What's the point of posting virusscans? Cracking tools are always infected. Just download it from a secure source instead.

Can you provide an virus scan please

Approach - February 13, 2012, 11:15 am

Download it from the publisher and avoid getting infected.

Yeah but some include some stealer or rat them... anyway

odeioasaulas - February 13, 2012, 11:33 am

Yeah, it can be a scam... But not me, i promisse, but if you dont want to download, for me, fine...
Whatever

Gr33nDemon - February 13, 2012, 12:44 pm

1st Brutus is old like hell, the second you can take it from off site, I don't see the reason for this thread :P
