Thread: [Booters / Stressers Sub Section in Market.](#)

Virus1x - February 14, 2012, 2:11 am

I don't mean to be a stick in the mud however when booters started people said this would become a problem, I scoffed then but as I've become more intertwined with HackForums, I've begun to see what the community hates about then Literally as I post this on the first 3 Pages of Premium Section there are 18 thread of BOOTERS / STRESSERS / FLOODERS.

This is absurd it seems like every other link is a booter/stresser/flooder, I think this topic should be banned from HF on general grounds of being a SKID tool however, I understand that requesting that is almost as outlandish as saying not ban crypters ect ect, so I have a subtle but more simple request that should CLEAN up the Premium section allowing other things to appear.

Create a Sub Section for Booters/Stressers/Network Testers/Flooders whatever they wanna call them.

Honestly I'm sure a majority of the community will agree we don't wanna sift through 3-5 pages of BOOTERS to view the premium sections it's gotten WAY outta hand now

SIM-888979 - February 14, 2012, 2:12 am

No need for this. You don't see a crypter sub section do you?

Virus1x - February 14, 2012, 2:18 am

So Zombot this doesn't bother you?

Spoiler ([Click to View](#))

Underlined in red is BOOTERS thats only 3 pages on PREMIUM

SIM-888979 - February 14, 2012, 2:19 am

As long as Mathiaz and my thread are always on the first page, I'm cool with it.

So, You only object to it because it's your product? That's horse shit. I'd vote the same way if CRYPTERS took over premium section, and I'm staff on two of them.

However there are FEWER Crypters then fucking booters, booters require 0 skill to setup and run, Crypters require coders which means less of them, I'm tired of having to sift through 4-9 pages of BOOTERS

it's Insanely stupid

Kaikz - February 14, 2012, 2:25 am

Agreed. It's not easy attempting to sell something when your thread get pushed back a few pages within minutes.

PandaHaxor - February 14, 2012, 2:27 am

I being one of those booter owners would also prefer a sub section for it.

If someone is looking for a booter it will be easily accessible and the marketplace sections will be cleansed up a little.

Virus1x - February 14, 2012, 2:28 am

(Feb 14, 2012 03:25 AM)Kaikz Wrote: [\[CITE\]](#) Agreed. It's not easy attempting to sell something when your thread get pushed back a few pages within minutes.

Indeed and Booters owners are fighting over sales like crazy they DDOS one another's sites and vps's and each other with their booters to prevent or steal sales then their Customers spam the thread to move it up on premium so I'm forced to see the same booter name at the top 20-30 times a day..

Booters are TROUBLE however since I can't say GET rid of them since I support crypters have an ACTUAL Security system testing ability.. such as testing SONAR/HIPS/Detection Rate/ECT we know people don't use it for this however it does have a possibility it can be used for this, HOWEVER booters are used as DDOS tools nothing more nothing less no one uses this to test their HOME Network and no one here has a data-center or dedi-line to test it on the thought of it being a stress tester is horse shit no one is gonna STRESS their own net. However again it could and I use that term LOOSELY Could be used for educational purposes but I think booters have become so prevalent now it needs it's own section.

Correction.

This is a stupid suggestion.

Premium Sellers Section

This area is only for upgraded member sales threads.

If a booter section was to be made, I would demand a

Premium Booters Section

c: Is that okay?

Diabolic - February 14, 2012, 2:31 am

I love this suggestion. It's needed as they spam the main market places and It's hard to find what you want.

Lemme get this straight you think because your and upgraded member you deserve a PREMIUM booter section rather than sharing one section called Booter Section like the kids at GamerTag's does instead you wanna be that pain in the ass who's like OMG MY \$35.00 MEANS I DEMAND to BE SPECIAL and end up in a SPECIAL Group like..

E-Books and Premium E-Books,

You sir are looking to instigate a problem and rather than going hey putting a booter section might make it easier for my booter to be found and alleviate spam on premium section with it, I'm gonna say NAH and say a worthless suggestion which is your Opinion and I disagree as do other members thus if you are unhappy with our decision to suggest a section for it make your protest and be done with it don't come across as a Over-Zealous asshole who wants to change someones mind or alter their suggestion to cater to your benefit.

