I am FUD-crypting any servers that you would like me to.

Ub3r - Up to 3 servers.

L33t - Up to 2 servers.

Normal - 1 server only.

BY PMING ME ABOUT CRYPTING, YOU AGREE TO THE FOLLOWING:

Make sure your startup is OFF. I have automatic startup. If it is on, the server will be corrupted.

You must vouch after receiving your FUD crypter.

I will not TeamView you. There are too many hacks/exploits with TeamView at the moment, and I don't want to get infected.

I am aware that you WON'T ACCEPT THE FILE DOWNLOAD if it is not through Uppit and in .zip mode.

PM me with the following details:

RAT Name (Cybergate, Blackshades, etc):

Startup enabled (Yes/No):

Will you vouch after (Yes/No):
