Thread: [xss quot bypass](#)

**protocol** - March 3, 2012, 10:12 pm

Hello everyone,  
I need some help in bypassing "  
I have a payload  
" onmouseover="alert(0);  
in this " is getting filtered.  
I tried %22, 22, string.fromCharCode method etc. but nothing worked.  
Any help will be really appreciated.

**games-lol-owned** - March 3, 2012, 10:31 pm

maybe `</script><script>alert(1)</script>`  
or `</script><script>alert(/lol/)</script>`

hope this helps

There is no reason to close and open a script when you are already in one.

**| Solo |** - March 3, 2012, 11:58 pm

try

`<BODY onload!#$%&()*~+-_.,:;?@[/\]^`=alert('XSS')>`

sorry guys i had been up 50 hours when i posted on this and was replying to 2 ppl about the same sorta thing haha i never ment to post that here lol i had something but cant find it now grrrr haha

sorry for the confusing peeps

what about something like onmouseover='alert(document.cookie)'

using '

not sure but could you not / it i.e.: / onmouseover=/alert(document.cookie)/>
