Thread: [\[HF Userscript \] Clickable Awards \[V 1.2.3 \] \[Now works with classic view! \]](#)

_DeNy - March 13, 2012, 7:56 pm

This script allows awards to be clickable within the post area.

For example, I can click on my gold medal award and it will open <https://hackforums.net/myawards.php?awid=21> in a new window.

How to install:I recommend Firefox with the Greasemonkey extension or Google Chrome with the (REQUIRED) Tampermonkey extension (REQUIRED).

Firefox: <http://userscripts.org/about/installing>

Opera: <http://www.howtogeek.com/howto/3986/set-up-user-scripts-in-opera-browser/>

Internet Explorer:

<http://www.ghacks.net/2008/11/16/install-greasemonkey-scripts-in-internet-explorer/>

Google Chrome / Chromium: Install [TamperMonkey](#) from the Chrome Web Store. Then follow the instructions for installing under FireFox.

If something is not working, please let me know.

Also, don't forget to check out my other scripts!

I must be retarded or something, but I installed it and it's not letting me click the awards lol. I restarted FireFox and everything (and yes I have greasemonkey enabled -.-)

Wow. Looks great. I will test it later ?

Thanks!!

Corpse - March 15, 2012, 7:52 am

Nice :) This is pretty cool considering the fact that you don't have to manually scroll to the awards page.

Thanks. These scripts will be really handy.

Mag1c-Pot - March 17, 2012, 3:47 pm

This is so awesome bro. Just installed it and tested and it works great. ;)

What I don't get is, if it's just a few lines of code, why do we need a fucking script for this? I remember reading in the suggestions page that it would take lots of resources to implement this feature. But either that explanation is ridiculous or maybe I just don't know shit about myBB. Still, great script.

Sulfer - October 9, 2012, 11:26 pm

I got to say this script is so helpful I cant believe omni didn't have already integrated in the site.thanks for this dude really love the scripts.(in fact I download all the ones that worked for me)Thanks again.=D

edit:may I suggest your next script.you should make a script that allows people to see the rules while making a thread.I think that would help a lot just edit the Idea a little But its just a suggestion.
