Good day HF!

We have decided to open our new and UNIQUE GFX shop!

*We are offering HQ Customizable Thread Layouts. By purchasing one thread layout, you'll be able to customize that thread layout as you wish with just a few clicks!

This means that by purchasing one thread layout, you'll be able to make different layouts for the price of one!

*Not only that! With each thread layout you purchase, you'll get a free customizable signature!

*Also, for newbies in Photoshop, we have Video Tutorials (voice included) for each thread layout, so that you can edit your layout without having troubles of messing it!

Price

Thread Layouts

Our prices are strategically based on the market trend. We don't want to sell our products with a very low or very high value, so we're going to offer it at \$8! It's a pretty low price for a customizable thread layout with bonus signatures.

-More coming soon-

Review/Vouch

Vouching for Knight Tnz, luckily I was able to finally download his vouch copy. (Due to an error on my part)
The download was clean, quick and from a trusted location.

Upon opening the PSD I immediatly noticed the professionalism in the organisation of the document, something not many designers actually pay attention to but also something that could be extremely useful to people new to photoshop.

You will not need a strong knowledge of Photoshop to enjoy/edit these documents, they're layered, named and folderd for ease of use.

The designs are clean and high quality and deffinatly worth the price that Knight Tnz is asking. If you have a product that needs selling then an attractive thread design is where you need to start, advertising is key and these designs will surely do the job.

Extra - Something nice on the side is the fact Knight Tnz is offering free sigs and video instructions for those new to PS.

Knight Tnz very professional in the way he presents and publishes his work. I give this service 8.5/10

(Added Note: I am rating the service, not the user as I do not know Knight Tnz. Always remember to be safe when exchanging money)
Enjoy!

From that thread layout in the OP I'm seeing you both have much to learn, it's very plain and has a novice look to it.

Good luck with sales regardless, but make sure you both keep learning.

Haha, you made me laugh! :D

However, this thread layout if free now.

Even tho there are over 50 folders(around 5 layer in each), +video tutorials how to change every little detail... it's free...
