I'd love to take a look at this mate.

Thanks in advance

Kiev - March 19, 2012, 5:46 pm

Not trying to "hate", however in your script you are multiplying the "MB/s" sent by 65, therefore producing a fake result. The strength of this shell is not as strong as it seems.

Hey this looks pretty cool. May I test this out? Thanks in Advance bro

Any chance of getting the Linux server specs?

???????? - April 26, 2012, 3:47 am

DDOS is not the correct term because DDOS that with victim or bot so it is DOS just flooding by request on UDP/TCP/POST.

Check this out : http://en.wikipedia.org/wiki/DDoS#Distributed_attack .

HeXagone - April 26, 2012, 4:05 am
