Unfortunately not, I am giving all members a chance to win this

Any chance you could send me a link that doesn't have a survey attached. I couldn't get the survey to work, I tried multiple types and times.

If you can't do that, can I please still enter with number 4? Thank-you :D

Thank-you in advanced :)

Anyways, if you're going to play online, then install the "Multiplayer" version, obviously ? If you're going to play missions, install the other version. But I think most peoples as my self has installed both.
