Thread: [New forum added for Suggestions and Ideas](#)

Omniscient - January 4, 2010, 9:20 pm

I am so tired of all the shitty ideas. I am hoping creating a subforums will at least keep them organized and maybe we can make a big sticky with the many rejected ideas.

#DataBase - January 4, 2010, 9:21 pm

First. <3

Great job Omni.

Nima304 - January 4, 2010, 9:21 pm

I suggested this a few weeks ago and it got locked.

You know that shit, at least the shits are organized. Nice!

That will sure help remove the clutter from this section. And if we got a sticky, members won't have excuses for suggesting the same things over and over.

Kewlhotrod - January 4, 2010, 9:38 pm

If you want me to construct a giant-ass sticky thread, Omni, let me know.

~Jake - January 4, 2010, 9:59 pm

Sounds good, thanks.

AsSaSs@iN - January 4, 2010, 10:35 pm

A much needed section ?

fagalite - January 4, 2010, 10:35 pm

sweet, this makes my psuedo-job as the ranf guy easier.

The Rated R Superstar - January 4, 2010, 11:00 pm

Now that's a great idea. I'm surprised I didn't think to suggest it, pun intended lol.

Riverthief - January 5, 2010, 12:08 am

Awesome idea tbh. Maybe the reposts will stop(Providing people read the subforum >_>).

Omniscient - January 5, 2010, 12:16 am

I'll be responding to the suggestion threads a lot less now. I read and respond to everything in the

Feedback section so all those suggestion were just getting annoying. I might eventually add a ticket support system to the site to really organize problems better.

i'll answer tickets, as you know im one of the most active members in the ranf, mainly because its my goal to obetter HF, and i can do that by informing the noobs.

I don't like being represented by someone with bad grammar.

i normally have good grammar. its just im a wee bit tipsy atm.

ie: my shift key doesnt work, not sure why.

Let me test it thoroughly.

HeY mayBe it works now.

EDIT: nvm.

N3w_2_H@Ck1n™ - January 5, 2010, 12:36 am

Lol. Maybe Staff can handle tickets?

Thanks, but on to business. As i was explaining to N2H over msn, i handle alot of the threads made on this section.

As far as a ticket system goes, great. But a simpler idea would be to have it be like a report system:

User 1 asks a question

user 2 answers and reports thread as "answered"

mod 1 checks thread, confirms locks

if not a correct answer, post is deleted and a new answer is posted.

That would work better Imo.

Johnny Walker Red label by the way.

I kinda feel bad for my dad though. ?

Kewlhotrod - January 5, 2010, 5:57 am

Yeah, Omni. Do you want me to throw together a giant thread together stating past suggestions/improvements that have been denied and/or accepted?

Just wanna know so I can get started on it if you say yes.

Yes but I never REALLY read your posts.

Uncle Joe - January 7, 2010, 4:07 pm

It was needed, maybe this should clean up everything, because at the moment people are posting threads that belong in the lounge.

Hopefully it will be more organized.

Order is perfect.
