Thread: [I <3 my Car Racing Shirt](#)

eXauST - February 17, 2012, 10:13 am

Hello, I belong to a Facebook group and we are trying to develop a Shirt that Say I <3 My car. This logo will be imprinted on a T-Shirt and will be distributed among the members of the group.

Our group is taking designs and everyone's logo looks complete crap so I thought I would come to HF because I know we have some really good Graphic people.

Basically I need a t-shirt that say I <3 my car. but the <3 has to be a heart. And I was thinking the word car can any one but a turbo instead of a A?

Here's what the generitc shirt looks like.

Here's what a turbo looks like.

Basically just take you're own idea and create a monster looking pic. I really do not have anything to offer but it it can not be done, I will understand.

Thanks,
eXauST

Lol no. I will put the logo on the shirt directly. I just need the logo created. and not the same stuff. I want some one to come up with there own design of it. You have the I love my car. Just make it like a different text and stuff and add your own style.
