Thread: [\[Release\] Source to My Packet Sniffer](#)

SomeWhiteGuy - March 3, 2012, 8:53 am

This is the source to my packet sniffer, it uses a wrapper for the WinPCap libraries.

Pic:

Here is the download: POST & PM

Spoiler [\(Click to View\)](#)

I'm serious.

[Just KIDDING! :P](#)

Edit as you would like but don't literally just change the title and say it's yours. Rlly?

Thanks & have fun LRNING! :D

DragQueen - March 3, 2012, 10:05 am

check it nice share dude.

Thanks. Hope you find some use for it. :D

Perplexity - March 3, 2012, 11:44 am

This uses SharpPCap, it's really not hard xD

Wow dude, good release. Shame we're gonna get a new wave of l33t packet hackers now ;)

Nice one dude,

Surpintine - March 3, 2012, 5:56 pm

That's cool, it sniffs HTTP headers.

Deceptive - March 3, 2012, 6:15 pm

This source...it hurts my eyes.. my..eyes..

KOCMOHABT - August 31, 2012, 10:12 am

I love this share, have started working on making the filtering work, really cool, thanks for sharing :)
