snider.wes - March 12, 2012, 6:06 pm

Hey guys, I'm at college freshman at a top 5 public university in the US, with a double major in math and business.

Won numerous math contest awards throughout high school (sounds nerdy, I know).

If you need me to do a math assignment for you, or tutor you, I'm your man.

I can do pretty much any level of math for you, just hit me up and we'll try to work out a price.

VOUCHES: Already got an A on a math final for the user iPhone, look under my rep. Will be getting his vouch shortly =].

Looking to spend their time on better things than math homework? I'll do it for you. =]

Hook3r - March 14, 2012, 4:13 pm

You know much about indirect proofs?

I can do them, they're just a pain..

God are you in fucking middle school. ?

iPhone - March 14, 2012, 7:30 pm

Vouch, he did get me an A on my final. Thanks alot bro.

Guilt - March 14, 2012, 9:58 pm

Can you explain the chaos theory and how to derive the number 1 (mathematical proof of the number 1 actually existing)?

dalas - March 14, 2012, 11:37 pm

I will use you sometime, We will work out some kinda trade sometime and u can do my math threw via team veiwer
added to buddy list

Alright, just PM me or post on here if you need me.

Alside - March 16, 2012, 8:02 am

This actually seems really cool maybe I will try it sometime.

snider.wes - May 9, 2012, 12:33 pm

Offering this for summer courses that you guys might be taking as well.

pendemic - May 9, 2012, 10:29 pm

will PM you shortly in need of a tutor for summer term

GL with this I could of really used this a while ago to bad school is basically over :D

snider.wes - May 12, 2012, 7:00 pm

Thanks Lone! Bumping this back to the top, I'm currently available to help anybody with this that needs it.

Currently working on some online Geometry tests/quizzes for the user Extortion =]

Xilence - May 13, 2012, 3:43 pm

Did all of my online quizzes for me and got 100% on all of them all within a single day. There's still one more test to go (On Page 2 if you didn't catch it), but I'm extremely satisfied with his work and I would highly recommend him to anyone, needing something math related, done for you. Made my grade go from an F to a B+ in the class, so now I can get my Licence ?

HumbleMonster - May 13, 2012, 6:12 pm

Adding you to my buddy list. Plan on using your services some time in the future. :)

Bumping this thread up, always looking for new customers.

ISO - May 16, 2012, 11:12 am

Seems really legit , I give my vouch !

You should move this in the Service offering forum.

Good lucks for sales man !

-Im.z2ight- - May 16, 2012, 11:19 am

Snider do you go to yale? Seems awesome. What is your going rate? I might use you for accounting since you're a business major have you taken any business accounting classes yet?

snider.wes - May 16, 2012, 12:50 pm

Thanks for the vouch ISO!

No, I got waitlisted to Yale, but wasn't lucky enough to get in. =(

The rate depends on how hard/long the assignment or test is and will vary on a job to job basis. However, there's no harm in offering me a price.

I have taken financial/managerial accounting and gotten an A in it, but didn't really like it. I could take a look at your assignment when the time comes to see if I'd be able to help you.

Thanks for your interest!

Now helping him with his online test too. He owes me \$14 by next Wednesday, documenting this in the thread.

EDIT: Nigga owes me 20 cents. I'm warning you if you don't pay me \$.20 I'm opening a scam report.

(; Good workin with you bro

moneyatm - May 31, 2012, 6:40 pm

I confirm, I do owe him \$14 by next Wednesday.

Elegant - October 18, 2012, 12:30 pm

I need some help with Vector Calculus, can you help me?

gamingneeds - October 18, 2012, 8:21 pm

How much to tutor an 8 yr old and help him understand his math better? It would be multiple sessions most likely.

snider.wes - December 21, 2012, 12:04 am

b ump this shit! back in business if anybody needs that A+ =]