What's the point of being upgraded if there's no benefits?

(Feb 14, 2012 03:41 AM)Zombot Wrote: [\[CITE\]](#) What's the point of being upgraded if there's no benefits?

You have a userbar, Upgraded PM Box, Ability to delete posts. modify posts past 48 hours. You have the PREMIUM Sections that you can post anything in at the moment but if we remove the BOOTERS from it and add a section you still get that section + avatar rights + User title change + Awards + REP system use

need I go on that you have quite a MANY Benefits that come with that upgrade beyond a section, your a greedy child who wants more then he deserves and demands his way because he thinks that he's entitled to it, your \$30-40.00 doesn't mean shit to omni just like my \$100.00 over the last year means nothing. I don't DEMAND that I be treated differently or that I get MORE or special rewards for giving 100 to the site you think that because you gave \$30.00 you deserve what you want and that is not so, I as an upgraded user have the RIGHT to not have to see your fucking booter thread on the top of Premium section everytime i go in there and not be ed to the top constantly with spam post and or HEY I'm the better BOOTER!

I am done arguing with you at this point this conversation has degraded beyond a simple exchange of different point of views into a low quality argument that skews this topic and has steered it off course thus, I am done arguing my point with you, My belief is my own and my suggestion is mine, if you disagree, disagree however it's apparent by the other posts here some people share my views even your competitors.

I gave money to use the Premium Section. :| I don't see how that is asking for more shit.

This is my final response as It will skew the topic off-topic again,

You can't use it for anything other then booters? The easiest and most insanely 0 SKILL required to set up tool on hackforums? then sir you wasted.. the \$15.00 for I33t

and \$20.00 for ub3r for NOTHING. because if all you have to sell is a booter you have 18 competitors on the first 3 pages alone.

also, You upgraded to ub3r of your OWN free will not for use of premium which you had access to as I33t this conversational exchange of idioms is over.

Takes no skills to set it up. But shells, that's a different story. We have to exploit them, or shell sites. That requires skills and knowledge buddy.

+Reckless - February 14, 2012, 3:06 am

A simple way to solve this would possibly be to have a booters section that, like the gamertag section, can only be posted in by upgraded members. Thoughts?

Pineapple - February 14, 2012, 3:13 am

Been suggested for multiple marketplace items multiple times and denied every time.

Virus1x - February 14, 2012, 9:49 am

However this one is actually could use it's own section like gamertags because it's grown to that size unlike say youtube section

UNH - Legendzz™ - February 14, 2012, 12:38 pm

I agree booter/stresser section would be a great idea since they are many booters/stressers on HF at at the minute

This was needed awhile back, when there were 900+ threads a day about them. When Carbon's and Prodigy's sources both got linked, the marketplace boomed.

Not so much needed now, well for puttys I guess it would work.

There are a lot of those threads now.

Superb - February 14, 2012, 5:20 pm

I have suggested this also a while back. It died out, I hope this would get passed. At the same time though, people will want Crypting section, YouTube section etc.

Virus1x - February 14, 2012, 5:53 pm

Crypting is services and so is YouTube.

YouTube bots and Crypters take up 6-10 combined per 3 pages

mfjc - February 14, 2012, 5:59 pm

This has been suggested many times and always turned down.

If you have nothing more constructive to post then something that's been said 3x don't post we don't care about you getting the same post in or you getting your post count up we don't give a shit

Existence - February 14, 2012, 8:36 pm

This would be like creating a sub forum for crypters, RATs, host booters, http bots, and every other product.

If someone wants to find a booter, they use the search button.

Simple as that.

Love this idea too. Maybe the whole entire market should be cleaned up like this. Have a subsection for booters, crypters, RATs, and whatever else is sold. This would make everything so much easier.

I thank-you for your support but no everything doesn't need a sub section there are only like 5 crypters actively there and 6 rats 2 ddosers
