Thread: [Previously Suggested Ideas](#)

Kewlhotrod - January 9, 2010, 7:22 pm

This is a compilation of many of the major suggestions that have been suggested in the past. To find a suggestion in this thread press CTRL+F and search for a keyword. For instance, if you have a suggestion for "Viewing Your Posts" search "Posts". This will be in no particular order. If there is a mistake, please post here stating which. If you have any suggestions or other happenings/suggestions that you feel I should add, please post or PM me.

Common Questions/Complaints:

I haven't received my HF 1337 yet!

Spoiler ([Click to View](#)) HF 1337 is now activated manually by Omni. It is no longer instant. If you have paid for your 1337 and have not received it within 48 hours, send [Omniscient](#) a PM with the transaction ID. Do NOT make a thread.

When paying for 1337, try to make sure you put your HF user-name on the purchase page.

Where do I get HF Ub3r At? Why have I not received it yet?

Spoiler ([Click to View](#)) Currently to purchase Ub3r you have to be accepted by [Omniscient](#) directly. Send him a PM requesting Ub3r and he will get back to you in time if you are accepted or not.

If you are accepted:

You will be given a link to purchase Ub3r just like you would HF 1337. Make sure to include your name on the purchase page. If you do not receive Ub3r within 48 hours, follow the guide listed above.

If you are NOT accepted:

You must wait until Ub3r is publicly purchasable. Until then you must settle with HF 1337.

Hackforums Was Down!

Spoiler ([Click to View](#)) Yes. We all know this. Hackforums will go down quite a lot. We are experiencing a lot of MySQL issues, and Omni is hard at work trying to find the root of the problem.

We do not need a thread stating that HF was down. If it was down for any important reason, Omni will make a thread about it.

Quotes and Bracketed Names

Spoiler ([Click to View](#)) This is a common MyBB glitch. If somebody has brackets in their names and they are quoted, the quotation brackets are messed up. This was said to be fixed in the next MyBB release.

[Closing Comment](#)

New Forum Suggestions

Spoiler ([Click to View](#)) If you want to suggest a new forum/subforum to be created for it, do a search

for the main keyword and make sure there are at least 100 or more threads for your forum. If so, copy the search link and make a thread in the [Suggestions and Ideas](#) forum. Paste the link in your thread and await a decision.

Past Suggestions:

View Your Posts

Spoiler [\(Click to View\)](#) This suggestion is regarding a simple link up-top to quickly and easily view all of your posts next to the

View New Posts | View Today's Posts | View Your Threads | Private Messages
links at the top.

This suggestion has been:

DENIED

Reason:

There is already a way to view new posts. Simply click on "UserCP" at the top left, and on that page click your "Post Count" number.

Mobile Browsing Theme

Spoiler [\(Click to View\)](#) This suggests that a mobile browser theme be added to allow those surfing HF on cell-phones easier access to the site.

This suggestion has been:

ACCEPTED

Reason:

<https://hackforums.net/iphone/>

There is also a "lite" version that you can activate by scrolling ALL the way down to the bottom and hitting "Lite (Archive) Mode".

Notification When Quoted

Spoiler [\(Click to View\)](#) This simply suggests that a user be notified via PM, email, or any method of contact when a post of theirs is quoted.

This suggestion has been:

DENIED

Reason:

It's simply resource intensive.

[Closing Comment](#)

See Your Posts That Have Been Reported

Spoiler [\(Click to View\)](#) This suggestion merely implies that a user be able to see any of your posts that have been reported.

This suggestion is currently pending.

Reason and Related Thread:

<https://hackforums.net/showthread.php?tid=227181&pid=2138538#pid2138538>

New User Pop-Ups

Spoiler ([Click to View](#)) This suggests that all new users are brought to attention a pop-up that tells new users the forum rules, suggestions, and anything important that may be worth reading.

This suggestion has been:

Postponed

Reason:

This has been suggested a few times and no response given. We do not need more threads about it.

