Thread: [\[Help\] How to bypass the Turbosquid payment](#)

macowa - February 27, 2012, 2:12 pm

Somone here know how to bypass the paypment of turbosquid.com ?

I really need it. Here is the model 3d :

<http://www.turbosquid.com/3d-models/3d-downtown-building-interior-model/583340>

? Help me please.

I'm realy sorry no TURBO SQUID Hack.

I think you must stop the SSL certificate and find any fake (credit card info)

thx.xD

Useless gravedigging.

This had to be in the "Hack Request" Section.

as im readying this this looks like a massive multi-accounter

[illegible]

sure why not bring back to alive dead topic without any answer from 2012

so em... yes

6 years without any answer xD

There is alot of russian 3d models on there I need/want tbh I seen there is a file called 'Russian Arrows' With 1 leaked/cracked russian missile pack thats almost found everywhere

Did you really just necro a thread from 2012? I mean, props to you for even finding it and there's some screenies of the old HF look from back in the day which was a throwback. But dude, Read threads before posting. It's highly unlikely any of the members who posted are still active and you would probably get better help by posting your own thread ?
