Thread: [\[FREE RAT SET UP AND SUPPORT\] I will port forward, set up RAT. \[DarkComet\]\[Cybergate\]](#)

Cesc Fabregas - February 7, 2012, 6:17 am

Hello

I will help you in the following.

- I will set your RAT up.
- I will help you port forward.
- I will tell you some basic tips to spread your server.

I only help in setting up DarkComet or CyberGate RAT.

Just fill the form below and I will PM you asking for your team viewer when ever I am free.

Two requirements are:

- You must have team viewer installed.
- You must have patience.

PLEASE FILL THE FORM BELOW OR I WONT BE ABLE TO HELP YOU OUT.

Operating System:

RAT you want to use[Cybergate/DarkComet]:

Have you installed teamviewer(if no please install it.):

berriba - February 7, 2012, 6:20 am

Operating System: windows 7 64bit

RAT you want to use[Cybergate/DarkComet]: cybergate

Have you installed teamviewer(if no please install it.): yes

Hesco - February 7, 2012, 6:21 am

Operating System:Windows7

RAT you want to use[Cybergate]:

Have you installed teamviewer(yes):

Maundz - February 7, 2012, 6:26 am

System windows 7 32bit

Yes

yes

G

c00ldodo - February 7, 2012, 8:03 am

i wonder if i could have couple of slaves :D ?

cheers

Tweekzify - February 7, 2012, 8:06 am

Hey can you help me? I have been had problem for a loong time, with portforwarding, thanks! :)

Operating System: Windows xp