Some related threads:

[_Popup for HF 1337](#)
[Popup for new users.](#)

BBCode in Signatures

Spoiler ([Click to View](#)) This has been addressed many times. BBCode characters, (i.e. the [/url] tags), count as characters in the signature. Many suggestions have asked to remove this hindrance.

This suggestion has been:

DENIED

Reason:

There is no reason to clutter a signature with a whole bunch of spam. It's also a MyBB limitation and a pain to code around.

[Closing Comment](#)

Thanks Button Removal/Usage

Spoiler ([Click to View](#)) This suggests that something new be done with the "Thanks" button. ATM it is simply a javascript that pops up and states, "Thanks is always appreciated!". Any suggestions suggesting that it either be removed or given an effect of some sort, (A counter for how many times it is clicked for a member), falls into this category.

This suggestion has been:

DENIED

Reason:

People bitched about not having it in the past, and Omni added it as a means to stop the whining.

Now people complain that it does nothing. There is a reason the reputation system is in place.

[Closing Comment](#)

Click-able Awards

Spoiler ([Click to View](#)) This suggests that awards that a user has links back to the awards page, to that specific award.

This suggestion has been:

DENIED

Reason:

It reduces the amount of resources it takes for a page to load.

[Closing Comment](#)

Any New "Report" Categories

Spoiler ([Click to View](#)) These suggestions are thrown out there to add new categories to the report function.

This suggestion has been:

DENIED

Reason:

All rule breakers will fall into some category already listed. If it doesn't, use the "other" option. If it is an entire thread that needs to be reported; report the original post as "other".

Report PM's

Spoiler ([Click to View](#)) This suggests that there should be a report option to report a private message.

This suggestion has been:

DENIED

Reason:

It is much easier on the server and others to simply forward it to a staff member.

[Closing Comment](#)

Shout Box

Spoiler ([Click to View](#)) This suggests that a shout box be implemented on the forums.

This suggestion has been:

DENIED

Reason:

We have an IRC channel that does this. Omni has stated that he does not like the look or feel of a shoutbox on the forums.

[Closing Comment](#)

Vouch System

Spoiler ([Click to View](#)) This suggests that a forum be created where somebody may post a vouch after a transaction that has taken place in the marketplace.

This suggestion has been:

DENIED

Reason:

We have the rep system in place. We don't need a separate forum.

[Closing Comment](#)

Post Limit To Marketplace

Spoiler ([Click to View](#)) This suggests that there be a certain post limit before you are allowed to make a thread in the Marketplace.

This suggestion has been:

DENIED

Reason and Related Thread:

This gives the members a view of staff involvement. The staff wants you to use your own discretion when dealing with money on this site. They hold no involvement whatsoever.

[Related Thread](#)

Replies to Your Posts

Spoiler ([Click to View](#)) This suggests that there be a button that shows any replies to a thread AFTER your post. An advanced 'subscription', one might say.

This suggestion has been:

DENIED

Reason:

It hogs too many resources and is unneeded in the end.

[Closing Comment](#)

1337/Ub3r Marketplace

Spoiler ([Click to View](#)) This simply suggests that there be a specific marketplace only for 1337 and/or Ub3r.

This suggestion has been:

DENIED

Reason:

This gives the false info that there is safety inside this section, which is not true. Anyone has the

ability to be a scammer. It also gives the impression that staff encourages deals, and they have opted to stay out of Marketplace deals entirely.

[Important Closing Comment](#)

Custom Group Colors/Group Color Preference

Spoiler ([Click to View](#)) These suggestions deal with the color of your user-name once a group is selected. Suggestions to keep a certain group color while having a different group selected, (i.e. having the Purple Ub3r name color while having 'The Alliance' as your display group), and the suggestions to change group colors fall in this category.

These suggestions have been:

DENIED

Reason:

MyBB doesn't allow customization to allow you to have one group as display, yet allow you to keep characteristics of another group;

[Closing Comment](#)

And

The group colors will stay as they are because that is the color they have been given. There is no reason for change.

1337/Ub3r Spoiler

Spoiler ([Click to View](#)) This suggests that there should be a spoiler that only 1337/Ub3r can see.

