Thread: ([?The-Hydra Learning Service ?](#))--===-- [\[Who is New to Python and Needs Help\]](#)

Hydra_ - January 27, 2012, 3:50 pm

Hey Python Coders

I Hope your day/night is the coolest ever ? ?

Aaah well, I finished my exams as u know if you read my last [thread](#)... if you didn't ... here you know ?, so ... during my exams i was checking the python forum from time to time ... and I noticed there are some new guys came here ... so first, i wanna say Hello and Welcome with you here ... and i wanna offer you guys a service, if you Have a Question.

Have a Script you wanna check.

Wanna Teacher, Mentor or Guru

I'm here and glad to hear from you ? ?.

rain5545 - January 27, 2012, 5:22 pm

hey i am new where do i sign up for a mentor

Insidious - January 27, 2012, 5:24 pm

Glad to know other members are more than willing to help out each other in this section of the forum. I too had a thread like this earlier last year but it wasn't very successful. Hopefully you are more successful than I was. Good luck!

Professional Hacker - January 27, 2012, 8:27 pm

I'd also want to sign up too.

How do I do so now?

Nath - January 27, 2012, 8:29 pm

I have a quick question. Is there a particular site or tutorial you would recommend?

Prominent - January 28, 2012, 2:15 am

Glad to see you are helping out new coming programmers! I recommend him for a mentor eh ;o

claim - January 28, 2012, 6:28 am

I entirely agree with you there! You can learn a lot from The-Hydra!

cheers

Thanx a lot guys for your recommendation .. I really appreciate it ? ?

JrMn - January 28, 2012, 9:36 am

Could you explain me this code? I know it is for Bubblesort, but it looks quite confusing, using lambdas, etc.

```
Code class Bubble: bubbleSort = lambda self,l,t: list(list(((lambda a,b:None,l.insert)[t=='d'],[lambda a,b:None,l.insert][t=='a'])(l[n]>l[n+1]))(n+2,l[n]),[(lambda a:None,l.pop)[t=='d'],[lambda a:None,l.pop][t=='a'])(l[n]>l[n+1]))(n))for n in range(len(l)-1))for i in range(len(l)))
```

Hydra_ - January 28, 2012, 9:52 am

```

Who the f**k coded this and where did u find it ?

-?Divine- - January 28, 2012, 9:57 am

If you are looking for a student or someone to share your knowledge with, shoot me a PM.

Hydra_ - January 28, 2012, 10:00 am

(Jan 28, 2012 10:57 AM)-Divine- Wrote: [\[CITE\]](#) If you are looking for a student or someone to share your knowledge with, shoot me a PM.

Are you talking to me or the Guys in HF ? ?

v0id_v0mit - January 28, 2012, 10:10 am

check the previous couple of lines before 'Wanna Teacher, Mentor or Guru ', i said ... If you
? ?

-?Divine- - January 28, 2012, 10:36 am

Ok then here's a question:

I finished reading 3 ebooks, and i looked up some other, but since they had absolute same content, i chose not to read them. I coded some programs, and i have a few projects but the main problem is how to advance so that i don't have to google every problem. All these books have necessary information, but from where should i learn advanced programming? For example, i needed to capture a keystroke (Press 'ESC' to exit). I had no idea that i needed to import msvcrt and use getch to do so. Books i read never came close to that problem.

Hydra_ - January 28, 2012, 11:01 am

So what's your problem ... you need some advanced book ?

ThatHacker - January 28, 2012, 6:58 pm

If the mentor is free sure, i would love one im learning via

<http://www.youtube.com/user/thenewboston> atm but if you can help me through skype that would be awesome thanks =).

Needlz - January 29, 2012, 1:09 pm

Hi, I am making a script that goes to a certain website and clicks the link but uses a proxy list which the user defines.

The list will be in IP:PORT

I have written most the script but I am not sure on how to use each proxy in the list. I am guessing that I might need to use threads but I am not sure on that either. If you could point me in a good direction then please do.

I have done some googling but not been able to find much. Also looked at a few scripts but did not have what I was looking for.

total_n00b - January 29, 2012, 6:19 pm

I have done some googling but not been able to find much. Also looked at a few scripts but did not have what I was looking for.

Code for x in proxy[x]:

#insert code to be run via each proxy

#the proxy will be the variable x

was this what you were looking for?

i dabble in python a bit ?

WhaleSlapper - January 29, 2012, 6:55 pm

I myself have been looking for a mentor for some time now and would appreciate anything you have to offer. I am nearly a complete beginner so if you could inform me on which way you'd prefer me to contact you we could figure something out

aBlackHippy - January 29, 2012, 9:19 pm

Nice this is great. thanks for your service.

aBlackHippy

ki113d - January 30, 2012, 9:10 am

Get its name from sys.argv

Code import sys

print sys.argv[0]

DarksydeZach - January 30, 2012, 8:27 pm

Hi Hydra if your willing to take on a student it would be greatly appreciated, just send me a PM and we'll figure out a easier was to communicate.

ZeroNet - January 31, 2012, 10:19 pm

Hey I need help making a python script into a exe. I have tried py2exe but I can't get it to work :(

total_n00b - February 3, 2012, 5:13 am

(Jan 31, 2012 11:19 PM)Demon #7 Wrote: [\[CITE\]](#) Hey I need help making a python script into a exe. I have tried py2exe but I can't get it to work :(

look up cx freeze

it also turns python scripts to exes

Prominent - February 3, 2012, 8:54 am

@The-Hydra: I'm looking forward to make an IP blocker, as long as the script is running the IP is blocked and can not connect to me, what module should i study for that?

Hydra_ - February 4, 2012, 10:44 am

Thank you all guys for comments ... Stay tuned for the first Episode

SuiCiDeSiNiSTeR - February 5, 2012, 4:37 pm

definitely interested in this...thank you in advance for the oppertunity :D

Linux. - February 5, 2012, 8:18 pm

I would like one ha i am also learning via www.TheNewBoston.com Also.

Dik_In_D_Ai - February 11, 2012, 12:07 pm

Hey hydra i;m new thanks for your service and welcoming us neginners. i'm interested in learning new python im working on it and going through tutorials . I'm really just looking for a starting point and someone to help me....

Please PM me or i can PM you either way your the best....

Dik_In_D_Ai

Powderspaceship - February 13, 2012, 8:30 pm

Hey, could someone PM me to show me how THC-Hydra works? I've downloaded it, and idk how to get it running.

ven0m - February 15, 2012, 9:35 am

I am new too.

And I am in need of a good mentor.

Can you guide/teach me.

Thanks a lot.

~ven0m

Sorry, but I don't understand what u mean! ?

gravity5lave - October 21, 2012, 2:48 am

hi,
can you tell me how to install python 3.3 on ubuntu please?

Trying this method but stuck on editing the bashrc file maybe there is a better option

<http://www.howopensource.com/2011/05/how-to-install-and-manage-different-versions-of-python-in-linux/>

thanks in advance.

Well buddy, unfortunately I am not familiar with using python in Linux.

raj2lovely - October 21, 2012, 5:49 am

Have a look at here:
<https://hackforums.net/showthread.php?tid=2959629>

Try to solve it if you can. Thanks.

gravity5lave - October 21, 2012, 6:43 am

thankyou for replies

whose the guy who created a python thread with a python starter kit in it?
I downloaded the kit now lost the thread :\ and he credited hydra as his inspiration?
would just like to add you both in my buddy list if its ok :)
