Thread: [\[error\] no-ip error in DarkComet \[error\]](#)

PoLoW - February 27, 2012, 4:07 pm

Hello HF's

I have a Little problem Installing Darkcomet , i made a little search on the forum and came up to this thread

Spoiler [\(Click to View\)https://hackforums.net/showthread.php?tid=432547](#)

I have the same problem as "MyStErIoUs-87"

unfortunately the solution is not on the thread , any help will be appreciated .

Try using the official No-IP DUC instead of the DarkComet updater.

I personally use DC5 and i use the no-ip duc and it works fine. I dont use the DC auto updater.

PoLoW - February 27, 2012, 4:19 pm

Bumping this thread , i need help asap .

Can you tell me what is no-ip duc , is it the client you use to logging to no-ip ?

A little noob here lol

Thanks bro i can do the rest it's not hard lol

I can't find DC 5 i found DC v4.2 and i'm downloading it right now .

DC V.5 is still very unstable, i would recommend you to use DC V.4.2 until they make an update for V.5
