Spynet is backdoored, isn't it?

I scanned it myself.. it clearly said .backdoor on one of the versions...

Serial_KillaZ - December 23, 2009, 9:11 pm

What about poison ivy?

iRtehLeet™ - December 23, 2009, 9:57 pm

Every version of SpyNet is backdoored except 2.6, as stated by the original author.

bam - December 23, 2009, 9:58 pm

aw, I like turkojan though.

I have about 50 people online my turk. :p

Plutonium - December 24, 2009, 2:22 am

Cerberus ain't a shit RAT... O.o

Every 100 updates you get 15, even with a FUD server.

It's shitty as fuck because of the update rate, if that was improved majorly Cerberus would fucking rape.

im sorry but to tell u the truth it has nothing nice. Same rat but full of shitty bugs.

BaNNED - December 24, 2009, 4:17 pm

Please someone review RAT called "Lost Door" ? from Chinese .

True, But when 2sly updates it , it wont be unstable anymore :)

Broomop - December 25, 2009, 11:58 am

boohoo i at least want to be on the shitty rat list ;)

Plutonium - December 25, 2009, 12:15 pm

@Broomop - Hahahaha :P

Ya, I also use Turkojan, might decide to switch to apocalypse though, It seems ALOT more stable..

Widow's Peak - December 25, 2009, 1:22 pm

I'm using Cerberus right now, but I'll probably switch to a better one. Cerberus would be better if it werent for its shit update though.

Hollywood0Undead - December 25, 2009, 3:41 pm

im just waiting to see what Sub7 has to offer agn.

Cerberus Rat :

1. File manager freezes on you.
 2. When you chat with several servers it freezes.
 3. Password rec tool is ass.
- etc. etc. etc.

+1

Totally agree . Known bugs .

1. File manager freezes on you. = Need Reset Server :)

1. Really never happend to me.
 2. Not really lol (if u use v 1.01 then maybe)
 - 3) Yea thats right

AuToGrApHzZz - December 26, 2009, 4:53 pm

Don't hate on turkojan it has nice features and is a great beginner RAT.

If someone tried to spread it without crypting it will be detected by windows defender. So its not really nice to be detected by defender.

Romeo. - December 28, 2009, 6:49 am

OMG, you forgot about BIFROST !

That RAT is smart.

Freakkz - December 28, 2009, 7:34 am

Top Rat For Me :

Apocalypse 1.4.4

Lost Door

If you doesnt like these RAT's Tell me Why ? i wanna know :PXD

Snipeshow - December 28, 2009, 9:56 pm

AHAAHA the OP was the one bitching at 2sly (cerberus coder). Dumbass

Jamz - December 28, 2009, 9:57 pm

Buy Medusa rat. Or any stable rat that's good.

Code your own