This suggestion has been:

DENIED

Reason:

MyBB apparently has trouble with hidden links.

[Read More Here.](#)

Post Requirement for Lounge

Spoiler ([Click to View](#)) This suggests that there be a set post requirement to post in the lounge in an attempt to clean up the spam.

This suggestion has been:

DENIED

Reason:

Many popular/high posted vets spam the lounge. This would simply place restriction of speech and creativity whilst solving nothing.

[Closing Comment](#)

Rep Timers

Spoiler ([Click to View](#)) This suggests that there be a timer letting you know when you can give out rep again once the 24 hour limit is reached.

This suggestion has been:

DENIED

Reason:

You really shouldn't be handing out that many rep to begin with. It isn't worth Omni's time to code something so trivial.

[Closing Comment](#)

Lowering the Search Time Limit

Spoiler ([Click to View](#)) This suggests that the current wait time be lowered from 30 seconds to anything lower. This has been suggested to be exclusive to HF 1337 and Ub3r as well.

This suggestion has been:

DENIED

Reason:

It is a huge resource hog. 30 seconds isn't too long to wait and really helps the server load.

[Closing Comment](#)

Auto-Thread Lock

Spoiler ([Click to View](#)) This suggests that over some time inactive and old threads should be locked automatically to prevent necroposting.

This suggestion has been:

DENIED

Reason:

There are some instances where necroposting is alright. Omni has coded a plugin to warn a user that they are about to necropost and shouldn't do so without a good reason. He has yet to implement it.

[Closing Comment](#)

Pay By Phone

Spoiler ([Click to View](#)) This suggests that people be able to pay via SMS/phone for subscriptions such as 1337.

This suggestion has been:

DENIED

Reason:

The cost to allow payment via SMS is extremely high. It triples the normal price. That price would impact the people buying 1337.

[Closing Comment](#)

Snippet Of PM In email.

Spoiler ([Click to View](#)) This is basically an Idea stating when you get a notification through email, there should be a snippet, meaning 3-4 sentence long description of what the PM is about.

This suggestion has been:

ACCEPTED

Reason:

Could give the receiver a better understanding of that he is receiving.

[Closing Comment](#)

Ban yourself.

Spoiler ([Click to View](#)) It stops your account from having changed passwords, disallowing you to post, give reputation, receive reputation, read PMs, receive PMs or anything else, this helps if you think you're getting hacked. This can't be abused, since you're basically limited + extra limitations.

This suggestion has been:

DENIED

Reason:

The time it takes for you to "lock yourself" you can contact a staff member to do it.

[Closing Comment](#)

[Report Abuse] link in reputation

Spoiler ([Click to View](#)) This is basically saying there should be a link on the rep it self saying "Rep Abuse" sending a PM or notification to a staff member.

This suggestion has been:

DENIED

Reason:

I wouldn't do this for fear of a huge amount of false reports everytime someone gets a negative.

[Closing Comment](#)

Report PM's

Spoiler ([Click to View](#)) This save times for the staff by checking their PM's, and the user doesn't have to take pictures and everything. It's just a quicker way to report rule breakers.

This suggestion has been:

DENIED

Reason:

It's possible. Not going to code it though and certainly wouldn't implement this even if it was part of MyBB.

[Closing Comment](#)

Make threads about being Rep Fucked against the Rules

Spoiler ([Click to View](#)) Stop people from making threads from this being rep fucked to get positive rep in sympathy.

This suggestion has been:

DENIED

Reason:

Generally those that complain get more negs. That's their own problem then.

[Closing Comment](#)

Different Xbox Sub-Forums.

Spoiler ([Click to View](#)) The current one has many junky threads that talk about nothing except 100 reaching threads etc.

This suggestion has been:

DENIED

Reason:

Those posts are related to the topic of that Forum.

[Closing Comment](#)

Tags for ub3r only.

Spoiler ([Click to View](#)) This idea is basically implying to create tags, what only ub3r could see.

This suggestion has been:

DENIED

Reason:

Too difficult to code.

