What is E-Whore/Whoring?\_

E-Whoring is art and a skill not many can succeed in this world of con artistry. But I am going to teach you guys how to become one of the best at E-whoring and becoming a con artist and a manipulator. The basic things that you do in E-whoring is Find a slave (Pedophile, etc) show him some preview pic's to reel him in and get him to pay money to see you fully nude.

What You will need to get started

---

You will need a Paypal account ( This is Needed. )

Liberty Reverse ( Optional= Some slaves might not have PayPal. )

You Will need Skype , Msn or Yahoo ( I prefer Skype Since I Do Videos.

It also is good for pic's. )

You Will need Chatroom's to Advertise on and get your slaves

( I will get to that in a bit, Just keep reading. )

Picture Pack ( This is if you're selling picture's. )

Video Pack ( This is if you're selling "Private shows"=Videos.

I Recommend this Instead of pic. )

Manycam ( This is if you're doing Private show/Video E-whore.

I will get to that later as well. )

A VPN ( Just to be safe because In some places you can get charged/arrested for this. )

Now Getting Started

---

Trust me once you read this tutorial and keep practicing at e-whoring and manipulating slave (Pedophiles) You will be making BANK and will become one of the greatest at E-whoring .What you will need to get started Is already written above so make sure you have all of that to

be ready to E-WHORE (: . Once you have everything and your VPN turned on and have skype, msn or yahoo messenger up go to a chatroom.

Some chatroom site I have to release will be at the bottom of this page

so just continue reading. You will have to advertise your product (Pictures or Video) This is my little Hit line I spam "Selling Cheap Nudes and Wet , naughty PRIVATE SHO\*WS Add me on Skype, Msn or yahoo

messenger :Your Info HERE - Only If you are interested Hurry Im So wet Baby ". After you spammed a few times then you should be getting Friend Request.

Accept and ask them "Are you interested in my photos or video

" They will answer and go with whatever they asked for. Most of the slaves ask for proof or a preview/Sneak peek So if your selling pics

show them a couple of pic's with her clothes on . If you have a Rat or

Keylogger this is perfect for E-whoring infect the pictures and send it

to them. So that way you'r getting money and possibly get their CC

or Paypal Acc . Then after they see the pic they will want to buy give them your paypal e-mail or liberty reverse if thats what your using.

For video the slave's are most likely going to want to know if its

"really you" So you would go on ManyCam Load up your video and open up skype do a video call and show them a little something just for like 30sec. They will want to buy after that so give them your Paypal email or Liberty reverse. If you would like to keep this slave for tomorrow or some other day show him the show and when its over tell him " Tomorrow I will do another show for you and alot more freaky than this one was".

So then Tomorrow you wont have to show him a preview because he will think "its really you" so he will send money right away after you get the money delete him and keep the money.

## What is ManyCam? & ManyCam DL

---

ManyCam is a Program that lets you add a video and make it be showed as you're using a Webcam on any other program (Skype, Msn , Yahoo , Facebook etc) So this is for videos this is fucking amazing and completes the whole thing because without this we would not be able to E-whore with videos (: ! I will make a tutorial on how to use this really soon so just stay posted .

Here is the download link: <http://download.cnet.com/ManyCam-Vir...html?tag=mncol>

How To Use ManyCam TUT

## Chat Rooms

---

In the V.I.P. Section I added chat rooms that have Alot more pedophiles and a higher success rate and they have no E-whorer's advertising atm so its e-whore clean . Bet pedophiles would love some "Women to show them a show" Since there hasn't been none on those chat rooms lately.

Same old shit, nothing much newer. There's no "pro" way to E-Whore.

**JustTesting** - March 11, 2012, 3:41 am

A paypal account is not needed that much. You can always go for amazon etc..
