Thread: [\[Updated\]????C++ Tutorials, Learning to Program in C++????\[Updated\]](#)

Recycle Bin. - March 18, 2012, 5:21 am

Welcome! If you're new to C++, I recommend you purchase Alex Allain's ebook, [Jumping in to C++](#), a complete step-by-step guide for beginners.

Learn C++ with this tutorial, designed for beginners and containing lots of examples, tips and simple explanations.

Quiz: The basics of C++[Intro to C++](#)(Lesson 1)

[If statements](#)(Lesson 2)

[Loops on C++](#)(Lesson 3)

[Functions in C++](#)(Lesson 4)

[Switch case in C and C++](#) (Lesson 5)

[Accessing Memory with Pointers](#)(Lesson 6)

[Structures in C++](#)(Lesson 7)

[Storing data with Arrays](#)(Lesson 8)

[Character Strings in C++](#)(Lesson 9)

[C++ File I/O](#)(Lesson 10)

[Typecasting in C and C++](#)(Lesson 11)

[Introduction to Classes in C++](#)(Lesson 12)

[Inline Functions in C++](#)(Lesson 13)

[Command line arguments](#)(Lesson 14)

[Singly linked lists in C++](#)(Lesson 15)

[Recursion in C and C++](#)(Lesson 16)

[Variable argumen lists for functions](#)(Lesson 17)

[Binary Trees in C++](#)(Lesson 18)

[Inheritance in C++](#)(Lesson 19)

[C++ Inheritance - Syntax](#)(Lesson 20)

--[Class Design in C++](#)

[Enumerated Types - enums](#)

[Formatting Cout Output in C++ using iomanip](#)

[Templates and Template Classes in C++](#)

[Understanding Initialization Lists in C++](#)

[Templated Functions](#)

[Template Specialization and Partial Template Specialization](#)

[The C Preprocessor](#)

[Getting Random Values in C and C++ with Rand](#)

[The C++ Modulus Operator](#)

--

Other cool stuff to program in C++[How to create a Keylogger in C++](#)

[How to create a simple Computer virus in C++](#)

[How to program a calcuator in C++](#)

[How to make a Tetris game in C++](#)

[How to Write your own screen saver in C++](#)

[How to make a Random number generation in C++](#)

[How to make a Pong game in C++](#)

Credits

Spoiler ([Click to View](#))

[Alex Allain](#) [For making the Quiz Tutorials. And the Random number generator.]

[Recycle Bin](#). [Sharing it on HF]

[Srikanth Ramesh](#) [How to create a simple Computer virus in C++]

BreakTheSec [How to create a Keylogger in C++]

[Nicckk](#) [How to program a calculator in C++]

[WolfCoder](#) [How to Write your own screen saver in C++]

Tim Raud [How to make a Pong game in C++]

A little message from me to you

Spoiler ([Click to View](#))

Many of you probably think that it's a waste of HF space that I posted this. But hey! I think that these guys did a really great job here and since a lot of members is asking questions about C++ programming I thought this would help some members out. So here it is. I hope you all enjoy it.

I will be posting more Tutorials for programming in C++ if you guys like this new update. Otherwise I don't wanna waste anyone's time.

vincentbelkin - March 18, 2012, 5:40 am

Thanks man! bookmarked this bad boy

Super Effective - March 18, 2012, 5:41 am

Instead of buying a single book, why not just go to one of the many threads in this section and pick a random guide?

<https://hackforums.net/showthread.php?tid=2284451>

I'd bet there is a lot more /free/ information in that thread than in your friend's book.

Recycle Bin. - March 18, 2012, 5:42 am

(Mar 18, 2012 05:41 AM)Super Effective Wrote: [\[CITE\]](#) Instead of buying a single book, why not just go to one of the many threads in this section and pick a random guide?

Because if you like me care about peoples hard work. I would buy Alex's Ebook And support him.

