Thread: [Social Exchange Script - Own your own Social/Traffic Exchange with full support!](#)

Dorsch - March 22, 2012, 3:45 pm

Ever want to own your own social or traffic exchange?

[\[img\]http://socialexchangescript.com/images/features.png\[/img\]](http://socialexchangescript.com/images/features.png)

SocialExchangeScript is an exchange system that very user friendly for both the user and the owner.

As an owner, all you have to do is drag and drop plugins into a folder and administer through an amazing administration panel.

Social Exchange Script is a script that is very easy to install and comes with full support.

All you need to do is drag and drop the files into the plugin folder to add additional features or to install updates!

We release many new features and updates and are always working to improve the script for your benefit.

Sign up for an account to fully view the store and see for yourself why many others choose social exchange script as well.

An example of a website running on this script is www.likeviews.com

[Click here to be taken to the store.](#)

Love this system! Bought the whole bundle!

Mr Kewl - March 27, 2012, 8:35 am

Seems like a good script.

I bet nulled versions are available for this.

Dorsch - March 27, 2012, 11:02 pm

There are no nulled version of this custom script available. No one who has purchased would want to do so, we offer excellent support and there are many updates, so you would soon be left behind anyways with one.

pigpen - April 8, 2012, 12:13 pm

Dorsch, I'm having issues again with getting social exchange to work. I keep getting errors after I fix other errors, I'm unable to login to the admin panel etc. I'm hosting on GoDaddy. Please help with the install ...this is driving me nuts , I fixed one error then another one comes up and so on.

Dorsch - April 8, 2012, 1:36 pm

I messaged you, when an issue such as that arises it is because the SQL Database does not fully support all features required.

pigpen - April 8, 2012, 7:31 pm

I got it working!!!! I had to download the db.sql and then upload it to my database I had created!!! Thank you so much for all your help Dorsch and thank you for taking the time to talk to me on skype !!!

durga - May 28, 2012, 4:15 pm

got a copy of this. but his main site is still down, can't purchase "coins to cash" add-on. if you're willing to share , id be glad to accept it.. hahaha

Dorsch - June 18, 2012, 3:12 pm

I am selling the store. If anyone wants the files still contact me.
