I ran this in Sanboxie to be safe and as soon as it opened, AVG told me that Teamviewer was trying to connect to the internet. I do NOT trust this.

Someone had OCX Runtime error. I added an OCX files installer found on the web, not by me. So use the installer at your own risk.

Edit: i could show on TV if someone is not sure about it.

the teamviewer thing was also reported by a beta tester.
i guess it injects or drops in the memory with that name. I'll try to remove this bug.
but meh ! its working fine for everyone else.

Too many asking for the crypter so i share it here:

Crypter Download: <http://adf.ly/6D0pq>

Crypter Pass: zKiLLz

- Don't upload it to online scanners like VT or it will get detected way too sooner !!
- Have Fun

Note: Can someone please reanalyse this to show it works fine. Or write a review about it ?

coolink9 - March 12, 2012, 8:57 am

I would be so excited if you would allow me access to this awesome new crypter u have released!!
thanks!!

Alfred - March 12, 2012, 9:01 am

Don't download, it's infected!

Look in %temp% and %appdata%

He makes a teamviewer application and a server.

zkillz - March 12, 2012, 10:11 am

here is the fixed scan !!

<http://elementscanner.com//image.php?ID=78551f10982fd56c14880e873cd90edd>

and leechers stop crying...anubis it or analyze it...it clean and works fine.
why don't u ask a senior member to check it for you if you don't know how to...
