Why Pick Eminence?:

You may be asking why Eminence? What makes this group special? Why pay \$30 to get in this group? Well Eminence is one of a kind group, we take the opinions of all group members and try to improve the group as best as possible. You can come into the group not knowing anything but over time you will learn more and more about subjects such as HTML, PHP, CSS, Java, RFI, Networking, SQL and much much more. Eminence members are friendly are ready to help each other out when help is needed. Every few weeks we have Eminence meetings via Skype where everyone can come chill, talk, share opinions, and suggest new ideas to be put into the group. The group sub forum is very clean and you can find threads you are looking for easily. However some members might get upset for being kicked but for every kick there is a reason, Shadowcloud is in charge of the kicks for inactivity so members in the group are always active. Overall it is a great group to get into.

Terms of Service:

Any member that purchases their way into the group, agrees to these terms listed on this thread and that they will abide by them. 1: The users that bought their way into the group will follow the rules in the sub forum in the thread titled "Handbook." The rules are also posted here on the bottom of the page in a spoiler, so make sure to view them before purchasing. 2: After purchasing, there will be no refunds for any reason at whatsoever, any reversal on a payment will result in an immediate kick from the group and a scam report will be made. Other actions may occur. 3: Members that get reported for scamming will be watched and if enough evidence is shown, they will get kicked from the group with no refund. 4: I can not be held responsible for any of the actions that any members in the group perform, if someone scams you that is in the group then you can report them to me and I will do as listed in rule 3. 5: If you buy the group just for the userbar then you still have to follow the rules in the handbook and the rules below (They are the same thing) so don't buy into the group unless you know that you are able to follow the rules. 6: This is NOT the only way to join the group, every so often we have a recruitment thread so you may get in the group if your application had enough quality and effort. 7: The money will go back towards the group for the contests, hosting, etc. 8: Members can be approved or denied the ability to pay to get in the group by the group leaders.

For information on joining the group please contact [WiFi](#).

How Recruitment Works.

There are 3 different ways to gain access into Eminence.

The first being the Eminence Gauntlet. Member's that get chosen from the Gauntlet will have a very high rank in the group. Gauntlet's are hosted by the leader [ShadowCloud](#).

The second is by application where you will need the approval of the Eminence committee [here](#), the application form. Members will be picked based on skills, knowledge, application, and profile.(More information on that if you are in the group)

The last way to get into Eminence is via Payment, members that want to pay please go to this

thread [HERE](#).

No you did not. And it also wasn't a case of missing your posts for only one day, which we do tend
to understand. People who contribute to the group are still in it, this my word against your word
scenario is also exactly why we now have a committee of 5 Eminence members who will vote on the
kicks, it will no longer just be my discretion.

In addition to all that the subforum rules have now changed to 5 posts a week, instead of a daily
required post count.

(And honestly I have been far more forgiving than I should have with the kicks.)

We would most likely increase it. There will still, although only occasionally, be threads to recruit
members without the entry fee requirement, regardless though, entrance still requires that the
committee approve the application regardless of whether it is a free or paid application.
