Thread: [Gettin my name around^^ Hacked smtp server, 1k emails](#)

spectrum10 - March 15, 2012, 10:35 pm

Just recently hacked into druckfarben.co.uk smtp server^^ Got control of the admin panel and sent emails to over 1k company emails with an html copy of my deface ? Starting get to get my team, "Th3_Phr3akz" Name out there hopefully.

Here is a few screen shots:

The email: <https://i.imgur.com/SZ4I7.png>

The emails sent to: <https://i.imgur.com/i81Vb.png>

Cool, good job. Looks good because It's plain like not to much going on.(not too busy!) and good job with the emails!

A32 - March 15, 2012, 10:46 pm

Nice work there bro, both the hack and the flash deface are cool

spectrum10 - March 15, 2012, 10:47 pm

Haha Thanks for the reply theegle! ^^

XXXUNFOUND PREDATORXXX - March 15, 2012, 10:48 pm

good job my friend well done looks good

Well done, I remember your name from something.

Happy to see you are doing well.