[Closing Comment](#)

Able to play music.

Spoiler ([Click to View](#)) I think we should have a way to upload .mp3 or .wav or some sort of music format so if not on youtube, you can just upload to the site and it would be playable. Do you like the idea?

This suggestion has been:

DENIED

Reason:

Too many legal issues.

[Closing Comment](#)

Profile Playlist

Spoiler ([Click to View](#)) Why not have a profile playlist? Like mixpod or have it linked from somewhere else to HF like have a special box on your page with the border name. Blah's Music and in that box have your mixpod playlist?

This suggestion has been:

DENIED

Reason:

This is not a good idea. I'm not sure how you really think I would actually believe that.

[Closing Comment](#)

Multiple PM quantity should be increased for UB3R

Spoiler ([Click to View](#)) I think the limit for sending a PM to multiple users should be increased to 20 from 5 for ub3rs.

This suggestion has been:

DENIED

Reason:

Regular members are set at 2 per PM. I think 5 is fair enough. This can be abused if it was unlimited too easily.

[Closing Comment](#)

Banning Certain Users From Market Place

Spoiler ([Click to View](#)) My suggestion today is to make only certain users able to view/post on the market place.

This suggestion has been:

DENIED

Reason:

HF Staff doesn't get involved with the Marketplace.

[Closing Comment](#)

Permissions needed to sell/trade

Spoiler ([Click to View](#)) Well, in this suggestion, I was suggesting that you need 100 posts to actually create a thread in the sellers section/buyers bay/traders topic, and about 50 posts to post there.

This suggestion has been:

DENIED

Reason:

Would be too much spamming.

Omni doesn't have access to Transaction IDs because you pay Reg.net and Reg.net pays Omni, so Transaction IDs are different.

Kewlhotrod - January 11, 2010, 3:42 pm

Normal members, (1337 and Ub3r included), can only post a certain amount of characters in a post. I don't have that limitation anymore, thankfully, so I can actually keep this updated.

The OP hit that character limit the first time around.

And thanks, Amped. I appreciate it.

Amped- - January 11, 2010, 4:20 pm

Good one bro, But as I was reading, I noticed a slight error in one of your responses.

For the "BBCode in Sigs" Question, in the answer, you have stated that "It's also a MyBB limitation and a pain to code around."

In fact it is not, it just involves a simple change in the AdminCP.

I believe this is incorrect. The Thanks button was originally added as a joke that was never removed and never served any purpose nor had any functionality beyond the "Thanks is appreciated" popup.

Yea, if it isn't sold.. You or Kewlhotrod should change:

Quote:10-08-2009-----HF Sold! Omni Stays Admin; Owner Profits to:

Quote:10-08-2009-----HF deposit has been placed.

Incase the original guy backs down.. If the buyer does back down then it'll look like there is too much work/not gaining anything from the site when it comes around to another guy wanting to buy it..

hahaha...

This make a littel easy...

Thanks for the post.

Kewlhotrod - January 23, 2010, 3:55 pm

I'm still planning on doing a major update soon.

About to head to a party, though, so it might be a day or two.

Lol. Well, the reason that is is because MOST of the suggestions that are approved are easily noticeable and people don't make suggestions about them. xD

The Vouch System isn't denied?
atleast not anymore xD

shitsite - June 4, 2010, 12:04 am

I suggest you edit Vouch System and Mobile Site

hf.net/iphone

Vouch System is Under Construction.

Kewlhotrod - June 4, 2010, 8:34 am

I'll change the vouch system when it's completed.

That mobile site link doesn't work for me, and I don't see an announcement for it, sorry.

If everyone was to read this we wouldn't have alot of threads that have to be closed because they have been suggested before and usually denied.

Definitely cleared alot of things up for me great work.

Exactly at the starting stages it must of been tedious to enter all them, I guess the easy bit is adding to it, but with all the suggestions given each day it will be hard.

You do have a reason to, it prevent unknowledgeable comments like this. I said once it is in place and functioning I will place accepted. It could be a long way in the coming.
