Haha i'm not going to lie, you made your program pretty nice considering all you have to do:

Spoiler ([Click to View](#))

download the string of haspaid.jsp and see if it returns true.

Anyway, thumbs up, good job with the multithread and extra little features

That's the bare minimum it needs to be properly threaded in order for it to be of a decent standard.

2 / 11 replies - download ratio ;D :L

Very interesting, Vault. Good job :)

Insano7 - February 12, 2012, 6:09 am

That looks very nice, i could definitely use this.

Bad_P1zza - February 12, 2012, 6:34 am

Good job, seems like you put a some time into this

xNeaples - February 12, 2012, 6:39 am

Great job, thank you. I'm not interested in minecraft for this project, but for threading examples. :)

Yeah I don't care too much for Minecraft either the threading is all I learned from this.

fillobotto - February 12, 2012, 11:54 pm

could you tell me what you think about my last project?
