Thread: [What is the best program to use to steal rs accounts?](#)

Mr.Face - March 4, 2012, 9:17 am

I would like to know if anyone knows any good programs (preferably free) to use to steal runescape accounts.

Maybe you can become friends with the victum and send him a JavaDriveBy with your Virus

A keylogger or rat is probably the best way.

Is this just as easy as ratting? bc ratting is super easy.

I know Phishing is prohibited, but back in the day, I could bring in 10 accounts weekly with a good phisher I created.

I would suggest spiking a Rs bot with a account "remember" and it would just send the remembered account to a email you have provided.

I suggest youtube as a source of information for any of those topics I have stated.
