Thread: [What commands show system information?](#)

Papaya - March 14, 2012, 2:54 pm

Title explains all. What commands like net user and systeminfo display system information>

bakersbatch - March 14, 2012, 2:57 pm

what kind of system information do you want?

Papaya - March 14, 2012, 3:02 pm

All the system information that can be captured with commands.

Phaxol - March 14, 2012, 5:27 pm

You can just use

Code systeminfo35charssayswhat?

Code systeminfo35charssayswhat?I'm using that, but I want to get more information than that. I don't know if there are other commands like it. Read 1st post.

Blackice - March 14, 2012, 8:40 pm

Depending on what you want to do: start msinfo32

darksrc - March 15, 2012, 9:34 pm

This what you're looking for?

Code @echo off

color d

mode 46,25
