will be happy with either L33t or Ub3r. Just in case you decide to upgrade to Ub3r, I just wanted to let you know that I have been approved by Omni([screenshot](#)).

Thanks for the great contest.:)

Haha okay then.. lets try even if i'm bad in creating applications ;d

My name is Jonas, i live in Norway and i'm 19 years old.
Languages i speak without any problems: Norwegian, Dutch, English.
Languages i understand with almost no problems: Swedish, French and Arabic. (I love languages xD)
I've been living for 11 years in Belgium and that's why i learned Dutch & French. I learned the other ones by myself :p
I would love to be L33t because being L33t is awesome and i think i deserve it. I've been dreaming about if for a long time now but i've never been able to collect the money to buy it. Changing my Signature, Adding reputation points to the ones who deserve it, and a lot of other awesome things that you can do with it. I can't imagine how much better HF would get after getting an upgrade.

I've contributed a lot the last days.. giving out free stuff like:

[\[CONTEST\] STEAM ACCOUNT \(SR3, Portal 1&2, L.A. Noire & MORE\) \[VALUE: \\$760.49 USD\]](#)
[\[L33t & Ub3r\] 1 YEAR MEGAUPLOAD PREMIUM \[L33t/Ub3r\]](#)

And other Premium accounts to random websites.

Why am i doing this? Because i love giving out free stuff ? I love getting a PM with the words: "Thank You" because i can feel it in my heart when someone writes that to me.. i also love helping

other people out there that really need it.

Thanks for reading my application ;d

And thanks for having this nice contest, helps out a lot of people who deserve L33t but can't afford it :)

First of all I like to say Hi! I am Guus, and I am from the Netherlands, I am 16 years old and a little addicted to HackForums.

Active at the forum for some months now, and try to be HQ much as possible. In my real life I am working in a shop, and make fun

with my friends. When I searched in the "Member Contests" - Section I saw your thread.

I think this is my change to get an upgrade, cant afford it myself, dont have any online money, and I'm only 16 years old.

With this application I hope I can make a change to get an upgrade L33T - UB3R.

Omniscient approved me for upgrade Normal - UB3R.

I appreciate your service, people who cant buy the upgrade, can get a chance to get an upgrade! That is really nice of you, I like that.

Why I think I deserve this upgrade:

I try to be HQ as possible, in threads and post, and when I am helping people also in private.

I try to help people in private all the time (Skype/MSN) with hacking, scr!pting, and programs. Think I have skills enough to help other people with it.

Am learning from others, and active in much sections.

An upgrade is like an boost for me, to keep up the good work, you know.

HQ enough for an upgrade Normal-Ub3r.

Also I am an member of the TryHards and the official group "The Techsperts".

I took some time to write this, I appreciate when you read it.

Much members here deserve an upgrade.

Goodluck to all members who are in the contest.

Thank you.

Why are you deserving of an upgrade: There are a few reasons why I reckon I deserve an upgrade. One of them is that I always try to help out to the best of my ability. If anyone has had a problem with anything I can help with, I am always the first to offer my help. I have also helped by coding programs and websites and JDB's that I give to the community for absolutely free. To be honest, I don't deserve an upgrade, but if you would pick me for the upgrade, you will not forget it.

How and why did you join HF: I was searching Google one day on Coding tutorials, and I stumbled across this site. Ever since that one day, I have been in love with HF. It is a great site and I hope that I will be able to contribute more if I get L33T.

What can you offer the HF community quality wise: I can offer many things to help the community such as making tutorials and ebooks on coding, gaming and many other things as I have shown you above in this application.

Anything else you would like to add: If you don't pick me, I will understand. You are a very good person for doing this and I respect you 100%. Thanks for your time on reading this and I hope you make the right choice. Good luck to all the other applications.

Well first thing is that i can't write long detailed reason, because my native language is not English but i will do my best.

I am old and trusted member of hf, i have a good rep from helping others and being legit member. I always share some great stuff. Just check my rep :)

I am not going to copy and paste my other applications from other upgrade threads here. Most likely only the contribution part, but let's move on. The reason I really want L33T is because I spend a lot of time on this website (1 Week, 3 Days, 16 Hours, 2 Minutes, 11 Seconds) The advantages of having L33T are awesome, and I would really like those. The problem is I simply don't have the

money. It's just too hard to get money for me. Well...that's the only honest problem. I hope you understand.

On that page is my application for a other upgrade contest.
