Webcam spreading method

Hey i want to give something back so here is a method how to get victims enjoy =)

Note First you might want to read all of this thread before you start to download anything, For a couple of reasons. And i do not take any responsibility for what you do with this method. Please do not leave any bad comments about how you already know about this. "Dont like it dont read it"

1. First things first :D You will need to have a video with a fake girl.

3 Methods how to get a video with a girl:

Quote:1. You can get a free video on the [E-Whoring section](#) but for the most of the time you will need to send a pm to get the video.

2. You can record your own video with a free Screen Recorder i recommend to use Hypercam, can be downloaded over [Here](#). And where can you finde a nice looking girls to record ? i found [this cam](#) site to record girls.

3. Or you can get my free cam video over [here](#)

2. Now when you have your video, you will need a program thats allow you to use a video as a cam. I recommend you to use Manycam download can be found [here](#)

(There will be a Manycam logo in the left corner but can be removed. Quote:To remove the ManyCam logo open ManyCam, then look for the "Text over video" category on the left side of the application window. Now click "Text over video" and in the middle of the window you'll see "Show ManyCam.com Logo". Uncheck that box and our logo will disappear.

3. Finde a Webcam site - Here is some popular sites [Chatroulette](#) [Omegle](#)
[Funyo](#)
[ChatRandom](#)

I strongly recommend [Chatroulette Sweden](#) because when you chat to someone there, your chat history will be saved for them even if they change partner. On Chatroulette.com your chat history will be cleaned after a new partner thats opportunity will give them more time to click on your link.

4. Get a Autotalker and a Clicker (optional) I,m using an auto talker and a clicker when i am using this sites because i do not want to see all nacked guys on all this sites. And its allot of work to type to each person.

And i can have it on when I,m sleeping. A good AutoTalker and Clicker can be found [Here](#) .

I know it will be lower percent thats will be clicking but you will be saving allot of time.

Tips: Take the Autoclicker on 35 sec and the AutoTalker on 20 sec. With a Message like this " Hi sweetie i just made a hot video with me stripping can you please go in here and rate it :/ ? "

5. I highly Recommend you to use "Vpn" because there are people thats will ban you for using a fake cam or spamming. And your ip will be banned of the site.. :(Chatroulette can even report you

to the police. The Free vpn,s i found is [Hotspot Shield](#) and [Thegreenbow](#).

6. What site should i upload it on ? The best would be to make an [Java Drive By](#). If not you can upload it to [FreewayHost](#) They best part with this site is its an direct link to download.

Thanks for reading ! Hope you learned something. And please leave a comment :)

Nice guide man, I may try this while I sleep or something.

Can you make the auto talker respond to something like if they guy asks a/s/l your auto talker can say 19/f/US ???