(Mar 18, 2012 05:40 AM)vincentbelkin Wrote: [\[CITE\]](#) Thanks man! bookmarked this bad boy

Your Welcome mate. I am glad you liked it.

Super Effective - March 18, 2012, 5:46 am

(Mar 18, 2012 05:42 AM)Recycle Bin. Wrote: [\[CITE\]](#) Because if you like me care about peoples hard work. I would but Alex's Ebook And support him.

I can understand supporting him for his work, but saying that implies all the other people who wrote the helpful guides in that other thread didn't care about their work which is obviously false. All those other people probably have the same content as this book. C++ isn't a complex changing entity, so all guides will have similarities.

Regardless, I probably shouldn't even be posting here. I just hate shameless self-advertising,

especially when people go outside their own thread to do it.

Hmm. Well as we say in Denmark. You have your opinion, I have mine. So let us just leave it here.
?

Soarzeh - March 18, 2012, 11:48 am

This is so helpful, thanks alot bro!

Prayanthem - March 19, 2012, 5:20 am

I have some questions about C++ and they are very basic, and probably very easy. I failed to find any "C++ Help thread" do you know of any?

Super Effective - March 19, 2012, 5:57 am

You should have looked a few posts up.

<https://hackforums.net/showthread.php?tid=2284451>

That thread has a ton of places you can find help, as well as this thread which is telling you about a place to get help with a bunch of links. There is literally everything you need in front of you, you just need to start reading it.

CryptShock - March 19, 2012, 8:29 am

Thanks for sharing this m8...

This Is going to be very usefull for me!!!

Thnx

LegitAxiom - March 19, 2012, 4:33 pm

This looks pretty helpful, thanks for sharing

Basch - March 19, 2012, 7:24 pm

```
#include <iostream>
```

```
using namespace std;
```

```
int main()
```

```
{
```

```
cout <<"Thanks for sharing this book with us recycle bin :)" << endl;
```

```
}
```

```
Return 0;
```

I'm such a n00b ?

Yogbobby2 - March 19, 2012, 7:37 pm

All I see that's missing polymorphism and virtual functions and pure virtual functions this easily covers the basics

Recycle Bin. - March 20, 2012, 12:08 am

(Mar 19, 2012 07:24 PM)Basch Wrote: [\[CITE\]](#) #include <iostream>

Well thank you mate! I am glad that many of you liked this! ?

khaleekstyle - March 25, 2012, 2:50 pm

IS there C# and C tutorials for Alex ?.. please if make a thread if there is lessons for both C and C# and post them like this one.. people will like your effort.. cuz you will help alot of people thanks

..

HFBBoy - March 25, 2012, 5:59 pm

The only thing i can't seem to get down is if statements, the if and else.... i don't want to skip it because i won't understand things later on but it is bugging me so much.

Recycle Bin. - March 26, 2012, 4:36 am

(Mar 25, 2012 05:59 PM)HFBBoy Wrote: [\[CITE\]](#) The only thing i can't seem to get down is if statements, the if and else.... i don't want to skip it because i won't understand things later on but it is bugging me so much.

Are you sure your following the guides right?

vendix101 - March 26, 2012, 5:01 am

cool, now i can continue learning C++

i failed this subject last 2008, having regrets now >,<

The Plague Doctor - March 26, 2012, 5:02 am

Thanks for this, I'll give it a read later and hopefully learn the basics.

PherrumCorpus - March 26, 2012, 1:04 pm

thank youso mch for this.very helpful

Grey Goose - April 25, 2012, 1:46 am

Awesome thread and from a awesome dane!

Denmark ftw!

Rocco3366 - April 26, 2012, 9:58 am

Soz if wrong page, i need to make a decision i decided i wanna learn how to program, but which 1 for first language. c, c++ or java?

kelaby89 - May 4, 2012, 6:22 am

WOW thanks OP this is very interesting :)

iWatch - May 4, 2012, 9:33 am

This is a very well-organized thread. You should collect some more threads and add them here.

Recycle Bin. - May 4, 2012, 9:34 am
