Thread: [Need a good domain idea for an E-whoring/SE forum](#)

Alf Stewart - March 15, 2012, 10:54 am

Title explains it all really, I'm in need of a good domain name idea for an E-Whoring / Social Engineering / Human Manipulation forum
The domain must not be taken (obviously) and must not be too long.

Thank you.

<http://www.sexdrugscrim.es.com> <- That's the first domain what came in my mind.

Thank you for the suggestion, it's a bit long though so might be tricky to remember.

There is no need for another shitty forum.

Thank you for being rude and obnoxious for no reason, your opinion has been taken on board however..

Sounds a bit like an adult website haha!, trying to appeal to not only E-Whores but social engineers aswell.

e-who.re

The domain can be registered for \$26 a year. Obviously, you could easily make that back.
