Thread: [\[FREE\]Giving away a Minecraft account\[FREE\]](#)

Paran0ia - January 28, 2012, 11:00 am

So I'm not into Minecraft as much as I use to be and I have a clean reputation MCBans account to give away. I want to give it to someone who will use it and not just some Low Quality user who wants to change the password and stuff.

Requirements:

1. Over 100 posts
2. No bad reputation (I can understand if it was giving falsely).
3. Will put it to good use.

The password cannot be changed as it is an account that is not cracked, but will be recovered.

Just post here then PM me and I will see if your worthy.

Not really going to get much attention/thanks for giving away 2 accounts that you can't change the pw too. People give away 100's of these daily. Just saying, i know your trying to be nice.
