Thread: [~Minecraft Griefing Team~ \\Team Stryker/// NOW RECRUITING!!!](#)

dcgamer24 - March 21, 2012, 12:58 pm

I have recently started a minecraft griefing team that at the moment has 15 members. I (xStrykerPro) has started this group a few days ago and if you would like to be part of it you will need to answer a few questions

Are you a minecraft premium member?

Do you enjoy griefing?

How old are you?

Do you have Skype?

Do you have facebook?

Do you have Mumble?

Are you currently banned from McBans?

Do you code java?

Are you familiar with Hacked clients?

Do you have any friends who play minecraft?

What is the latest time you can be up? (weekdays:weekends)

If you become part of this team, What "Role" would you like to have once in a server with us? aka. pvp, farming, mining etc...

Mohatu - March 21, 2012, 1:00 pm

Oh boy, here we go again. First post, you want to recruit for your awesome uber cool team. Oh I see that you ask whether or not we can code.. I assume you expect someone to code you a free client?

Good luck.. Expect to be flamed.

dcgamer24 - March 21, 2012, 1:07 pm

not asking to code a free client dumbass just asking IF they code. we already have 2 coders so i dont need you telling me what i should do with my time. better yet why dont you stop trolling on pages and get a life

There are dozens of these grieving teams floating around. What makes yours special? How about a nice thread layout? Some pictures of your private client? Some videos of your leet grieving skills?

dcgamer24 - March 21, 2012, 1:16 pm

did i say mine was special? no i didn't. and the clan just opened. why would i have any videos yet? the coder is in the middle of making the client. and did i say we are TH3 B3@\$TIYEST TEAM EVAARRR!!!111?? no i didn't this is why people like you are considered trolls

Wait so if it isn't special, and you think you are awesome, and you have two people on your "team" that can use Ctrl C and Ctrl V, then why are you recruiting?

BTW, Telling someone else to get a life is pretty pathetic. Look at what you're doing. Setting up a "team" for a block VIDEO GAME.

Sorry but this whole concept made me laugh.

Here's my app:

Are you a minecraft premium member? Who isn't?

Do you enjoy grieving? No, I think destroying people's hard work is extremely pathetic.

Do you have Mumble? Yes.

Do you code java? If by code Java you mean can I copy other people then yes.

Are you familiar with Hacked clients? What's a hack?

Do you have any friends who play minecraft? What's a friend?

What is the latest time you can be up? (weekdays:weekends) My mom sometimes let's me stay up until 8PM on Saturdays.

In case you hadn't noticed already, you just got trolled. Rightly so.

If you become part of this team, What "Role" would you like to have once in a server with us? aka. pvp, farming, mining etc... My role would be a Griefer/Scout. I've grieved a lot, and not once being caught, and I've been bored lately, so I thought this would be something fun to do in my free time.

1. This thread is posted wrong section, should be in the Minecraft Griefing Section
2. We shouldn't be arguing in this section
3. This is actually really sad, Insulting people that have more knowledge then you is very disrespectful
