Thread: [\[3/5\] Papoo CMS "menuid" SQL Injection Vulnerability](#)

Omniscient - May 2, 2007, 12:12 am

Kacper has discovered a vulnerability in Papoo CMS, which can be exploited by malicious people to conduct SQL injection attacks.

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.

thanks for the share

Kenji Harima - April 9, 2010, 11:40 pm

Interesting I'll keep this on my To do list.

ShodNFroid - June 18, 2010, 1:02 am

Thanks Omni, very useful.

Thanks for the Insight mate. I'll be hitting this on all 5 lappies shortly.

It'll be of great Interest to see the results.
