It's actually quite basic and easy to make. It just looks amazing due to the modern web 2.0 styled look.

Looks pretty cool, but really simplistic too.

Good job anyway, but doesn't worth the shitcash link...

Djehuty - February 22, 2012, 2:45 pm

Not worth the shitcash link -.-

But good for your first try, people like things that they haven't saw before. Use an original idea.
