Nice job doing like a million pictures haha, you also really need to work on your cable management. I got that same Mobo btw, love it. Nice choice.

Programmargorp - February 17, 2012, 4:52 pm

Cable management goes a long way, despite not having a modular PSU, i still managed to tuck 80% of the cables out of the way.

E36 - February 17, 2012, 4:53 pm

Nice share, im ordering my build at the end of the month.

Gørilla - February 17, 2012, 5:03 pm

yea i agree guys i was working on the cable management just a bit, i need to prevent crosstalk and stuff i was just trying to get these pics up asap for some feedback:D
anyone else think it looks good? just wondering:) hehehehehehehehe

Gørilla - February 23, 2012, 8:32 pm

you guys like it? seeing if this will the thread btw hahaha

Gørilla - March 22, 2012, 6:19 pm

just making a new reply so people can see my work:D

iiRISH - April 13, 2012, 5:52 pm

Um - where's the pictures? I'd love to see them, custom built pc myself.

Why must people dig up old threads...

xZ3lLx - April 13, 2012, 7:47 pm

pro stock cooler careful not to have more then 2 tabs open

Gørilla - April 14, 2012, 7:25 am

haha ye bro i need to get me a couple new fans, runnin low on the cash flow.
