Thread: [HACKING GMAIL ACCOUNTS AND OTHER COOL STUFF](#)

Y0HITIA - January 17, 2012, 7:46 pm

Hello everyone my name is Y0HITIA I've always been great with computers I don't know why. But I wanna take it to the next level I want to learn how to hack people's crap? You know like their gmail accounts. I also want to know how to like totally just brick their computer!? I know everyone here at this site probably knows a lot more then me but thats why Im here. To learn. can someone teach me how to do these things it would be awesome I would really appreciate it? thanks guys! I know that it requires skill but trust me im really good on cpu's not braggin you definitely know more but can some one teach me how please ?.
