Thread: [\[3/5\] Imager 8Bit BMP File Parsing Buffer Overflow Vulnerability](#)

Omniscient - May 2, 2007, 12:12 am

A vulnerability has been reported in Imager, which potentially can be exploited by malicious people to compromise an application using the library.

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.

Why the fuck those posts got b-u-m-p-e-d. ?

YeOldBlueBird - March 26, 2012, 8:10 pm

this is a great post omni, you can attach a payload in it, and cause some serious damage. Thank you for your contribution to the forum. <3
