Handsome Banana - March 24, 2012, 6:28 am

This is massive and brilliant. Well done man ?

Sw1x - March 24, 2012, 6:34 am

Well done, and I like the deface, looks very professional.

spamon - March 25, 2012, 2:27 am

Haha very nice, and i love the deface aswell :~)

Flaminflash - March 25, 2012, 3:01 am

Seems the company has turned off their servers.. L!OL

The Ion - March 25, 2012, 4:41 am

Lol sites are offline All these mirrors can be seen in z-zone-tk

Glimpse - March 25, 2012, 5:50 am

LOL, that's a big ass list.

Nice bro. ;)

The Ion - March 26, 2012, 2:25 am

thank you :) the sites are offline i think

supracontra - March 26, 2012, 2:27 am

You had root axs to the box and decided to just deface all the websites hosted on it....?

aydin-ka - March 26, 2012, 2:28 am

Good work ?

P.S: but i open some site...and they give me 404. Maybe admin's delete your shell

Pretty damn nice, but defacing is such a waste.

ElwinZ - *March 26, 2012, 11:29 am*

lol with this method i got a server of 25.000 Dutch domains x'D

Didn't defaced anything, first i wanted the Creditcards where'd you get them what table?
