Thread: [For all the people that think Extoz hacked a anonymous hackers website.](#)

kamz89 - February 16, 2012, 8:50 pm

The truth about the hack in [\[DEFACED\] Anonyops.com](#) is that EXTOZ did not actually hack the anonyops.com website.

A hackers group called Matrix helped him.

Proof: <http://pastebin.com/SEng2ruJ>

Now I'm pretty sure that explains it all and another thing anonyops.com is not the official anonymous hackers operations website. The official one is anonyops.org

Proof: <https://twitter.com/#!/YourAnonNews>

So stop giving Extoz credits and calling him the best hacker on HF.

/discuss.

Hycca - February 16, 2012, 8:54 pm

Well, TinCode [From HF] has hacked NASA and some other heavy crap. Anonyops was easy as ** to hack, so I am not saying I am even good hacker.

If you would read some newses you would realize the so called "MatrixHackingTeam" or whatever it was is a TROLLING CHARLIE SMITH.

OK but then anonyops.com is not the official website so stop bragging about hacking and defacing most-wanted hackers website.

Hycca - February 16, 2012, 8:57 pm

Would you relax? I've said NUMEROUS TIMES that it is not their official site. But it is a site that is ASSOCIATED with anonymous. Read the whole topic before writing such things :/

Where did I brag about "hacking and defacing most-wanted hackers webiste"? The only thing I've bragged about was that I've defaced anonyops.com.

EDIT THE OP.

Anonymous hackers is a "idea" and are the most wanted cyber criminals for the feds but messiahs for public.

If you edit the OP and tell everyone that you did not hack it all by yourself and it is not the official website then I would stop.

By the way

Let me tell you something - they CANNOT dox me for many reasons which I won't mention. They cannot DDoS me because they have no idea what my real ip is. Basically, they can't do a shit and they're just trashtalking and I am supposed to be scared. ?

They sure do have your personal data.

Are you a retard or are you blind?

First you ask me where did I say I defaced it, so I show you where you indirectly said that you defaced the website.

And once again edit the OP and tell everyone that you didn't hack it alone and it was not the official anon ops website.

Hycca - February 16, 2012, 9:11 pm

I will edit it and say it is not official anon ops, but I will not say that I didn't hack it alone. I've said numerous times and I'm going to say it once again, I did it alone.

No harm was done to the site

There's no "war"

you've found an upload script - wow

You did this AFTER me because after your SQLi thread was posted I've started to search for exploits on the website, and I've actually found those 2 you've mentioned in your thread. You are not worth my time, definitely and I wouldn't be surprised if the whole Team Matrix thingy would've been made by YOU.

Besides, any retard would've would those upload scripts, so I don't see why you're claiming that you've found the "sploit". You've just found a poorly coded upload script, and I did it before you posted your thread.

I know exactly what happened here, I was one of the people PMing Exotz when thesun released the vulnerability.

Right after thesun made that thread, I watched that directory for shells to pop up, and at the same time I tried to get mine uploaded.

Later that day, Exotz told me he has a shell on the server, so I asked him how he did it, and he wouldn't tell me. I knew it was that 404 shell (That's backdoored lawl), I bet the idiot didn't even change the password. I was going to try it, but since Exotz convinced me it was HIS shell on there, I didn't try it. That's how he got in. As for "Team Matrix", idk if they exist or not but if they do, they lended no hand in helping Exotz at all.

TLDL - Exotz knew the password for the shell that someone else uploaded, using someone elses released vulnerability (thesun).

Much love, SUN.Um. No.

No one paid for that deface, and there's literally no respect being lost here (Seriosuly? makes you look stupid? Since when defaces makes you look cooler?). The concept of this thread seems more similar to a bunch of girls whining on facebook about how X dumped Y and there goes the rage or

something. Although it's the OP who, dare I say, looks stupid. Pointing something totally unproveable (X says Y, Z disagree, blah blah blah) which is how the deface came to there (Or other stuff, too lazy to check) and then fighting about it. Should not interest anyone's package, and a rather useless action to do on a hacking forum.

With due respect, A Wizard.

Everyone in this thread is butthurt.

btw the way i see it, Extoz defaced a site, (using some one else's exploit)

BUT that does not mean he has to give credit to the exploit founder.

Like, if you use SQLi, Do you need to give credit to the one that found out about sqli? NO

I'm sorry but, "Why would I care if they even do have my personal data?"

Many reasons. They can fuck your life up.

Anonymous isn't even a group of 'super hackers' either. Anonymous mostly just protests with LOIC/HOIC/WBC/SlowLoris and others. sometimes they'll get emails, or credit cards depending on how easily they can be fucked with. So what exactly did you accomplish, and how did you benefit?

The administrator of anonyops.com doesn't even care, and I'm sure a small portion of Anonymous is just doing it cuz you're annoying. You defaced a news website. I think Phishers are better than that.

You can't kill an idea, as you already may know Exotz.

Cubuss - February 17, 2012, 3:50 pm

Exotz Gtfo pl0x?

Why the heck would you try to hack their website their doing good stuff for our people..

They are fighting for internet freedom and you don't support them????
Besides NWO will come also and I think this acta/sopa is just the beginning.

DDoSing websites for 5 hours is not helping any cause but letting officials pretend this was millions in damages and that hackers are this amazing threat because upon entry to a site its business is crippled. He also was extremely humble about the whole thing I don't understand why there is such a fuss over this? Not to mention he said it wasn't even an official site of theirs, and defacing their site for a day is not some amazing blow to anonymous even if it were so I'd just relax. Its a fucking website.

Right after thesun made that thread, I watched that directory for shells to pop up, and at the same time I tried to get mine uploaded.

Later that day, Exotz told me he has a shell on the server, so I asked him how he did it, and he wouldn't tell me. I knew it was that 404 shell (That's backdoored lawl), I bet the idiot didn't even change the password. I was going to try it, but since Exotz convinced me it was HIS shell on there, I didn't try it. That's how he got in. As for "Team Matrix", idk if they exist or not but if they do, they lended no hand in helping Exotz at all.

TLDL - Exotz knew the password for the shell that someone else uploaded, using someone elses released vulnerability (thesun).

Thanks for elaborating everything. This was helpful and did prove me wrong but it felt good to be on the right track. Now since everyone agrees that Exotz did use thesuns exploit, extoz should now stop bragging about since it did not actually hack it because he already knew the password.

I did not use thesun's exploit. I've used someone's shell (thesun's???) uploaded shell coz it had default password. I am sorry if that "hurt" you in anyway. Thought, as you might have already noticed I am not bragging and never really have been. I've defaced the website and that's a fact, I've done it with someone's shell that's another one. Look at it from another side thought, who would upload a public shell with default password ?

What I've done was a bad thing (I've "stole" someone's shell) and I can assure you that is not going to happen in future. I'm truly sorry

If thesun is going to confirm that he has uploaded that WSO 2.1 404 shell, all credits should go to him instead

Now that's more like it. I will let it go now but last time I checked you didn't want to post on my thread anymore so why did you post now? ?

Hycca - February 17, 2012, 8:54 pm

I didn't want to post because I didn't want to admit the truth. Now when everything's revealed and you didn't take it as badly as I thought, I've posted. Well, that "He got in, outsmarted whoever shelled it first, his win." convinced me to post, honestly.

Aiight and honestly this thread wouldn't have been posted if you gave credits.
